Mendocino County Celebrates Public Health Week!

April 1st kicks off national Public Health Week 2019, a week in which awareness is raised in connection with our most pressing Public Health issues. Mendocino County Public Health works to protect the public's health in our community, and "helps shape positive health outcomes for individuals, families and communities," as stated by the California Department of Public Health.

As a community, we face very similar problems, many of which we must face head-on in effort to better the lives of our neighbors and ourselves. This upcoming week, Mendocino County Public Health is releasing a series of brief articles that touch on the following daily themes:

Monday: **Healthy Communities**

Tuesday: **Violence Prevention**

Wednesday: **Rural Health**

Thursday: **Technology and Public Health**

Friday: **Climate Change**

Saturday and Sunday: **Global Health**

To read the themed article released on each day of Public Health Week, starting April 1st, visit HSA's homepage at <https://www.mendocinocounty.org/government/health-human-services-agency>

Be sure to add Mendocino County Public Health on Facebook at <https://www.facebook.com/PublicHealthMendocinoCo/> for more updates on Public Health Week!
