Project Title: Williams Creek Bridge at Powerhouse Road (10C-0166) Replacement Project

Project Applicant: Mendocino County Department of Transportation

Project Location (include county): Powerhouse Road in east-central Mendocino Co., Potter Valley area

Project Description:

Mendocino County, in conjunction with the Caltrans, and the FHWA, is proposing to replace the Williams Creek Bridge at Powerhouse Rd. (10C-0166). The project proposes replacing an existing single-lane, single-span, dual railroad flatcar with timber-deck bridge structure. The existing bridge is classified as 'Structurally Deficient' with a sufficiency rating of 47.6, and is eligible for replacement under the FHWA HBP administered by Caltrans. The new structure will conform to Caltrans freeboard standards for 50- and 100-year flood events. Construction is planned for summer 2018 and will take approximately four months to complete.

This is to advise that the Mendocino County Board of Supervisors has approved the above
☒ Lead Agency or ☐ Responsible Agency

described project on July 11, 2017 and has made the following determinations regarding the above
 (date)
 described project.

1. The project [☐ will ☒ will not] have a significant effect on the environment.
2. ☐ An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.
☒ A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [☒ were ☐ were not] made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan [☒ was ☐ was not] adopted for this project.
5. A statement of Overriding Considerations [☐ was ☒ was not] adopted for this project.
6. Findings [☒ were ☐ were not] made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

Mendocino County Department of Transportation, 340 Lake Mendocino Drive, Ukiah, 95482
