To whom it may concern,

I am writing this letter in support of the cell tower being placed in the pine mountain area. Given the rule location and the lack of reliable landline I think that it is vital for the residences have an option to have an alternate phone source.

There has been multiple times in the past that I have not been able to reach my family during a time of emergency, one time being during the Redwood Fire in October 2018. Had there cell phones gotten service in that area, I would have been able to reach them much quicker in all those occasions.

Please consider the importance of that area having access to a reliable cell phone service in that area. I feel that it is so important for many reasons including in time of emergency whether it be medical or environmental.

Thank you,
Leda Dudley
