Dear Planning Commission,

As a long time visitor and volunteer at Hartstone Bible Camp I can provide you many instances where cell phone service and high speed internet would have been greatly beneficial.

For the benefit of safety in times of natural disaster like the recent fires and better connecting the local residence and visitors with the rest of Potter Valley and beyond.

I am in full support of this modern progress and feel it would be short sighted to not take advantage of this opportunity. I am concerned that the objections of the vocal minority regarding the project may discourage the approval even though most are unfounded reasons such as calling the project a "Death Tower".

Thank you for the opportunity to provide my input.

Sincerely,

Frank Longhetto
