Penmanship

Good handwriting was very important in the past because people didn’t have computers or smartphones to send messages. Neat and easy handwriting helped people get jobs and stay in touch with friends and family that were far away.

Below you can see the steps for a penmanship lesson from the late 1800's.

Class Drill from Payson, Dutton, and Scribner’s Penmanship, 1876.

Students in the past may have used chalk, pencil, or a pen and ink to practice their handwriting. You can use a regular pen or pencil to practice the old fashioned handwriting exercises in this book.
Movement Exercise

Before practicing letters students would often do movement exercises to learn basic shapes used in letters such as lines, ovals, and waves. The drills also aided in learning the correct way to move the writing implement across the paper.

Drill One: Lines

Drill Two: Circles
Drill Three: Waves

Here are some more examples of movement drills you can try.

Make it Yours!

After mastering letters and writing words students would learn how to make their writing unique by adding flourishes and other artistic elements. Below are some examples that you can try adding to your own writing.
