Planning & Building Services

Dear Planning Commissioners

As property owners and full-time residents of Pine Mountain for over 40 years, and current AT&T customers, we urge you to *VOTE IN FAVOR* of the **DENIAL** of the AT&T Mobility cell tower application. The proposed use would be detrimental to the health, safety, peace, morals, comfort and general welfare of persons residing or working or passing through the neighborhood of such use, and be detrimental and injurious. It is also a fire hazard, as RadioFrequency and Microwaveswaves increase plant/tree production of volatile oils, significantly increasing flammability in an already high fire zone.

Thank you for all the time and care you have invested in listening to the residents of Pine Mountain. There are many issues that have been brought forth, and we the people of Pine Mountain truly appreciate the care you take in making this decision to best support the people of this community.

Sincerely,

Cynthia Raiser Jeavons and John Jeavons
