To: Julia Acker Krog, Planning Commission

Thank you for letting me know my attachment was not working. I wrote as follows:

We are asking you to please vote in favor of locating the proposed cell tower on Pine Mountain. Our property borders the Nixon property. We were excited to learn about the possibility of a cell tower being installed. We very much believe the tower will not lower the value of our property, but may well add to it. The sight of driving by the tower will not be obtrusive, but will be reassuring. After doing research, we believe the radiation issue is being overblown and the Safety of towers are closely regulated by the FCC.

There are many reasons to support the cell tower. But, the main reasons are safety, communication and reliable access to needed information for EVERYONE! The wild fires were a real eye opener. The No. 1 issue was, and still is, communicating and obtaining information. Also, It is the first real improvement over what is a substandard and outdated system. Lives may be saved and and people can be reached whenever needed. Like all, we deserve the right to be in touch with our jobs, schools, emergency services, family, and friends.

Not taking advantage of this wonderful opportunity is wrong, irresponsible, and unfair to many. Please hear the quieter voices of most and vote in favor of issuing this permit. thank you
