Geographic Location: <input type="checkbox"/> Mendocino County/or other County?(List here)

Sonoma County Public Health Laboratory will do the following:

1. Identify the Tick (Genus and Species)
2. Test the tick, using a fluorescent antibody technique, for the presence of *Borrelia burgdorferi*.
3. Mail you a final report. (**All positive results will be telephoned to the client.**)

This form should be completed, printed and mailed along with your tick specimen and payment.
