To whom I hope it concerns:

Thank you for considering our thoughts on the ATT Cell Tower at Van Arsdale Potter Valley.

We have lived "over the hill" in Potter Valley 20+ years. "Over the hill" has no cell service.

At any given time, you will find people pulled over, at the top of "the hill", in their vehicles making phone calls. They

know that once they start driving down the North face there is absolutely no cell service.

It is like the Wild West...illegal pot grows, trespassers and river partyers.

Historically, there are awful accidents around the infamous Potter to Pillsbury Road. Even T-shirts claiming

"I survived the road to Lake Pillsbury."

We need Emergency Service Cell service...not just a convenience!

Would you want your loved ones without it; if it was made possible?

With appreciation,

Rick and KJ Todd
