Regarding Case # U_2019-0011

Dear Planning and Building Services Commission Staff,

I am writing you this email because I was unable to view the meeting on 5-21-20 and want to insure that our household is able to be included in your decision.

My husband has owned our home on Pine Mountain for the past 15 years and I have lived here for 5 years. Our son is just completing his first year at Willits High School.

I am currently writing you this email from the side of the road in my car because we are out of our monthly data allowance provided with Satellite internet. We currently receive NO CELL PHONE RECEPTION at our house. If we are out of our monthly data allowance we have to leave our house to make phone calls/texts or to use the internet.

The lack of reception has made my job as a remote event producer extremely difficult over the past 5 years as I rely on communicating with my job multiple times every single day. It has made our household extremely challenging to navigate at times.

The most serious to us is that we could not dial 911 from our home in the case of an emergency. Think about how frightening that is and how serious the implications could be.

Please don't assume that the neighborhood of Pine Mountain is against the tower. Please consider how vital access to the internet is for our safety and daily productivity.

If you would like to talk to me directly, I would happily discuss this further with you.

Very Respectfully,

Taylor Blake

4300 Ridgewood Road
Willits, Ca 95490
