To Whom It Might Concern,

In have been a loyal client of Pine Mountain Olive Farm for many years now. It has been brought to my attention that their farm is in jeopardy due to recent plans for development near their farm the natural resources used on the farm. They are highly reputable organic olive farmers in Mendocino County, and their product holds weight where utilized. Unfortunately, should the farm lose its rights to claim organic artisan products, we may need to seek elsewhere for our products. I have had a close relationship with Roger and Kate over the years, and it is a shame to witness what is happening to the two, very driven hard-working farmers, whom have poured their hearts into the company. I hope that whomever is assessing the situation sees light in our recent fires and the dangers that having foreign campers in a dry forested area possess; along with all the spillage of a parking lot located adjacent to their pond, trash pollution, and all else entailed could pose to these two that do nothing but the right thing for everyone in the community in their beautiful organic farm on Pine Mountain.

Sincerely,

Rachelle Carl
