COASTAL DEVELOPMENT PERMIT APPLICATION

A Coastal Development Permit (CDP) is required before undertaking any activity in the Coastal Zone that is defined as a development. Some development activities in the Coastal Zone also require a Use Permit, Subdivision, Variance, or other permit from Mendocino County. When this is the case, your CDP application will be combined with the other application and they will be processed together.

DEFINITIONS

Coastal Development Permit (CDP): A permit which authorizes any activity defined as a "development" to occur in the Coastal Zone. Certain CDP's may be processed administratively; all others will be processed as Coastal Development Standard Permits.

Coastal Development Administrative Permit: A permit granted by an Agency of Mendocino County for certain uses on property located within the Coastal Zone but not within "appealable areas", "areas of original jurisdiction" or areas where sensitive coastal resources will be impacted. Such uses may include single-family residences which are principal permitted uses, other principal permitted uses, most improvements to existing structures and certain temporary uses.

Plot Plan: A plan of the subject property showing accurately the shape, dimensions and orientation of all existing and proposed improvements. (NOTE: If your application is approved, it will be approved as shown on the PLOT PLAN and ONLY as shown thereon).

Location Map: A map showing the location of the subject property in relation to the nearest town or identifying landmarks, and the road used in getting to the property.

COASTAL DEVELOPMENT ADMINISTRATIVE PERMITS – FACTS TO KNOW

- Your CDP application will be reviewed by the Coastal Permit Administrator to determine whether it can be processed administratively or if it must be processed as a Coastal Development Standard Permit.
- The Coastal Permit Administrator may take action on a Coastal Development Administrative Permit application without a public hearing.
 1. A decision of the Coastal Permit Administrator to approve an application will be reported to the Board of Supervisors as a consent item. Public notice will be given of the time and date at which the action of the Coastal Permit Administrator will be reported to the Board of Supervisors. One or more members of the Board of Supervisors may require that the application be scheduled for a public hearing. In such cases, additional fees will be required from the applicant because the

application will be converted to the Coastal Development Standard Permit process. Additional public notice will be given for the public hearing by the Board of Supervisors. No application approved by the Coastal Permit Administrator will be effective until it has been reported to and accepted by the Board of Supervisors or until a public hearing is held when required by the Board of Supervisors.

2. A decision of the Coastal Permit Administrator to deny an application shall be final unless appealed in writing to the Board of Supervisors within ten (10) calendar days thereafter with a filing fee.
- Notice of the final decision will be given to the applicant, Coastal Commission, Assessor and any persons requesting such notice in writing.
 - CDP's for temporary uses (i.e., temporary gatherings, construction support, camping and temporary use of a trailer coach) are valid for a maximum of two (2) years after the building permit is issued unless a written request for an extension has been submitted to and approved by the Planning Director. Temporary uses and related improvements must be removed from the premises upon expiration of the CDP.

COASTAL DEVELOPMENT STANDARD PERMITS – FACTS TO KNOW

- Granting of the permit requires a public hearing by the Planning Commission or Coastal Permit Administrator. Some permits must be reported to and heard by the Board of Supervisors.
- After preliminary review, your application will be scheduled for a public hearing with the Mendocino County Planning Commission or the Coastal Permit

Administrator. Generally speaking, more complex or controversial applications are heard by the Planning Commission, while simpler and more routine applications are heard by the Coastal Permit Administrator. Those Standard Permits converted from Administrative Permits by the Board of Supervisors will be heard by the Board of Supervisors.

- If required by law, an environmental review will be conducted to examine potential environmental effects of your proposal.
- You will be notified by mail of the time and place that your application will be considered by the Planning Commission or Coastal Permit Administrator. Additionally you will be sent a copy of the staff report on your project which will include the project recommendations and conditions of approval. You must be represented at this meeting (except for some minor Boundary Line Adjustments).
- Public notice of hearings on your proposed project will be published in local newspapers or notice posted in public locations.
- Owners and occupants of adjoining property will be notified of the proposal.
- At the public hearing(s), members of the public will have the opportunity to express positive or negative comments regarding your application.
- Action by the Planning Commission or Coastal Permit Administrator is final unless appealed to the Board of Supervisors. Appeals to the Board of Supervisors must be submitted in writing to the Clerk of the Board within ten (10) calendar days of the Planning Commission or Coastal Permit Administrator's decision. The appeal must be accompanied by the applicable fee and an additional set of envelopes for noticing. The Board of Supervisors will hold a public hearing to consider the appeal. You will be notified by mail of the time and place that your appeal will

be considered. Action by the Board of Supervisors is final except that an approved project may be appealed to the Coastal Commission within ten (10) working days following the Coastal Commission's receipt of a Notice of Final Action on the project.

- CDP's shall expire two (2) years after the date of approval if the permit has not been exercised within that time.
