Dear Commissioners,

I was saddened to hear that some of you are against the proposed ATT tower based on the number of "neighbors" against the tower. I feel it is important for you all to understand that only 1 of the people that spoke actually lives here. It will be close to Cathy Ortiz's and I support her right to voice those concerns. Linda Gabrielson owns property here but lives in Monterey and the rest of the people who spoke and wrote don't live in Pine Mountain Estates. I resent the fact that they were able to sway your opinions of the cell tower project. Most of the people that live here are in favor of it as a public safety issue. In our initial letter my husband pointed out the fact that most of the letters were from people that didn't live here. I'm sorry you all overlooked that fact. One of our neighbors was in the process of going door to door to collect our "real neighbors" signatures in favor of the project but was unable to complete his canvas of the neighborhood due to the Corona Virus Shelter in Place order. Perhaps you were not aware of the number of people that signed his petition. You did receive his petition as well as letters from our County Sheriff and the Chief of the Little Lake Fire Dept. and other neighbors supporting the tower. It is my feeling that the people that actually live here as well as our Sheriff and Fire Chief's support of the project should carry more weight than that of outspoken outsiders.

I am hoping ATT will be able to address your concerns and that you will reconsider in favor of the cell tower on Pine Mountain. Our safety depends on having a reliable communications.

Thank you,
Mikela Cameron
