

Cultural Diversity Committee Meetings 2018-2019 Schedule

The purpose of the Cultural Diversity Committee Meeting is to hear feedback from consumers of behavioral health services, providers of behavioral health services, community members, and other interested stakeholders about how our Behavioral Health Services are meeting our Cultural Diversity needs and goals. The meeting will consist of an educational component, a review of cultural diversity and competency goals and benchmarks for the year, and an opportunity to have dialogue between providers, consumers, and community members. When possible there will be a panel of speakers sharing their experiences.
