Planning & Building Services

Dear Mendocino Department of Planning and Building Services:

I write this comment anonymously for reasons described below.

I rarely comment on these types of hearings, as I feel most people in our area have the best interest of the community in mind. I believe when there are requests, or disputes, they mainly can be handled in ways that tight-nit communities have for ages. With kindness and dialogue.

But I must finally speak out regarding Mr. Moores. Firstly, let me say that I have no idea what this request is for, as Mr. Moores has never been transparent with the community about his objectives, a tactic he uses to confuse and manipulate. I don't speak alone or with exaggeration when I say that Mr. Moore has terrorized the citizens and public officials of Mendocino County for decades, using his vast financial resources to file lawsuit after lawsuit in order to bully and manipulate things in his favor.

Yet, as the County and people of Mendocino know well, Mr. Moore is notorious for his legal tactics and bullying.

Mr. Moore may be a long time resident of these parts, with family ties stretching back generations, but so are many of us! And that does not give him the right to manipulate the court system and county bureaucracy to bend to his every whim.

We here in Mendocino are a people made stronger by our bonds of community, not by the fear of being sued. This is a beautiful county, made more beautiful by the kindness and generosity of the people who call it home.

I ask the County consider this long history of harassment and have that reflected in this and future decisions. Enough is enough!

So let's live without fear. There is enough of it in this world already.

Protect our county and the greater good of the community. I implore you. We all do.

God bless.

X
