**Planning & Building Services**

Dear County Commission,

We wish to express our extreme concern at the 5G tower planned for Pine Mountain. It is unnecessary, as our 4G service is working wonderfully in the area.

The tower will send high frequency waves into the neighborhood, and homes are right next door, so many people are very concerned for the health of our neighbors!

Please do NOT allow a permit for this untested health hazard.

Yours,

Ann Waters  
Richard Jergenson
