I am writing as a concerned mother of two.

Since this pandemic I feel it's crucial to have 5g internet. Having to homeschool my children it is a must to be able to teach them from home. Also it's really scary when we had the fires several yrs back I didn't have any WiFi and only my 4g on my phone. I didn't even know what was going on until I saw ashes falling from the sky.

My phone doesn't get any internet in my house unless I pay my \$120 a month for limited data. I'm constantly having dropped calls. I have to walk outside to find a hotspot.

I have an elderly mother whom lives with me and when I work she needs to be able to reach out. She does not drive and takes care of my young children. We don't have a land line because it's much too expensive.

Please consider putting the tower up here. We are long overdue. Sincerely

Monica Doro [\(707\) 354-4027](tel:(707)354-4027)
