---

**CONSULTANT INQUIRIES/MENDOCINO COUNTY RESPONSES**

- 1. Q:** For Tasks 3.1 and 3.2 does the County intend to have the missing SD information precisely surveyed under prevailing wage or filled via engineering field observation and GIS editing?

**A:** Utilizing engineering field observations and GIS editing will be a sufficient level of effort to obtain missing storm drain system information.
- 2. Q:** Can the County please provide the SD system file in GIS or other digital format?

**A:** Yes, the County will provide storm drain system GIS data upon request. Please submit requests via email to the contact listed below.
- 3. Q:** Does the County have any hydraulic storm system models or reports?

**A:** No, currently, the County does not have hydraulic system models or reports for the storm drain system.

4. **Q:** Can you confirm that the County has CAD and/or GIS layers that show the County right-of-way in the MS4 area that can be made available to the consultant for the project?

**A:** Currently, the County does not have CAD and/or GIS layers that show the County Right-of-Way in the MS4 area. Upon award of contract, the County can provide information to assist the consultant with determining Right-of-Way at specific locations. In some instances, consultant may need to perform surveys in order to determine exact Right-of-Way boundaries.

**ALL OTHER SPECIFICATIONS REMAIN IN FULL FORCE AND EFFECT.**

**Acknowledgment of receipt of this addendum is required to be included in your proposal. You may indicate such inclusion in narrative form within your proposal or by attaching a copy of this addendum to your proposal.**
