It would be very beneficial to have cell service in these two areas since our AT&T service only works in the summer months and when it starts to rain we have no service at all even though I pay AT&T a monthly fee.

I am tired of not being able to communicate once I am at my property at Lake Pillsbury Ranch. If I needed emergency services I would be out of luck nine months out of the year.

I would welcome cell towers!

Thank you,

**Mary Sher**
