Subject: Potter Valley Cell Tower

Hello, I urge you to approve the installation of the cell tower at the Hartstone Bible Camp. This will provide better communication service for us. When we have no power, we have no telephone service which means no emergency services. These services are essential to provide for evacuation notices in the case of fire, tornado warnings, etc. in addition to 911 calls for local fire notification, emergency medical services. It is admirable that this company will provide this excellent service to all residents in the area. With the advent of very low cost flip phones and low cost-low usage cell phone service, an investment of about \$ 200 will provide 1500 minutes, 1500 texts and 1.5 GB of data for two years.....a minimum cost for this level of protection in the event of an emergency and the pleasure of other favorite uses. It will be a great addition to our community. Please approve this application at your next meeting. Thanks for your consideration. Bob Meyer, a long time visitor of Potter Valley.
