EXECUTIVE SUMMARY

The California Department of Health Care Services' (DHCS) mission is to provide Californians with access to affordable, integrated, high-quality health care including medical, dental, mental health, substance use treatment services, and long-term care. Our vision is to preserve and improve the overall health and well-being of all Californians.

DHCS helps provide Californians access to quality health care services that are delivered effectively and efficiently. As the single state Medicaid agency, DHCS administers California’s Medicaid program (Medi-Cal). DHCS is responsible for administering the Medi-Cal Specialty Mental Health Services (SMHS) Waiver Program. SMHS are “carved-out” of the broader Medi-Cal program. The SMHS program operates under the authority of a Waiver approved by the Centers for Medicare and Medicaid Services (CMS) under Section 1915(b) of the Social Security Act.

Medi-Cal is a Federal/State partnership providing comprehensive health care to individuals and families who meet defined eligibility requirements. Medi-Cal coordinates and directs the delivery of important services to approximately 13.2 million Californians.

The SMHS program which provides SMHS to Medi-Cal beneficiaries through county Mental Health Plans (MHPs). The MHPs are required to provide or arrange for the provision of SMHS to beneficiaries’ in their counties that meet SMHS medical necessity criteria, consistent with the beneficiaries’ mental health treatment needs and goals as documented in the beneficiaries client plan.

In accordance with the California Code of Regulations, title 9, chapter 11, section 1810.380; DHCS conducts monitoring and oversight activities such as the Medi-Cal SMHS Triennial System and Chart Reviews to determine if the county MHPs are in compliance with Federal and State laws and regulations and/or the contract between DHCS and the MHP.

DHCS conducted an onsite review of the Mendocino County MHPs Medi-Cal SMHS programs on June 9, 2019 through January 10, 2019. The review consisted of an examination of the MHP’s program and system operations, including chart documentation, to verify that medically necessary services are provided to Medi-Cal beneficiaries. DHCS utilized Fiscal Year (FY) 2018/2019 Annual Review Protocol for SMHS and Other Funded Programs (Protocol) to conduct the review.

The Medi-Cal system review evaluated the MHP’s performance in the following categories:

- Section A: Network Adequacy and Availability of Services
- Section B: Care Coordination and Continuity of Care
- Section C: Quality Assurance and Performance Improvement
- Section D: Access and Information Requirements
- Section E: Coverage and Authorization of Services
- Section F: Beneficiary Rights and Protections
- Section G: Program Integrity
- Section H: Other Regulatory and Contractual Requirement
The report is organized according to the findings from each section of the FY 2018/2019 Annual Review Protocol for Consolidated Specialty Mental Health Services (SMHS) and Other Funded Services, specifically Sections A-H and the Attestation. This report details the requirements deemed out of compliance (OOC), or in partial compliance, with regulations and/or the terms of the contract between the MHP and DHCS.

For informational purposes, this findings report also includes additional information that may be useful for the MHP, including a description of calls testing compliance of the MHP’s 24/7 toll-free telephone line and a section detailing information gathered for the “SURVEY ONLY” questions in the Protocol.

The MHP will have an opportunity to review the report for accuracy and appeal any of the findings of non-compliance (for both system review and chart review). The appeal must be submitted to DHCS in writing within 15-business days of receipt of the findings report. DHCS will adjudicate any appeals and/or technical corrections (e.g., calculation errors, etc.) submitted by the MHP and, if appropriate, send an amended report.

A Plan of Correction (POC) is required for all items determined to be out-of-compliance. The MHP is required to submit a POC to DHCS within 60-days of receipt of the findings report for all system and chart review items deemed out-of-compliance. The POC should include the following information:

1. Description of corrective actions, including milestones;
2. Timeline for implementation and/or completion of corrective actions;
3. Proposed (or actual) evidence of correction that will be submitted to DHCS;
4. Mechanisms for monitoring the effectiveness of corrective actions over time. If POC determined not to be effective, the MHP should purpose an alternative corrective action plan to DHCS; and
5. Description of corrective actions required of the MHP’s contracted providers to address findings.

Medication Consent

The provider obtains and retains a current written medication consent form signed by the beneficiary agreeing to the administration of each prescribed psychiatric medication.

(MHP Contract, Ex. A., Att. 9)

FINDING 3A:

The provider did not obtain and retain a current written medication consent form signed by the beneficiary agreeing to the administration of each prescribed psychiatric medication, and there was no documentation in the medical record of a written explanation regarding the beneficiary's refusal or unavailability to sign the medication consent:

1) **Line number 4:** There was a written medication consent form in the medical record dated 8/8/16. However, medication dosages were changed (on 8/4/17) and there was no documentation of consent for the new medication dosages until 2/21/18.

2) **Line number 5:** Although there was a written medication consent form for Zoloft in the medical record, the medication consent form was not completed until 1/23/18. According to a Medication Management Note on 1/23/18, Zoloft was increased to 100 mg per day on that date. Evidence of a prior written medication consent for the previous dosage of Zoloft was not provided.

3) **Line number 5:** According to a Medication Management Note on 3/29/18, Lorazepam was started on that day. Evidence of a written medication consent was not provided.

The MHP shall submit a POC that describes how the MHP will ensure that services are provided in an amount, duration, and scope as specified in the individualized Client Plan for each beneficiary.

***

**REQUIREMENTS**

The MHP shall ensure that Client Plans:

a) Have specific observable and/or specific quantifiable goals/treatment objectives related to the beneficiary’s mental health needs and functional impairments as a result of the mental health diagnosis.

b) Identify the proposed type(s) of intervention/modality including a detailed description of the intervention to be provided.

c) Have a proposed frequency of intervention(s).

f) Have interventions that are consistent with the client plan goals.
g) Be consistent with the qualifying diagnoses.

(MHP Contract, Ex. A, Attachment 9)

FINDING 4C:
Client Plans did not include all of the required elements specified in the MHP Contract. Below are the specific findings pertaining to the charts in the review sample:

- One or more of the goals/treatment objectives were not specific, observable, and/or quantifiable and related to the beneficiary’s mental health needs and identified functional impairments as a result of the mental health diagnosis. **Line number 3.**

- One or more of the proposed interventions did not include a detailed description. Instead, only a “type” or “category” of intervention was recorded on the client plan. **Line number 4.**

- One or more of the proposed interventions did not indicate an expected duration. **Line numbers 1, 2, 3, 4, 5, 6, 8, 9, and 10.** All durations default to one year and were not individualized to the beneficiary, nor to the services proposed.

- One or more client plans did not address the mental health needs and functional impairments identified as a result of the mental disorder. **Line number 1.** Client Plan does not address treatment for hallucinations.

- One or more of the proposed interventions were not consistent with client plan goals/treatment objectives. **Line number 1.** Interventions are not consistent with goal and describe reducing vague/non-specific symptoms.

- One or more client plans were not consistent with the qualifying diagnosis. **Line number 6.** Focus of treatment goals are not directly related to a diagnosis of Major Depressive Disorder.

PLAN OF CORRECTION 4C:
The MHP shall submit a POC that describes how the MHP will ensure that:

1) All mental health interventions/modalities proposed on client plans include a detailed description of the interventions to be provided and do not just identify a type or modality of service (e.g. “therapy”, “medication”, “case management”, etc.).
