CASE # MS-2016-0004

Mendocino County

JUL 18 2018

Planning & Building Services

To whom it may concern;

We live directly behind the property
and we do not want the subdivision
of the property for the following
reasons:

1. They grow marijuana and it smells terrible.
2. They have not maintained the property for fire safety reasons. The weeds are very high.
3. They do not appear to be using their own water source. We have seen them going to the local creek (Folsey Creek) and we don't know if they are using the water from the creek or if they are dumping waste illegally.
4. They have several people coming and going who are tending their plants and doing something in their barn at all hours. Some of the people camp out in tents and trailers and we worry for our safety not knowing who the people are and if →

they are going to hole our house or what
other things they might do.

Thank you for your time.
