Greetings Mendocino County Planning Commission:

May this email find you all in good health and spirits.

In lieu of attending the planned County Meeting 3/19 at 9am that was cancelled today due to the present health concerns, please find below our disagreement and vote against building a cell tower on Manzanita Rd on Pine Mountain, Willits.

We want to express my immediate health concerns about the construction of a cell tower within one mile of my home on Pine Mountain - we live on Middle Rd.

Are you aware of the current lawsuit (filed 2/2/2020 by the Children's Defense Fund) against the FCC's antiquated 1996 Telecommunication Act? We urge you all to read the press release of this lawsuit: <https://childrenshealthdefense.org/seeking-justice/legal/chd-v-federal-communication-commission-fcc/>
The FCC is refusing to review their 25 years old safety guidelines despite evidence of wireless radiation sickness.

We are sure all of you are aware of the negative health effects of wireless radiation on the human mind, body (damages to our IMMUNE SYSTEM in this interesting time), and spirit, the negative health impact on wildlife, bees, pollination, and our FUTURE of growing our own nutritious food. If you are not informed, please do your own research: emfnetwork, ehtrust.org. Just look up "STOP 5G" to experience a different perspective. Come to your own conclusions and not blindly follow the corporate backed media lies that have been fed to you.

There are THOUSANDS of research papers showing the negative health effects of cell tower and wireless radiation.

We urge you all to stop the construction of harmful cell tower and wireless technology, for the safety and health of our children and our planet.

In peace and gratitude,

Sonja Burgal
Max Meyers
Pine Mountain., Willits 95490
