RE: Native American Tribal Consultation, Pursuant to the Assembly Bill 52 (AB 52), Amendments to the California Environmental Quality Act (CEQA) (Chapter 532, Statutes of 2014), Public Resources Code Sections 5097.94 (m), 21073, 21074, 21080.3.1, 21080.3.2, 21082.3, 21083.09, 21084.2 and 21084.3, Major Use Permit Booneville Hopland Project, Mendocino County

Dear Ms. King-Narasimha:

Pursuant to Public Resources Code section 21080.3.1 (c), attached is a consultation list of tribes that are traditionally and culturally affiliated with the geographic area of the above-listed project. Please note that the intent of the AB 52 amendments to CEQA is to avoid and/or mitigate impacts to tribal cultural resources, (Pub. Resources Code §21084.3 (a)) ("Public agencies shall, when feasible, avoid damaging effects to any tribal cultural resource.")

Public Resources Code sections 21080.3.1 and 21084.3(c) require CEQA lead agencies to consult with California Native American tribes that have requested notice from such agencies of proposed projects in the geographic area that are traditionally and culturally affiliated with the tribes on projects for which a Notice of Preparation or Notice of Negative Declaration or Mitigated Negative Declaration has been filed on or after July 1, 2015. Specifically, Public Resources Code section 21080.3.1 (d) provides:

Within 14 days of determining that an application for a project is complete or a decision by a public agency to undertake a project, the lead agency shall provide formal notification to the designated contact of, or a tribal representative of, traditionally and culturally affiliated California Native American tribes that have requested notice, which shall be accomplished by means of at least one written notification that includes a brief description of the proposed project and its location, the lead agency contact information, and a notification that the California Native American tribe has 30 days to request consultation pursuant to this section.

The AB 52 amendments to CEQA law does not preclude initiating consultation with the tribes that are culturally and traditionally affiliated within your jurisdiction prior to receiving requests for notification of projects in the tribe's areas of traditional and cultural affiliation. The Native American Heritage Commission (NAHC) recommends, but does not require, early consultation as a best practice to ensure that lead agencies receive sufficient information about cultural resources in a project area to avoid damaging effects to tribal cultural resources.

The NAHC also recommends, but does not require that agencies should also include with their notification letters, information regarding any cultural resources assessment that has been completed on the area of potential effect (APE), such as:

1. The results of any record search that may have been conducted at an Information Center of the California Historical Resources Information System (CHRIS), including, but not limited to:
 - A listing of any and all known cultural resources that have already been recorded on or adjacent to the APE, such as known archaeological sites;
 - Copies of any and all cultural resource records and study reports that may have been provided by the Information Center as part of the records search response;
 - Whether the records search indicates a low, moderate, or high probability that unrecorded cultural resources are located in the APE; and
 - If a survey is recommended by the Information Center to determine whether previously unrecorded cultural resources are present.
2. The results of any archaeological inventory survey that was conducted, including:
 - Any report that may contain site forms, site significance, and suggested mitigation measures.

All information regarding site locations, Native American human remains, and associated funerary objects should be in a separate confidential addendum, and not be made available for public disclosure in accordance with Government Code section 6254.10.
3. The result of any Sacred Lands File (SLF) check conducted through the NAHC was positive. Please contact the tribes on the attached list for more information.
4. Any ethnographic studies conducted for any area including all or part of the APE; and
5. Any geotechnical reports regarding all or part of the APE.

Lead agencies should be aware that records maintained by the NAHC and CHRIS are not exhaustive and a negative response to these searches does not preclude the existence of a tribal cultural resource. A tribe may be the only source of information regarding the existence of a tribal cultural resource.

This information will aid tribes in determining whether to request formal consultation. In the event that they do, having the information beforehand will help to facilitate the consultation process.

If you receive notification of change of addresses and phone numbers from tribes, please notify the NAHC. With your assistance, we can assure that our consultation list remains current.

If you have any questions, please contact me at my email address: Andrew.Green@nahc.ca.gov.

Sincerely,

Andrew Green
Staff Services Analyst

Re: Major Use Permit Hopland Project

Dear Director Elliot,

Alta Archaeological Consulting (ALTA) has been retained by LACO Associates to complete an archaeological field survey for the Major Use Permit Boonville Hopland project. The project proponent is applying for a major use permit to construct 35 to 40 small building pads to site modular cabins for vacation rentals, construction of an access road loop and underground utilities.

The property is located on two parcels (APNs 048-270-23 & 24, a section of APN 048-270-22 is currently in escrow to become a part of 048-270-23) totaling 100 acres. The project area is south of Pratt Ranch Road, east of Hopland, California (Figure 1). These parcels are located in Township 13 North, Range 11 West, sections 15, 16, 21, 22 and Rancho Sanel Land Grant of the Mount Diablo Base and Meridian. The physical address of the project is located east of the intersection of Old Toll Road and Highway 175.

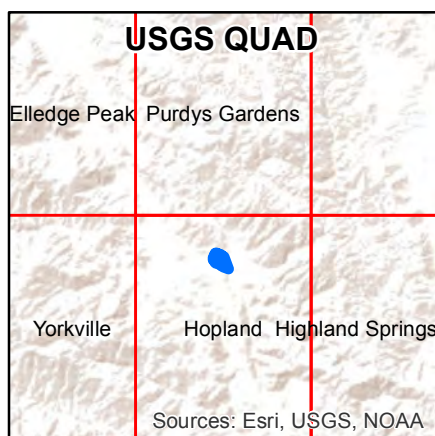

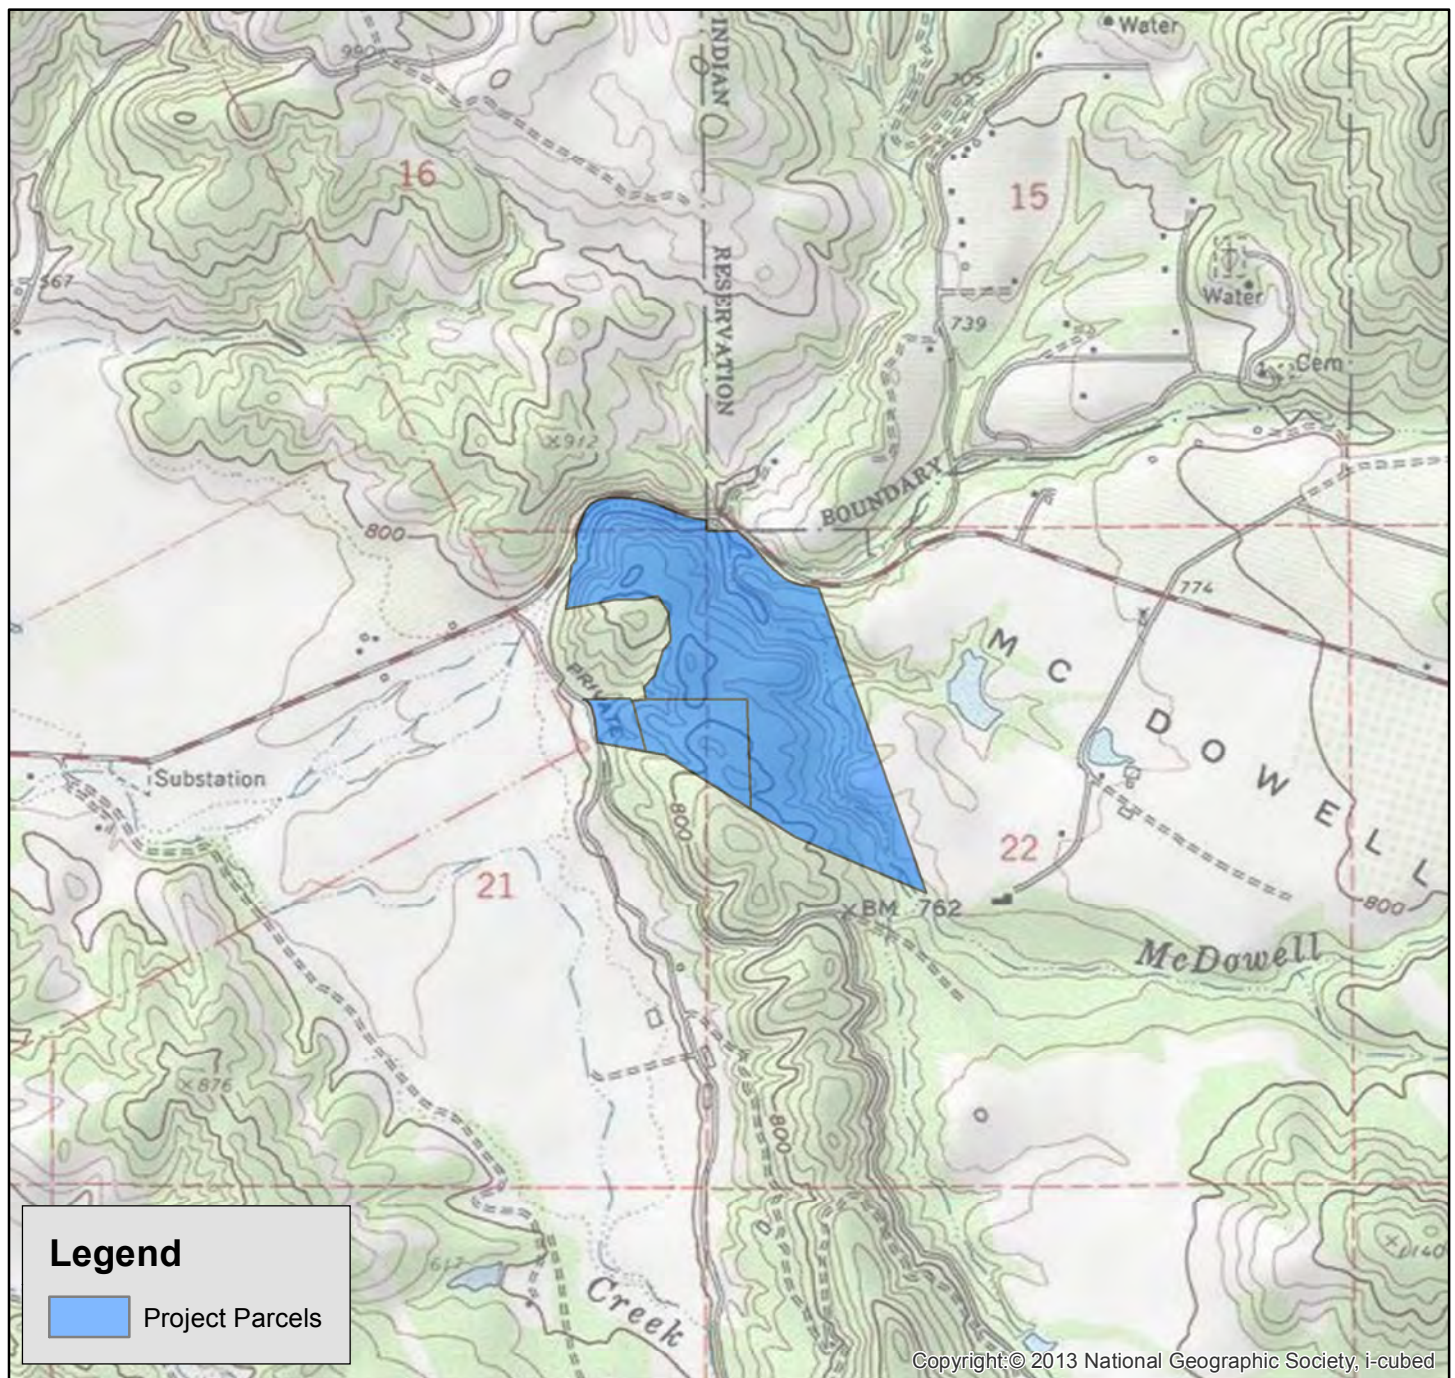

We are contacting you to provide notification of this project pursuant Section 5 of Public Resources Code 21080.3.1(d). The regulations require that you contact us within 30 days from your receipt of this letter to request a consultation regarding any potential impacts of this project on tribal cultural resources. If you do not contact us within 30 days following receipt of this letter, the County will proceed with the project with the assumption that the project will not have a potential effect on tribal cultural resources. If consultation is requested, please provide the name and contact information of the designated lead contact person as part of your request. The County will contact the designated person to set a meeting date to begin consultation within 30 days of our receipt of your request. Thank you in advance for your efforts.

Sincerely,

Alta Archaeological Consulting (ALTA) has been retained by LACO Associates to complete an archaeological field survey for the Major Use Permit Boonville Hopland project. The project proponent is applying for a major use permit to construct 35 to 40 small building pads to site modular cabins for vacation rentals, construction of an access road loop and underground utilities.

The property is located on two parcels (APNs 048-270-23 & 24, a section of APN 048-270-22 is currently in escrow to become a part of 048-270-23) totaling 100 acres. The project area is south of Pratt Ranch Road, east of Hopland, California (Figure 1). These parcels are located in Township 13 North, Range 11 West, sections 15, 16, 21, 22 and Rancho Sanel Land Grant of the Mount Diablo Base and Meridian. The physical address of the project is located east of the intersection of Old Toll Road and Highway 175.

We are contacting you to provide notification of this project pursuant Section 5 of Public Resources Code 21080.3.1(d). The regulations require that you contact us within 30 days from your receipt of this letter to request a consultation regarding any potential impacts of this project on tribal cultural resources. If you do not contact us within 30 days following receipt of this letter, the County will proceed with the project with the assumption that the project will not have a potential effect on tribal cultural resources. If consultation is requested, please provide the name and contact information of the designated lead contact person as part of your request. The County will contact the designated person to set a meeting date to begin consultation within 30 days of our receipt of your request. Thank you in advance for your efforts.

Sincerely,

Sarah King-Narasimha MPhil.

Sarah,

The proposed project by ALTA in Hopland California is out of the Aboriginal Territory of the Stewarts Point Rancheria Kashia Band of Pomo Indians.

We do not have any concerns or comments at this time.

Thank you,

Hello Sarah

My name is Ramón Billy and I am the THPO for the Hopland Tribe. In regards to the Boonville Hopland Project the Tribe would like to be involved and request a consultation as impacts to tribal cultural resources are highly possible as the area being developed is within the historical boundaries of the Hopland People. Please let me know what can be achieved moving forward at your earliest convenience. I have included the Chair of the Hopland Band of Pomo Indians Tribal Council Sonny Elliott for transparency. I will be your point of contact on this project and my information is provided below.

Warmest Regards

Ramón Billy, Jr.
