

## EXHIBIT A

### **CHAPTER 10A.17 - MENDOCINO CANNABIS CULTIVATION ORDINANCE**

#### **Sec. 10A.17.040 - General Limitations on Cultivation of Cannabis.**

The following limitations shall apply to all cultivation of cannabis in Mendocino County, including but not limited to cultivation pursuant to a Permit issued under this Chapter or an exemption provided for in Section 10A.17.030. Cultivation of cannabis shall also be subject to all applicable restrictions of Mendocino County Code Chapter 20.242.

- (A) The cultivation of cannabis in Mendocino County, in any amount or quantity by any entity, shall not be allowed in the following areas:
- (1) Within one thousand (1,000) feet of a youth-oriented facility, a school, a park, or any church or residential treatment facility as defined herein that is in existence at the time a Permit is initially applied for.
  - (2) Outdoors or using mixed light within one hundred (100) feet of any occupied legal residential structure located on a separate legal parcel; provided, however, that on January 1, 2020, this setback shall be increased to two hundred (200) feet for all Permit applications but shall not apply to renewals of Permits originally issued before that date.
  - (3) Outdoors or using mixed light in a mobile home park as defined in Health and Safety Code Section 18214.1 within one hundred (100) feet of an occupied mobile home that is under separate ownership.
  - (4) In any location where the cannabis plants are visible from the public right of way or publicly traveled private roads.
  - (5) Outdoors or using mixed light within fifty (50) feet from any adjoining legal parcel under separate ownership or access easement (whichever is most restrictive); provided, however, that on January 1, 2020, this setback shall be increased to one hundred (100) feet for all Permit applications but shall not apply to renewals of Permits originally issued before that date.
  - (6) Any indoor cultivation sites that comply with paragraph (A)(1) shall also be subject to the following:
    - (a) Indoor cultivation sites shall comply with the building property line setback established by the zoning district in which the cultivation site is located.
    - (b) The cultivation of cannabis within an accessory structure shall be allowed subject to the development requirements of the zoning district in which it is located and to requirements of Chapter 20.164 — Accessory Use Regulations except, notwithstanding Section 20.164.010: (a) the cultivation of cannabis in an accessory structure is not permitted prior to the construction of the legal dwelling unit on the parcel, if a legal dwelling unit is required by this Chapter, and (b) cultivation of cannabis shall only be allowed on the same parcel as the dwelling unit, if required.
    - (c) Indoor cultivation sites for individuals desiring to cultivate cannabis for adult use pursuant to section 10A.17.030(C) shall also be subject to the following limitation: cultivation sites located within a private residence that is a rental unit, as that term is defined by County Code section 20.008.050, shall not be located in any indoor space other than a garage or accessory structure.
- (B) The distance between the listed uses in the above paragraph (A)(1) and cannabis that is being cultivated shall be measured in a straight line from the nearest point of the fence required in section 10A.17.040(H), or if the cannabis is cultivated indoors, from the nearest exterior wall of the building in which the cannabis is cultivated to the nearest point of the exterior wall of the

facility, building, or structure, or portion of the facility, building, or structure in which the above-listed use occurs or to the nearest point of any fenced, maintained or improved area where the users of the facility are typically present during normal hours of operation, whichever is closest. The distance in paragraphs (A)(2) and (A)(3) to any residential structure shall be measured from the fence required in section 10A.17.040(H) to the nearest exterior wall of the residential structure. The distance in paragraph (A)(5) shall be measured from the fence required in section 10A.17.040(H) to the boundary line of a legal parcel or access easement.

Applicants may seek a reduction in the setback described in paragraphs (A)(1) and (A)(5) upon issuance of an administrative permit pursuant to Chapter 20.242. See also sections 20.242.060(D) and 20.118.040(C), (D) and (E) for further exceptions to setback regulations.

- (C) The outdoor, indoor or mixed light cultivation of cannabis shall not propagate objectionable odors which cause injury, detriment, nuisance, or annoyance to any considerable number of persons or to the public, or that endanger the comfort, repose, health, or safety of any of those persons or the public.
- (D) The indoor or mixed-light cultivation of cannabis shall rely on the electrical grid or some form of alternative energy source. The indoor or mixed-light cultivation cannabis shall not rely on a generator as a primary source of power.
- (E) All lights used for the indoor or mixed light cultivation of cannabis shall be fully contained within structures or otherwise shielded to fully contain any light or glare involved in the cultivation process. Security lighting shall be motion activated and all outdoor lighting shall be shielded and downcast or otherwise positioned in a manner that will not shine light or allow light glare to exceed the boundaries of the legal parcel upon which they are placed.
- (F) All activities associated with the cultivation of cannabis shall not exceed the noise level standards as set forth in the County General Plan Policies DE100, 101 and 103.
- (G) All cultivation of cannabis shall not utilize water that has been or is illegally diverted from any spring, wetland, stream, creek, or river. The activities associated with the cultivation of cannabis shall not create erosion or result in contaminated runoff into any stream, creek, river or body of water.
- (H) All cannabis grown in Mendocino County (excluding indoor growing) must be within a secure, wildlife exclusionary fence of at least six (6) feet in height that fully encloses the immediate garden area. The fence must include a lockable gate that is locked at all times when a qualified patient, caregiver or permittee (or their agent) is not in the immediate area. Said fence shall not violate any other ordinance, code section or provision of law regarding height and location restrictions and shall not be constructed or covered with plastic or cloth except shade cloth may be used on the inside of the fence.
- (I) All buildings where cannabis is cultivated or stored shall be properly secured to prevent unauthorized entry.
- (J) Persons cultivating cannabis pursuant to either section 10A.17.030, paragraphs (B) or (C) shall also comply with the provisions of section 10A.17.110, paragraphs (N) and (O).
- (K) Prohibition on Tree Removal. Removal of any commercial tree species as defined by Title 14 California Code of Regulations section 895.1, Commercial Species for the Coast Forest District and Northern Forest District, and the removal of any true oak species (*Quercus* sp.) or Tan Oak (*Notholithocarpus* sp.) for the purpose of developing a cannabis cultivation site is prohibited. This prohibition shall not include the pruning of any such trees for maintenance, or the removal of such trees if necessary to address safety or disease concerns.

## **Sec. 10A.17.080 - Permit Phases and Requirements Specific to each Phase.**

Unless specifically exempted, in addition to compliance with all other requirements of this Chapter, all Permits shall comply with the following requirements:

- (A) Permits under the MCCO will be issued in the following three phases:
  - (1) Phase One: Following the effective date of the MCCO, Permits will only be issued to applicants who provide to the Agricultural Commissioner pursuant to paragraph (B)(1) of this section proof of cultivation at a cultivation site prior to January 1, 2016 ("proof of prior cultivation"), and who comply with all other applicable conditions of this Chapter and Chapter 20.242. Applications for Permits during Phase One shall only be accepted until June 30, 2018; provided, however, that applications for Permits within the areas subject to the sunset provision of paragraph (B)(2)(b) of this section shall be accepted until December 31, 2018. Applicants able to provide proof of prior cultivation may apply for a Permit on a relocation site pursuant to paragraph (B)(3) of this section.
  - (2) Phase Two: Starting January 1, 2018, the Agricultural Commissioner will begin accepting applications for Type 1A and Type 2A Permits for indoor cultivation in the following zoning districts, subject to compliance with all other applicable conditions of this Chapter and Chapter 20.242: Limited Industrial (I-1), General Industrial (I-2), and Pinoleville Industrial (P-I). Proof of cultivation prior to January 1, 2016, is not required.
  - (3) Phase Three: Starting January 1, 2020, the Agricultural Commissioner will begin accepting Permit applications from any applicant in conformance with the conditions of this Chapter and Chapter 20.242. Proof of cultivation prior to January 1, 2016, is not required.
- (B) Requirements specific to Phase One Permits.
  - (1) Proof of Prior Cultivation. Persons applying for a Permit during Phase One shall be required to provide to the Agricultural Commissioner evidence that they were cultivating cannabis on the cultivation site prior to January 1, 2016, which cultivation site shall have been, or could have been, in compliance with the setback requirements of paragraph (A) of section 10A.17.040. Evidence shall include:
    - (a) Photographs of any cultivation activities that existed on the legal parcel prior to January 1, 2016, including: (i) ground level views of the cultivation activities and (ii) aerial views from Google Earth, Bing Maps, Terraserver, or a comparable service showing: both the entire legal parcel and the cultivation site in more detail. The date these images were captured shall be noted.
    - (b) Photographs of any cultivation activities that currently exist on the legal parcel, including: (i) ground level views of the cultivation activities and (ii) aerial views from Google Earth, Bing Maps, Terraserver, or a comparable service showing: both the entire legal parcel and the cultivation site in more detail. The date these images were captured shall be noted.
    - (c) At least one (1) additional document demonstrating cultivation on the legal parcel prior to January 1, 2016, which evidence may be used to substitute for evidence pursuant to clause (a). The Agricultural Commissioner shall prepare a list of the types of documentation that will be accepted to meet this requirement, and may accept other similarly reliable documentary evidence showing that cannabis was cultivated prior to January 1, 2016.
    - (d) Proof of prior cultivation shall be assigned to the applicant relative to their prior cultivation site.
    - (e) Persons who participated in a permit program pursuant to the County's Chapter 9.31 in previous years may present evidence of such participation and payment of all required fees in order to provide proof of prior cultivation.

- (2) Zoning Districts; Exceptions. Existing cultivation sites not located in zoning districts where Chapter 20.242 specifically allows cultivation may be issued a Type C, Type C-A, or Type C-B Permit, subject to the following requirements, in addition to all other applicable requirements of this Chapter:
- (a) The zoning district is one where a dwelling unit is a principally permitted use and a dwelling unit is present.
  - (b) Sunset Provision for Residential Districts. Cultivation sites on legal parcels located in the Single-Family Residential (R-1), Two-Family Residential (R-2), Multiple-Family Residential (R-3), Suburban Residential (S-R), Rural Community (R-C), and Rural Residential (lot sizes one (1) acre, two (2) acres and five (5) acres [legal non-conforming parcels to minimum zoning size][R-R:L-1, R-R:L-2, and R-R:L-5 {legal non-conforming to minimum zoning size}]), as well as cultivation sites in any other zoning district where a dwelling unit is a principally permitted use and the legal parcel is less than two (2) acres in size, are subject to the following requirements:
    - (i) There is an occupied dwelling unit on the legal parcel with the cultivation site.
    - (ii) A Permit may be renewed and valid only until three (3) years following the effective date of the ordinance adopting this Chapter and any permits issued shall be void not later than three (3) years following said effective date.

The provisions of this subsection, however, shall not apply in areas designated as Cannabis Accommodation (CA) Combining District, nor shall they apply to parcels zoned Rural Residential (lot size five (5) acres [R-R:L-5]) that are between 3.5 and 4.99 acres and have been issued an administrative permit pursuant to section 20.242.070(C).
  - (c) Cultivation sites on legal parcels located in the Rural Residential zoning district, lot size five (5) acres (conforming parcels of five (5) acres or more only) (R-R:L-5), are subject to the following additional requirement that there is an occupied dwelling unit on the legal parcel with the cultivation site.
  - (d) If a Permit is granted pursuant to this paragraph (B)(2) in these zoning districts, any future revocation or lapse in renewal of such Permit shall extinguish the ability of any person to obtain a Permit for such cultivation site.
- (3) Relocation. Persons able to show proof of prior cultivation pursuant to paragraph (B)(1) above may apply for a Permit not on the site previously cultivated (the "origin site") but on a different legal parcel (the "destination site"), subject to the following requirements:
- (a) Persons may apply to relocate their cultivation site pursuant to this paragraph (B)(3) until three (3) years after the effective date of the ordinance adopting this Chapter, or until May 4, 2020.
  - (b) The location and operation of the proposed cultivation site on the destination parcel complies with all requirements and development standards that apply to a new cultivation site as of January 1, 2020, pursuant to this Chapter and Chapter 20.242; provided, however:
    - (i) An existing cultivation site shall not be transferred to a legal parcel located within the Forestland or Timber Production Zone zoning districts.
    - (ii) An origin site may relocate to a destination site in the Rangeland zoning district, so long as the destination site has an existing cultivation site and no new cultivation sites would be established.
  - (c) The origin site shall be restored. The application for a Permit on a destination site shall be accompanied by a restoration plan that is consistent with the standard conditions and best management practices listed in the North Coast Regional Water Quality Control Board Order No. 2015-0023, and which shall include the following:

- (i) Remove or repurpose buildings, greenhouses, fences, irrigation equipment, water intakes, pumps, storage tanks and other materials brought to the origin site for the purpose of cannabis cultivation;
  - (ii) Remove illegal dams, ponds or other in-stream water storage to restore natural stream flows, unless such features will continue in use;
  - (iii) Remove or compost agricultural wastes;
  - (iv) Remove trash and other debris; and
  - (v) Revegetate cleared areas with native plants typical of nearby natural areas, including groundcover, shrubs and trees.
- (d) Unless the destination site is within the Agricultural zoning district, the application shall include either a water availability analysis pursuant to paragraph (C)(1)(b) below or a will serve letter pursuant to paragraph (C)(1)(c) below.
- (e) Prior to the issuance of the Permit to cultivate cannabis at the destination parcel, the applicant shall provide the Agricultural Commissioner with an agreement, on a form approved by the Agricultural Commissioner and County Counsel, providing that the applicant releases any right to continue or resume cultivation of cannabis on the origin parcel.
- (f) If a person is granted a Permit for a destination site, any claims of proof of prior cultivation on the origin site shall be effectively transferred to the destination site, and the ability to claim proof of prior cultivation at the origin site shall be extinguished.
- (g) There shall be a two (2) acre minimum parcel size for all Type C, Type C-A or Type C-B Permits.
- (4) Multiple Permits may be applied for and granted on a single legal parcel that is owned by multiple persons residing in separate habitable dwelling units on that legal parcel. Each owner may individually apply for a Permit to cultivate cannabis, provided that each owner must provide proof of prior cultivation pursuant to paragraph (B)(1) above. Each owner shall be limited to a Type C, Type C-A or Type C-B Permit, unless that owner was previously enrolled in a permit program pursuant to the County's Chapter 9.31, or unless the cumulative total square footage of plant canopy applied for by all owners does not exceed the maximum square footage permitted on a parcel for the relevant zoning district.
- (5) Persons eligible to apply for a Permit during Phase One may apply for a different and/or larger Permit type in subsequent years, subject to all requirements of this Chapter.
- (6) If a Permit is granted pursuant to this paragraph (B), any future revocation or lapse in renewal of such Permit shall extinguish the ability of any person to obtain a Permit for such cultivation site, unless otherwise allowed by this Chapter 10A.17; provided, however, for Permits granted in the Rangeland (RL), Forestland (FL) or Timberland Protection (TPZ) zoning districts, not more than once in a five (5) year period, a Permittee may file with the Department of Agriculture, on a form prescribed by the Department, a Notice of Non-Cultivation instead of an application to renew the Permit, and the Permittee's ability to obtain a Permit for such cultivation site will not be extinguished.
- (C) Requirements specific to Phase Three Permits.
- (1) Watershed Assessment. All Permit applications, except for legal parcels located in the Agricultural (A-G) zoning district, shall demonstrate there is adequate water to serve the cultivation site.
- (a) If surface water (or groundwater influenced by surface water) will be used, applicants may demonstrate that there is adequate water by providing (i) a watershed assessment that establishes there is sufficient watershed supply to serve the proposed cultivation site and existing uses within the watershed, and (ii) a water right exists to serve the cultivation site. A watershed assessment shall consist of an established "In Stream Flow Policy" as

prepared by the State Water Resources Control Board Division of Water Rights or an equivalent document approved by that agency.

- (b) If groundwater not influenced by surface water will be used, the applicant may demonstrate that there is adequate water by providing a water availability analysis which will address the adequacy of the proposed water supply, the direct effects on adjacent and surrounding water users, and possible cumulative adverse impacts of the development on the water supply within the watershed and show there is a sustained yield to support the proposed level of use.
- (c) If water will be provided by a mutual water company, municipal or private utility or similar community provider, the applicant may demonstrate that there is adequate water by providing a will serve letter from the proposed provider.
