11. Whole Person Care Grant Overview: Megan Van Sant, Sr. Program Manager, HHSA Advocacy & Collaboration Team presenting

   1. Chair McGourty introduced Megan Van Sant.
      A. Ms. Van Sant referred to the handouts provided in the agenda packet; she reviewed the information and answered questions.
      B. Ms. Van Sant stated the Whole Person Care (WPC) project is a federally funded project.
         I. The goal is to identify people with high level needs that are not being met with their current services that meet the criteria for the project.
         II. When a person is enrolled they get a wellness coach, short term housing if/when they are discharged from hospitalization, and expedited access to Substance Use Disorder Treatment (SUDT) services. There will be a lot of providers looking out for them.
      C. Ms. Van Sant thinks there are about eighty-one people enrolled currently and they are looking at having up to two hundred people enrolled as the project moves forward.
      D. The providers/partners in WPC are struggling with the issues around data sharing. All participants have signed a pretty extensive agreement and are willing to work out the issues.
      E. There will be case conferencing every week to keep all the providers up to date.
      F. Member Pekin asked who the wellness coaches will be and the level of experience required.
I. Ms. Van Sant commented the wellness coaches will be paraprofessionals.

II. Wynd Novotny Director of Manzanita commented there is training provided through RCS. The wellness coaches are not licensed staff; they have experience with mental health. She feels confident the coaches that have been hired will be able to hit the ground running.

III. RCS CEO Camille Schraeder commented the coaches will be working with the primary care providers.

G. Member Rich asked how the data sharing was going to be done.

I. Ms. Van Sant commented they are looking at various formats. At this time no one is being asked to change to a different Electronic Health Record (EHR).

H. Member Martinez asked what the service areas are.

I. Ms. Van Sant stated WPC is open to the whole county, at this time mainly focusing in Ukiah, Willits and Fort Bragg, but they are hoping to expand to other communities. They are looking at expanding the providers and partners to include more clinics.

I. Member Lockart expressed concern about the short care coordination for housing.

I. Ms. Van Sant explained everyone will enter the program at a high intensity level so there has to be an exiting point. The grant does not provide for long term housing.

II. Chair McGourty stated BHAB had made a recommendation to BOS to have some kind of form to keep information regarding housing back ground information so that people wouldn’t have to pay to have a background done each time they applied for housing. She wondered if something like this could be incorporated into WPC.

III. Ms. Van Sant is not aware of anything regarding having a position in the county to hold information for people looking for housing. She will look into it and follow up with the housing unit.

J. Question - Does WPC track the data of where the clients are being referred from?

I. Ms. Van Sant doesn’t have the information with her, but yes they know where the referral came from.

K. Member Behringer asked if they were keeping stats on which criteria is being met for enrollment.

I. RCS CEO Schraeder stated yes they are tracking with the enrollment.

II. Member Behringer asked if there could be a report included with the RQMC stats at the next BHAB meeting.

III. RCS CEO Schraeder stated they will provide the numbers at the next BHAB meeting.

L. Ms. Van Sant reminded everyone this is a very new program and they are just getting started and still working out issues as they come up.

I. Wynd Novotny Director of Manzanita commented that
when starting any process you have to develop a relationship with clients and providers. Rapport building with clients as to all the paperwork and new people involved is important; you have to build a safe space for the client.

II. Karen Rizzolo from Hillside Clinic commented the clinics have been trying to get something like WPC in place for probably ten years. She is hoping this will be the first step in making it happen.

### Mendocino County Report: Jenine Miller, Psy. D., BHRS Director

1. Mike Palleson from Rural Communities Housing Development Corporation (RCHDC), the developers for the Willow Terrace project, stopped by the meeting to thank BHAB for all the support to get this project going. 5. Specialty Mental Health Education:
   A. This will take a couple of meetings to get through, but BHRS Director Miller will be giving an overview of services, about what Specialty Mental Health (SMH) services are and try to give members a good idea of what it entails.
   I. SMH services are not all of the levels of mental health (MH) services. The County only provides a small portion of MH services.
   II. In 1965 congress passed legislation to have Medicare and Medi-Cal enacted to provide MH services.

### Discussion and Possible Action:
III. In 1968 California implemented their Medi-Cal program.
IV. In 1968 the Lanterman-Petris-Short (LPS) act for Conservatorship was implemented in California. Creating a judicial system for people conserved.

VII. In 2004 the Mental Health Services Act (MHSA) was implemented. This was funding to increase in MH programs and staffing.

The time of meetings was changed to later in the day with the hope that more people could attend at that time. She is open to ideas and suggestions regarding ways to increase attendance. The Committee has received in the past feedback from the community they wanted more of a educational training type of meeting.
   C. Question - What is the purpose of the meeting?
      I. Acting Deputy Director Lovato commented to provide more information and education to communities on what is working and not working.
      II. Acting Deputy Director Lovato explained the plan that is required by the State is to look at disparities, and what is being done. The report is required and submitted to Department of Health Care Services (DHCS). She commented that BHRS including MH and SUDT is the focus. The target audience is the community in general, anyone that considers themselves interested in the improvement of BHRS.
   D. Question - Has the Committee developed goals and objectives?
      I. Acting Deputy Director Lovato commented they do have goals and objectives, they are not dictated by the State.
   E. Member Martinez stated he doesn’t know how the Committee is put together and where did the information come from? How does the County define culture? He wants
to know who is on the board and committee. Was there public announcement for the committee?
I. Acting Deputy Director Lovato stated the feedback is really important. For clarification it’s a stakeholder meeting, not a formal board. She stated the County is mandated by the State and it is unfunded. Any funds used are MHSA funds.
A. Acting Deputy Director Lovato listed some of the trainings that the County has provided. County staff facilitates the meetings based on the input from the stakeholders.
   I. Chair McGourty commented that she and Member Lockart attended the last meeting at the Hopland Rancheria. There were no tribal members in attendance.
   II. Member Lockart commented that the agenda stated to improve responsiveness to Native Americans. She commented the correct way to set up a meeting on their land is to contact the tribal leaders to see if this is a good time to do the meeting and invite them to be there. She was appalled that she was on tribal land and there were no tribal representatives and the lack of understanding of proper protocol.
   III. Acting Deputy Director Lovato commented that she appreciates the comments and acknowledges that they need to work on the way to communicate with First Native People.
B. Acting Deputy Director Lovato talked about how there are different ways of looking at culture.
   I. Member Lockart commented on the historical trauma of the First Native People.
   II. Acting Deputy Director Lovato commented that the County needs to be better at the way they communicate with First Native People.
   III. Member Lockart talked about all the problems that tribal people have dealing with outsiders and are not always able to talk about it.
