Ref: Public hearing regarding Case# U-2019-0011 (Nixon) and its Negative Declaration, scheduled for the Pine Mt communication facility, 4/16/20 at 9 a.m.

Dear Commissioners,

I am writing in regards to the quarantine's impact on the Public Hearing scheduled for April 16th and the fact that it has been changed to a virtual hearing to compensate for the inability to gather in one place.

I am requesting a postponement of the agenda item regarding the addition of a wireless communication facility on Pine Mt. until such time as people can attend in person after the quarantine. A virtual hearing excludes people without access to computers. People must be given the right to make public comment in person in real time. This is too important of an issue to rush the process especially during this difficult time.

Sincerely,

Theresa Staber
