SUBJECT: ADDENDUM 1 TO RFP NO. 190028 - LANDFILL LEACHATE HAULING SERVICES

To whom it may concern:

There has been some confusion regarding dollars per hour or dollars per gallon to haul leachate. The cost basis for the first RFP mailed was on a per hour cost basis for leachate hauled but is no longer in effect. No one responded to the first RFP due to work load, so a second and current RFP was issued. The second RFP is cost per gallon for leachate hauled.

Only one question was asked that may affect the proposal.

QUESTION: Can we temporarily park tanker trucks at the landfill during the leachate hauling period.

ANSWER: Yes. However, illegal trespassing by scavengers at the transfer stations is a common occurrence. The County of Mendocino will not be held liable to vandalism or theft. Also, the County performs surface water quality monitoring and vehicles left on site should be free of leaks and drips, or use drip pans. The County at its discretion may require that leaking and poorly maintained vehicles and equipment be removed from the property. County reserves the right to determine exact parking location on the site.

Sincerely,

Alex Straessle  
Engineer II
