Case # U_ 2019-0011

Owner: Nixon

Applicant: AT&T

Dear members of the planning commission,

The below residents of the Pine Mountain Subdivision and affected surrounding area, fully support the purposed wireless communication tower to be located on 20201 Manzanita Drive.

Residents in this rural, high fire danger area currently have limited, marginal cell coverage and most, none at all. Many residents have discontinued the use of land lines due to less than reliable service. Internet is limited to costly satellite providers for those that can afford it. This situation leaves the community underserved and vulnerable when emergency services are needed or emergency notifications need to be received. This project is not a luxury but a matter of public safety.

Many of us residents are familiar with the proposed location of the tower and feel it's the least intrusive site that will deliver the much needed benefits. We support the negative declaration and the project overall.

Thank You in advance for your consideration of this very important project.

Comments due no later than March 18th
