My name is David Lovitt. My wife Dana and I are residents of pine mountain in Willits. I live at 5820 Ridgewood Rd, Willits CA 95490.

It has come to my attention that the Willits environmental center has been communicating on our behalf regarding the proposed cell tower planned for pine mountain. Be advised this organization does not speak for us and other residents here.

I support the cell tower as proposed, we have many dead and weak signal areas up here including my own address and very limited internet access throughout the area. Students, businesses and residents would benefit from improved service, many have been forced to work and study from home due to covid-19. Cell service is mandatory up here, the at&t land lines are no longer properly maintained with long service outages commonplace and poor responses to our frequent complaints. We recently canceled our land line because it worked so poorly over the last 10 or more years, causing great concerns over access to emergency services. We now have cell service only but have frequent drop outs when calling because of weak signal strength. Please consider these comments when making decisions for pine mountain and other rural areas in the county.

Thank you

David and Dana Lovitt
