Human Resources Update – Continued

Health Plan

Open Enrollment for the health plan is November 4, 2019, through December 6, 2019. Our health plan contracts allow one opportunity each year during this period for eligible County employees to make new decisions about their insurance coverage. This is also the time of year to enroll or re-enroll in a medical and/or dependent care Flexible Spending Account or the Medical Expense Reimbursement Program (MERP).

The Open Enrollment Fairs were held the first week of November. Anyone who was unable to attend a fair still has time to ask questions or make changes. All required forms must be received in Human Resources by December 6, 2019 by 5:00 p.m. For more information contact Human Resources Benefits Administration at 707-234-6623 or visit the following site for more information:

Wellness

HEALTH FOR THE HOLIDAYS:

Take care of yourself during the hectic holiday season with the Health for the Holidays Challenge, a wellness program designed to help boost your energy, resilience and joy. During the four week challenge, you will complete fun, healthy activities each day as you "paint" winter scenes of secret locations around the world. You will track progress by accumulating inches of snow - the more you do, the more the painting comes to life! The challenge begins November 18, 2019. Register on HealthFitness by November 24, 2019, using the following link:

<https://mcwow.cafewell.com/>

WELLNESS INCENTIVE PROGRAM:

The wellness incentive deadline of November 1, 2019, was extended to November 15, 2019, due to the Public Safety Power Shutoff. Employees must have earned all 1,000 wellness points to qualify for \$500 off their 2020 health plan by November 15, 2019. For more information, please visit:

Employee Recognition Program

The County of Mendocino recognizes the importance of motivating and rewarding employees. The Leadership Initiative's Employee Engagement Work team developed a County-wide Employee Recognition Program, which launched in February of 2019. Fourteen County employees were recognized in the months of August, September and October for their outstanding contributions to our organization. The Employee Recognition Program attachment includes the list of employees that received awards and information on the award categories.

Board Directives

During Board of Supervisors meetings, the Clerk of the Board records the various consensus decisions and/or legislative actions that direct County staff and/or other agencies to follow up, research, or follow through on certain topics or issues. Historically, Clerk of the Board staff maintained a record of Board directives via "minute orders" which were the result of legislative actions (aka motions) and followed up with County departments as appropriate. Through time, Clerk of the Board staff continued to maintain a tracking mechanism of all Board actions that required follow through, including consensus decisions of the Board, directives made by order of the Chair, and those actions taken legislatively. The Executive Office maintains this tracking mechanism of all said directives with a status as to completion and/or necessary steps to follow through. On September 23, 2019, the General Government Standing Committee directed the Chief Executive Officer to present a monthly report on active directives through the CEO Report as a means to communicate with the Board of Supervisors regarding the status of directives and to receive input or direction as necessary.

Attached is a list of all current directives.

Emergency Projects

On Sunday November 10, 2019, the 911 server room cooling unit triggered alerts for high temperatures in the North Basement Room. Facilities staff were dispatched, along with a third party contractor, and found that the unit had a failed compressor and would need replacement. Temperatures in the room exceeded levels that are acceptable for the types of equipment housed in that location, and therefore, Sheriff's Office staff were called upon to shut down equipment. Temporary measures were taken by placing multiple portable cooling units in the room, as well as staging a portable cooling unit in the adjacent parking lot. The unit put in place in the parking lot also required a portable generator to power the cooling unit. Because of the nature of the equipment in the North Basement Room and the need to keep this equipment at a temperature that does not rise above 70 degrees, the Purchasing Agent directed staff to replace the unit under an emergency project. Further, simultaneously, the unit in the South Basement 911 Room began to show signs of failure. This unit is of similar age, brand and size as the failed unit in the North Basement Room. Because of this, the Purchasing Agent recommended the replacement of the main cooling unit in the South Basement Room under the same emergency project. Estimated costs for the replacement of both units is approximately \$40,000-\$50,000.
