Date: September 13th, 2019 To: Board of Retirement

From: F. Robert Reveles, Financial/Investment Officer

Subject: Preliminary Quarterly Budget Update

Introduction

Attached is the budget update report for the quarter and fiscal year ending June 30, 2019. While all the information for the fiscal year end has been recorded, figures in this report are still preliminary as there may be some minor reclassifications as a result of the external audit. The report is divided into four schedules. Schedule 1A compares current quarter expenditures to the expenditures during the same quarter of the prior year. Schedule 1B compares fiscal year expenditures to prior fiscal year expenditures. Schedule 2A compares current quarter expenditures to current quarter budgeted amounts. Schedule 2B compares fiscal year expenditures to fiscal year budgeted amounts. MCERA's total administrative expenses excluding technology and investment items for the quarter fell just shy of prior period expenditures and budget estimates. For the fiscal year expenditures were above the prior fiscal year, but below the budgeted amount.

Schedule 1A & 1B:

Highlights from FY 2018 vs FY 2019 actual expense comparison for the current quarter and fiscal year are presented below:

- Administrative expenses for the quarter were less than prior year totals. Office expenses (new board chairs) and Staff Education and Training were driving factors in the increase for the quarter. For the year Legal expense increased compared to last year because of the need for more legal services.
- ➤ Board Expense was lower for the quarter and lower for the fiscal year primarily because of greater attendance at education and training events including SACRS, CalAPRS, and Callan events in FY18. During the final quarter of FY18 a new trustee attended CALAPRS Pension Governance class. For FY19 Board Education and Training was lower because of lower attendance at training events.
- Disability costs were lower during the quarter than the prior year. Last year's quarter costs were elevated due to arbitration and mediation cases in June '18. For the year FY19 total costs are slightly below FY18 total costs because of decreased administrative review.
- Technology expense during the quarter was higher than last fiscal year because this year includes multiple change orders. (Mostly the Member Account Verification PIR) The FY 2019 expenses are higher because there was one more PIR and two more hourly support billings. (Average PIR cost was more also) No County related IT project expenses occurred in FY 2019.
- Investment expenses decreased for the quarter, driven mainly by two sources: State Street billing and actuarial billing. At this time State Street billing for Q4FY19 has not entered MUNIS, while last year MCERA paid for an actuarial audit of Segal. (This year MCERA has not) For the fiscal year the Investment expenses have decreased overall. Though the investment manager fees and Callan fees

Preliminary Quarterly Budget Update Continued

have increased during the fiscal year the lack of quarterly State Street billing and last years actuarial audit charges have actually decreased total expenses.

➤ There were no FY 2019 property maintenance projects.

Schedule 2A & 2B:

Schedule 2A compares actual expenditures vs budgeted amounts. Highlights from the budget vs actual comparison for the current quarter are presented below:

- Administrative expenses were below budget for the quarter as well as the fiscal year. Office expense was greater for the quarter than budget because of new Board Chairs and supplies, while contracts expense was below budget estimates. (Audit contract not spent) For the fiscal year Personel was lower because of the new salary of FIO is at a lower rate than previous FIO. FIO positon also took 3 pay periods to fill once prior FIO had resigned. Legal expense was below budget estimates. Audit contract expense (Contracts) in budget was not executed this fiscal year.
- ➤ Board stipends for the quarter and fiscal year were lower primarily due to less Board meeting attendance. The budget for Board stipends is built with the assumption of perfect attendance and additional committee meetings as a contingency. Board education and training came in under budget due to lower than expected attendance to trainings and no FY19 offsite meeting.
- Disability activity is up during the quarter and exceeded the budget estimates. For the fiscal year, total disability expenses did not exceeded the budget, primarily due to lack of hearings compared to last year. Hearing related expenses ended the fiscal year below budget, while administrative review costs ended the fiscal year above budget. Disability expenses are difficult to predict as they are driven by the volume of applications which can vary greatly from year to year.
- ➤ Technology expense was below budget estimates during the quarter. For the fiscal year, while LRS expenses increased due to a greater number of PIR's than expected, there were no County IT or PCX Scan expenses.
- Investment expenses for the quarter were lower than budget estimates, as mentioned above, because the custodial bank has not invoiced us for April, May, or June. Investment manager fees for the fiscal year are lower than budget estimates because the budget included a 5% increase (7% for one manager) in net asset values over the Fiscal year. Actual asset values were not as high as budget estimates. Actuary Services via Segal for FY19 were more expensive than anticipated.
- There were no capital improvement projects in FY19

Conclusion

For the fiscal year, MCERA's total administrative expenses excluding technology and investment were below budget estimates, but above the prior year. For the quarter, total administrative expenses excluding technology and investment were below the prior year and the budget. Total expenses for the fiscal year were above prior

Preliminary Quarterly Budget Update Continued

period costs and below budget estimates. Total administrative expenses excluding technology and investment increased by 7.03% when compared to the prior fiscal year. When compared to the budget, MCERA's total administrative expenses excluding technology and investment for the fiscal year were below estimates by 16.14%. Administrative expenses excluding technology and investment for FY 2019 were below MCERA's policy limit by about \$335,000 and below the cap set by CERL by about \$908,000.
