MEETING AGENDA
County Administration Center, Conference Room C
January 23, 2019 - 1:00 PM

1. OPEN SESSION / ROLL CALL

2. PUBLIC EXPRESSION

Members of the public are welcome to address the Committee on items not listed on the agenda, but within the jurisdiction of the Committee. The Committee is prohibited by law from taking action on matters not on the agenda, but may ask questions to clarify the speaker’s comment. The Committee limits testimony on matters not on the agenda to 3 minutes per person and not more than 10 minutes for a particular subject at the discretion of the Chair of the Committee.

To best facilitate these items, please review and complete the public comment/speaker form available at the back of the conference room and present to the Clerk. If you wish to submit written comments, please provide 15 copies to the Clerk of the Board staff, located in the County Administration Center, Room 1010. All meetings are recorded, so speakers are reminded to announce their names as they approach to podium to speak.

3. COMMITTEE MATTERS

3a) Approval of minutes from December 19, 2018, meeting

3b) Election of Vice-Chair of the Mental Health Treatment Act Citizen’s Oversight Committee
The Committee will elect a Vice-Chair for 2019.

3c) Discussion and Possible Action Regarding Expenditure Report on Measure B Tax Funds
The Committee will receive a report from the Mendocino County Auditor/Controller regarding the Measure B tax fund balance.
3d) Discussion and Possible Action Regarding Update from County Counsel Regarding Legal Issues Raised by the Committee  
(Sponsors: County Counsel and Committee Member Liberty)  
The Committee will receive a report from County Counsel regarding legal issues that pertain to the Committee.

3e) Discussion and Possible Action Including Review of Kemper Report, as Recommended by the Behavioral Health Advisory Board and Adoption of Recommendations Contained Therein  
(Sponsors: Committee Member McGourty and Committee Member Diamond)  
The Committee will review the Kemper Report and identify key recommendations for adoption.

3f) Discussion and Possible Action Including Approval of Recommendation to the Board of Supervisors Regarding a Request for Proposal (RFP) for a Biddable Design of a Combined Residential, Crisis Stabilization and Crisis Access Facility in the Ukiah Valley  
(Sponsor: Chair Barash)  
The Committee will discuss a proposed recommendation to the Board of Supervisors regarding the development/issues of a request for proposal (RFP) for a biddable design of a Crisis facility in the Ukiah Valley.

4. COMMITTEE MEMBER REPORTS

4a) Committee Member Reports Regarding Items of General Interest

5. COMMUNICATIONS RECEIVED AND FILED

Communications received and filed are retained by the Clerk throughout the Committee proceedings. To review items described in this section, please contact the Committee Clerk, in Room 1010.

ADJOURNMENT

The Committee complies with ADA requirements and upon request, will attempt to reasonably accommodate individuals with disabilities by making meeting materials available in appropriate formats (pursuant to Government Code section 54953.2) Anyone requiring reasonable accommodation to participate in the meeting should contact the Committee clerk by calling (707) 463-4441 at least five days prior to the meeting.

Additional information regarding the Committee may be obtained by referencing: www.mendocinocounty.org/community/mental-health-oversight-committee

**AGENDA TITLE:**

Approval of Minutes of the December 19, 2018, Meeting.
December 19, 2018 Minutes

AGENDA ITEM NO. 1 – CALL TO ORDER AND ROLL CALL (1:00 P.M.)

Committee Members Present: Mr. Thomas Allman; Ms. Carmel J. Angelo; Dr. Ace Barash; Mr. Jed Diamond; Mr. Ross Liberty; Ms. Jan McGourty; Dr. Jenine Miller; Ms. Donna Moschetti; Ms. Shannon Riley; and Mr. Lloyd Weer.

COMMITTEE MEMBER MERTLE PRESENT: 1:02 P.M.

2) APPROVAL OF NOVEMBER 28, 2018, MINUTES

Presenter/s: Chair Allman.

Public Comment: None.

Committee Action: Upon motion by Member Diamond, seconded by Member Angelo, and carried unanimously, IT IS ORDERED that the November 28, 2018, minutes are hereby approved (with minor administrative corrections including page 9 change from “Cost Value Analysis” to “Cost Benefit Analysis;” page 4 staffing costs should state that $40,000 was “in addition” to the original amount submitted; and page 1, last paragraph corrected to “Darca”.)

3) COMMUNICATIONS FILED AND RECEIVED

Presenter/s: Member Allman; and Ms. Katharine Elliott, County Counsel.

The Committee discussed the need to have legal counsel present at Committee meetings; and if the Committee could utilize current County Counsel Staff. It was determined that the Board of Supervisors would need to authorize legal representation, whether through the County Counsel office, or outside legal services.

Public Comment: None.

Committee Directive: GENERAL CONSENSUS OF THE COMMITTEE to request that the Board of Supervisors approve a request for legal services for the Committee to address legal questions and issues.

4) PUBLIC EXPRESSION

Presenter/s: Ms. Meeka Ferretta.
5. DISCUSSION AND POSSIBLE ACTION ITEMS

5a) REPORT ON MEASURE B TAX FUNDS; EXPENDITURE REPORT WITH DISCUSSION AND POSSIBLE ACTION

Presenter/s: Mr. Lloyd Weer, Auditor-Controller:

Member Weer provided a monthly expenditure update to the Committee, and noted that it did not contain the additional tax proceeds for the month of November. He continued by stating that there has been a significant increase to the proceeds recently, but was not currently aware of the reason for that, but would confer with sales tax consultant at next quarterly meeting for clarity. To date the current balance is $3,863,213.

Public Comment: Ms. Carole Hester.

Committee Directive: GENERAL CONSENSUS OF THE COMMITTEE that a request be made to the Board of Supervisors that the Committee be provided a report of tax proceeds statistics.

5b) USE OF OLD HOWARD HOSPITAL WITH DISCUSSION AND POSSIBLE ACTION

Presenter/s: Chair Allman.

Chair Allman requested that the Committee make a decision regarding utilization of the Old Howard Hospital as a Psychiatric Health Facility (PFH). The committee discussed the need for the following: an in-depth review the Kemper report and recommendations; a Request for Proposal (RFP) for either a new wing or rehabilitation of the current facility from both Adventist Health and Old Howard Hospital respectively; adopt a strategic plan prior to determining priorities as to which direction to pursue; and the need for a clear understanding of the Committee’s role and responsibilities.

Public Comment: Mr. Richard Matins; Ms. Josephine Silva; Mr. John McCowen; Mr. Bear Kamaroff; Mr. Arnie Mello; Ms. Tammy Moss Chandler; and Mr. Gerry Gonzalez.

Committee Action: No action taken.

5c) ADVISE THE BOARD OF SUPERVISORS TO RELEASE A REQUEST FOR PROPOSAL (RFP) FOR BIDS FOR A PSYCHIATRIC HEALTH FACILITY (PHF), CRISIS STABILIZATION UNIT (CSU) AND CRISIS RESIDENTIAL TREATMENT FACILITY (CRT) FOR MENDOCINO COUNTY WITH DISCUSSION AND ACTION

Presenter/s: Member Barash

Committee Action: Upon motion by Member Barash, Seconded by Jed Diamond to make a recommendation to the Board of Supervisors to release a Request for Proposal (if necessary) for a Crisis Stabilization Unit and Crisis Residential Treatment Facility for the design and cost to construct. Motion was subsequently withdrawn by the maker and seconder.

Public Comment: Ms. Tammy Moss Chandler; and Ms. Camille Schraeder.

The Committee had a lengthy discussion regarding the County’s current Agreement with Redwood Community Services in the amount of $500,000 which was used to purchase property on Orchard Avenue for a Crisis Residential Treatment Facility. The members discussed the possibility of recommending that the County move forward with Redwood Community Services for a Crisis Stabilization Unit, Crisis Access, and Crisis Residential Treatment Facility.
Committee Action: Upon motion by Member Barash, the Committee shall encourage the Board of Supervisors to move forward with the current plan with Redwood Community Services for a Crisis Stabilization Unit, Crisis Access and Crisis Residential Treatment Facility on the Orchard Street property, and state that this Committee supports and encourages them to move forward with their plan. Motion was subsequently withdrawn by the maker.

Committee Directive: GENERAL CONSENSUS OF THE COMMITTEE that this item be continued to a future Committee agenda for continued discussion and Brown Act compliance.

5D) RECOMMEND TO THE BOARD OF SUPERVISORS TO EXPLORE THE USE OF MEASURE B FUNDS FOR REMODELING UKIAH ADVENTIST HOSPITAL VACANT ER/ICU FOR A PSYCHIATRIC FACILITY

Presenter/s: Chair Allman.

Committee Directive: GENERAL CONSENSUS OF THE COMMITTEE that this item be continued to a future agenda in order to have legal counsel present to address outstanding legal issues pertaining to this topic.

Public Comment: None.

5E) RECEIVE DATA ON CURRENT MOBILE OUTREACH PROGRAM SERVICES (MOPS); WITH DISCUSSION AND POSSIBLE ACTION

Presenter/s: Chair Allman.

Chair Allman provided brief overview on emergency involuntary psychiatric commitment of individuals who present a danger to themselves or others due to signs of mental illness. (5150) within the County, as well as data that may support that this reduction is due to Mobile Outreach Program Services (MOPS) teams.

Public Comment: Mr. Bill Keller.

Committee Action: No action taken.

5F) DISCUSSION AND DIRECTION REGARDING THE PROCUREMENT OF A DEDICATED STAFF PERSON FOR THE MEASURE B COMMITTEE WITH DISCUSSION AND POSSIBLE ACTION

Presenter/s: Chair Allman, Member McGourty; Member Riley; and Ms. Katharine Elliot, County Counsel.

The Committee discussed the potential need, as well as related costs, for a dedicated staff person for the Committee. Options discussed included potentially appointing an Ad Hoc Committee to determine responsibilities and necessary skillset; obtaining a Personal Services Contract; utilizing County Staff from either Health of Human Services or Clerk of the Board staff and if the Committee had the authority to expend funds for personnel.

Public Comment: None.

Committee Directive: GENERAL CONSENSUS OF THE COMMITTEE to defer a hiring decision until a comprehensive needs analysis can take place; and to utilize Deputy Clerk of the Board staff or Health and Human Services support staff to support the clerking responsibilities of the Committee.
5G) RECOMMENDED MEASURE B BUDGET SUMMARY TO BE PRESENTED TO THE BOARD OF SUPERVISORS WITH DISCUSSION AND POSSIBLE ACTION

Presenter/s: Mr. Lloyd Weer, Auditor-Controller.

Mr. Weer provided a budget summary as well as provided information on both current and future Measure B expenditures, such as a Kemper invoice. Discussion ensued regarding the proposed budget to be presented to the Board of Supervisors which could include a line item for professional services; staff, potential appropriation of funds for MOPS teams, and/or facilities and services. Member Weer advised that the proposed budget can be adjusted as needed.

COMMITTEE MEMBER DIAMOND ABSENT: 3:10 P.M.

Public Comment: None.

Committee Action: Upon motion by Member McGourty, seconded by Member Angelo, and carried (10/0/1, with Member Diamond absent) IT IS ORDERED that the Committee accepts Budget Recommendation and authorizes it be presented to the Board of Supervisors as a tentative cost.

5H) CHANGING MEASURE B MINUTES TO ACTION ONLY MINUTES WITH DISCUSSION AND POSSIBLE ACTION

Presenter/s: Chair Allman; and Member Moschetti.

The Committee discussed a possible change to the meeting Minutes style (from narrative to summary) for staff cost/time savings. It was determined that Member Moschetti will research alternatives including software that could provide a meeting narrative transcript and will report back at the January Committee meeting.

Committee Action: No action taken.

6) COMMITTEE MEMBER REPORTS

Presenter/s: Member McGourty; Member Angelo; Member Mertle; and Chair Allman.

Public Comment: None.

Committee Action: No action taken.

THERE BEING NOTHING FURTHER, THE MENTAL HEALTH TREATMENT ACT CITIZENS OVERSIGHT COMMITTEE ADJOURNED AT 3:20 P.M.

Attest: KARLA VAN HAGEN
Committee Clerk

The Committee complies with ADA requirements and upon request, will attempt to reasonably accommodate individuals with disabilities by making meeting materials available in appropriate formats (pursuant to Government Code section 54953.2). Anyone requiring reasonable accommodation to participate in the meeting should contact the Committee clerk by calling (707) 463-4441 at least five days prior to the meeting.

**AGENDA TITLE:**
Election of Vice-Chair of the Mental Health Treatment Act Citizen’s Oversight Committee

**SUMMARY OF REQUEST / BACKGROUND INFORMATION:**
Per the Adopted Rules of Procedure, a Vice-Chair shall be elected on the first meeting of January of Each Year.
FORWARD

TO THE CITIZENS OF MENDOCINO COUNTY:

This booklet containing the Rules of Procedure of the Mental Health Treatment Act Measure B Citizens Oversight Committee of the County of Mendocino has been prepared upon direction of the Measure B Citizens Oversight Committee. It attempts to outline the working procedures of the Committee meetings and legislative activities.

We hope that it will be of value to all citizens to better participate in the important work of local government, and assist citizens in better understanding the procedural aspects of County legislative enactments.

RULES OF ORDER AND PROCEDURE
OF THE MENTAL HEALTH TREATMENT ACT
MEASURE B CITIZENS OVERSIGHT COMMITTEE
MENDOCINO COUNTY, CALIFORNIA

I. ORGANIZATION AND MEETINGS

Rule 1. Applicability of Rules
These rules shall apply to the Mental Health Treatment Act Measure B Citizens Oversight Committee hereinafter “Oversight Committee” of the County of Mendocino.

Rule 2. Organizational Meeting
The organizational meeting of the Oversight Committee shall be held on the fourth Wednesday of January, at which time there shall be an election of officers of the Committee. No meeting shall be held the day of, or the day after, a state holiday.

Rule 3. Election of Officers
The Clerk of the Committee shall call the meeting to order and the first order of business shall be the election of a Chair and Vice-Chair for the ensuing calendar year. The Committee observes a rotation for the election of Chair and Vice-Chair, but a member shall not be elected to serve as Chair unless he or she has been a member of the Committee for the preceding calendar year. The Chair may be referred to as Mr. Chair or Madam Chair, as the case may be. The Vice-Chair may be referred to as Mr. Vice-Chair or Madam Vice-Chair, as the case may be.

Rule 4. Chair and Vice-Chair
The Chair shall serve as presiding officer of the Committee, rule on questions of procedure, appoint annual standing committees and all special assignments, attend agenda review meetings, executive official Committee records and documents presented by the Clerk of the Committee, and shall also represent the Committee at ceremonial or official functions. Rulings on questions of procedure and appointments by the Chair shall be subject to appeal to the Committee.

The Vice-Chair shall have and exercise all powers and duties of the Chair at the meetings over which he or she is called to preside at ceremonial and official functions, which the Chair cannot attend. In the absence of the Chair, the Vice-Chair shall call the meeting to order and serve as presiding officer. In the absence of the Chair and the Vice-Chair, a member present shall preside until either the Chair or Vice-Chair appears.

Rule 5. Regular Meetings
Regular monthly meetings will be conducted pursuant to the master calendar adopted at the beginning of each calendar year, with the exception that a scheduled meeting may be canceled if deemed appropriate by a majority vote the Committee.

Regular meetings and continuances thereof shall commence at 1:00 p.m. and shall be held in Conference Room C at 501 Low Gap Road, Ukiah, California, unless the time, date and location is changed by a majority vote of the Committee. Notice of any continuance must be posted within 24 hours of adjournment, at or near the place where the meeting was held. At each regular meeting, or any continuance thereof, the Committee may transact any and all business which it is authorized or permitted by law to transact.
Business shall normally be conducted between 1:00 p.m. and 3:00 p.m., but may continue past that time without objection from the members present. All items agendized for that meeting and not concluded shall be continued to the next regular meeting of the Committee.

All open sessions of the Committee shall be recorded by audio or visual means or both and may also be recorded and broadcast by any member of the public or media so long as it does not disrupt the proceedings.

**Rule 6. Special Meetings, Final Budget Hearings, Workshops, and Planning Meetings**  
Special Meetings, Final Budget Hearings, Workshops, and Planning Meetings may be called by the Chair or by a majority of the Committee at times and locations other than the above in accordance with the law and specified notice provisions set forth in Government Code §54965. In all cases the Committee may transact any and all business which it is authorized or permitted by law to transact.

**Rule 7. Clerk of the Board**  
The Clerk of the Committee shall be present during all meetings for the purpose of taking and maintaining the minutes of the meeting; presenting and receiving correspondence, records, documents, claims, reports, or petition; preserving all records; marking or attesting all resolutions and ordinances; imparting information on Committee documents of public record; and otherwise fulfilling all duties imposed by law or required by the Committee or by the presiding officer.

**Rule 8. County Council**  
County Counsel or Deputy County Council shall be available at all meetings for the purpose of advising the Committee on legal questions unless excused by the presiding officer.

**Rule 9. Quorum and Action**  
A majority of the members of the Committee shall constitute a quorum for the transaction of business and no act of the Committee shall be valid or binding unless a majority of all members are present in concurred therein.

A Committee directive may be given by informal action of a majority of the Committee and shall be recorded in the minutes, including the names of any Committee members who state their opposition to the action.

**Rule 10. Order of Business**  
The Committee shall conduct business in the order specified in the posted agenda or as modified at the discretion of the Chair. Without amending these rules, the Committee may modify or amend the Order of Business, which shall be attached to these rules as Appendix A.

**Rule 11. Role Call**  
The Clerk shall call the roll at the commencement of each meeting and shall record each member as being present or absent. The Clerk shall further record, during the course of each meeting, the arrival of any member listed as absent and the departure of any member listed as present.

Planned absences shall be communicated to the Clerk of the Committee at least one week in advance. Unanticipated absences shall be reported as soon as possible. If a member is absent, he or she may have entered into the record the reason why.
**Rule 12. Minutes of Previous Meetings**
The minutes of previous meetings shall be submitted to the Committee for additions, corrections, and approval by majority vote of the Committee.

**Rule 13. Agenda Procedure**
With the exception of items sponsored by Board members, all items to be placed on the agenda shall be presented to the Clerk not later than 12:00 noon on the Monday two weeks preceding the regular meeting for which the agenda is prepared and shall include a complete agenda summary, all supporting documentation, and a fiscal analysis if necessary. The Chief Executive Officer/Clerk of the Committee may authorize limited exceptions to the above procedure on a case-by-case basis to accommodate time sensitive items.

Late agenda items may be included as “Modifications to Agenda” provided Brown Act noticing requirements are met.

**Rule 14. Matters Not on the Agenda**
No action shall be taken on any item not appearing on the posted agenda except: (1) upon a majority vote of the Committee that an emergency situation exists as defined in Government Code §54956.5; (2) upon a determination by a majority vote of the Committee, or if less than majority of the members are present, a unanimous vote of those members present, that the need to take immediate action arose subsequent to the agenda being posted; (3) when the item was posted for a prior meeting of the Committee occurring not more than five calendar days prior to the date action is taken on the item, and at the prior meeting the item was continued to the meeting at which action is being taken.

**Rule 15. Public Expression**
Public expression on any item not appearing on the Oversight Committee agenda, but which is within, or reasonably related to, the subject matter jurisdiction of the Committee is permitted. The Committee limits testimony on matters not on the agenda to three (3) minutes per person and not more than ten (10) minutes for a particular subject at the discretion of the Chair.

**II. PROCEDURE AND VOTING**

**Rule 16. Order and Decorum**
The Chair shall preserve order and decorum and shall decide all questions of order and procedure subject to an appeal to the Committee.

The nature of any appeal shall be briefly stated and the Chair shall have the right to state the reason for his or her decision. The Committee shall decide the case without debate, and the question shall be stated as follows: “Shall the ruling of the Chair be sustained?”
A point of order may only be raised by a member of the Committee.

No member wishing to speak or debate shall proceed until he or she shall have addressed the Chair and been recognized thereby. When two or more members speak at the same time, the Chair shall determine who is entitled to the floor.

While a member is speaking, no member shall engage in or entertain a private discussion.
All members shall use a formal style, including appropriate titles, and addressing the public, staff and each other. All members shall refrain from the use of profanity, emotional outburst, personal attacks or any speech or conduct which tends to bring the organization into disrepute.

Any member desiring to leave the meeting room shall first obtain permission from the Chair. When a motion to adjourn is carried, the member shall remain seated until the Chair declares the meeting adjourned.

The Chair may determine when orderly conduct of the meeting is not feasible owing to disruptive behavior by persons in attendance. The Chair may order the removal of the person(s) disrupting the meeting. If order cannot be restored by removal of such person(s), the Chair may order the meeting room cleared and continue in session. Members of the news media, except those participating in the disturbance, shall be allowed to remain. The Chair may re-admit any person(s) provided their re-admission will not disrupt the continued orderly conduct of business.

**Rule 17. Privilege of the Floor**
Members of the public have the right to address the Committee on any item within the subject matter jurisdiction of the Committee pursuant to Government Code section 54954.3.

At the invitation of the Chair, members of the public who wish to speak shall come to the podium and identify themselves by name. The Clerk shall enter into the minutes the names of all members of the public to whom the privilege of the floor has been granted.

Members of the public shall direct their comments and questions to the Chair who may, at his or her discretion, request a response from staff. The Chair may, in the interest of facilitating the business of the Committee, limit the amount of time a citizen may use and addressing the Committee.

**Rule 18. Rules of Debate**
When any member is about to speak in debate, he or she shall respectfully address him/herself to “Mr. Chair” or “Madam Chair”, as appropriate.

The member upon whose motion a subject is brought before the Committee, or who reports a measure from Committee, is first entitled to the floor, even though another member has first addressed the Chair; and he or she is also entitled to close the debate but not until every member choosing to speak has spoken. No member shall speak more than twice to the same question (unless entitled to close the debate) nor longer than five (5) minutes at one time, without leave of the Committee, and the question upon granting the leave shall be decided by a majority vote of all the members of the Committee without debate.

**Rule 19. Motions – General**
Any motion for action shall require a second before being acknowledged by the Chair. The Clerk shall enter into the minutes the motion and the names of the moving and seconding members. After a motion is stated by the Chair or read by the Clerk, it shall be open for debate, but may be withdrawn by the maker at any time before a decision is made or an amendment adopted. A motion may be amended with the consent of the moving and seconding members at any time before a decision is made or an amendment adopted unless another motion is pending. The Clerk shall enter into the minutes the vote of each member on each motion.
When a question is under debate, no motion shall be received except as stated with preference in
the following order:

1. Adjournment of the Board
2. To lay on the table
3. The previous question
4. To postpone to a certain date
5. To refer to committee
6. To amend
7. To postpone indefinitely

The following motions are not amendable or debatable:

- To adjourn for the day
- To call the question (call the roll)
- The previous question
- To lay on the table

The motion to postpone indefinitely cannot be amended.

An amendment to an amendment cannot be amended.

Motions to adjourn or to take a recess shall always be in order, but may not be made while the
Chair is acknowledging the question, or while a member has the floor, or after the previous
question has been ordered.

**Rule 20. Questions Continued by Rule**
Any motion which by its terms calls for an appropriation or expenditure of money shall, upon
request and without further action, be continued to the next regularly scheduled Committee
meeting.

No act of the Committee shall be valid or binding unless a majority of all the members concur
therein.

As a matter of public policy, all members of the Committee shall take a position in a vote on all
issues brought before them. Any member who abstains shall state the reason why, either before
or immediately following any abstention.

A member who has a disqualifying financial conflict of interest or is disqualified from voting for
another legally compelling reason shall:

- Publicly identify the financial interest or other reason for being legally unable to vote in a
  manner sufficient to be understood by the public;
- Recuse him/herself from discussing and voting on the matter;
- Leave the room until after the discussion, vote, and other disposition of the matter is
  concluded, unless the matter has been placed on the Consent Calendar. However, the
  member, prior to leaving the room, may address the matter during the time that the
general public is allowed to address the matter.
A commissioner who is absent from all or a part of: (1) a public hearing; (2) an item that requires findings; or (3) an item that is quasi-judicial in nature, may subsequently vote on the matter heard if the commissioner states that he or she has reviewed all evidence received during his or her absence, and has also listen to the Clerk’s recording or read a true and complete transcript of the proceedings.

**Rule 22. Motion to Resend**
A motion to resend any action or motion shall require a majority vote unless notice has been given at the previous meeting, either verbally or in writing. If notice has been given, the motion requires only a majority vote of all the members of the Committee. A motion to resend is not in order if action has already been taken which cannot be undone.

**Rule 23. Motion to Reconsider**
Any member of the Committee who votes in the majority on a question, as well as any member who was absent, is eligible to make a motion to reconsider. A motion to reconsider shall be in order during the meeting at which the action to be reconsidered took place, provided members of the public in attendance during the original action are still present in the Conference Room. In all other cases, motions for reconsideration must be placed on a future agenda for action. Unless a member was absent, a motion to reconsider must be placed on the agenda for the next regular Committee meeting. A member who was absent must place a motion to reconsider on the agenda for the next regular Committee meeting after the regular Committee meeting at which that member is in attendance. A motion to reconsider shall require a majority vote provided a quorum is present. A motion to reconsider, if lost, shall not be renewed nor shall any subject be a second time reconsidered within twelve (12) months, except by a majority vote of the entire Committee.

**Rule 24. Substitute Motion**
A substitute motion is an amendment where an entire resolution or section, or one or more paragraphs, is struck out and another is inserted in its place. The motion to substitute, if adopted by majority vote, does away entirely with the original motion. The votes shall then be taken on the motion that was substituted. A substitute motion is appropriate if amendments become involved or a paragraph requires considerable changes. A substitute motion may not be made when an amendment is pending.

**III. COMMITTEES**

**Rule 25. Committees in General**
The Chair of each committee shall call meetings as needed, provided they are held in conformance with the law and do not conflict with the Committee master calendar.

Any committee vacancy shall be filled by the Chair of the Committee without delay. The Chair of the Committee may serve as a member of any committee whenever a committee member is absent or unable to serve, except in those circumstances that it would cause a violation of the Brown Act.

Each committee shall have the authority to investigate as it deems best the matters referred to it by the Oversight Committee, but shall not authorize any funding.

No committee shall investigate any matter unless referred to it by the full Committee.

Upon a majority vote of all members of the Committee, any matter referred to any committee may be withdrawn from the consideration of such committee and referred to another committee, unless said referral would cause a violation of the Brown Act.
All committees shall report to the Committee following each committee meeting. Committee reports shall be given by the Chair thereof either orally or in writing, but no report shall be made in the absence of either member of such committee unless the majority of the Committee so orders and directs.

**Rule 26. Ad Hoc Committees**
Ad hoc committees may be formed by Chair directive or Committee action and shall include prescribed duties and membership of the committee. Status reports from ad hoc committees shall be made to the Committee of each regular meeting. Ad hoc committees are encouraged to conclude their business at the end of each calendar year but may be extended at the recommendation of the committee and approval of the Committee. The Clerk of the Committee will maintain a current index of ad hoc committees and their purpose.

**Rule 27. Committee Assignments/Reporting Requirements**
All members who are assigned to special projects, committees, and separate boards or commissions shall provide regular reports to the full Committee regarding their activity in connection with the special assignment.

**Rule 28. Suspension or Amendment of Rules**
Any rule may be suspended or amended upon the consent of 80% of all the members of the Oversight Committee. Suspension of any rule shall apply only to those matters before the Committee at that time.

A proposal to amend the rules shall be filed in writing with the Clerk of the Committee, and shall be made a special item of business at the next regular meeting of the Committee.

**Rule 29. Parliamentary Questions**
On all points of order or procedure not governed by these rules, the general rules of parliamentary practice as outlined in Robert’s Rules of Order (latest revised edition) shall govern.

**IV. OTHER**

**Appendix A. Order of Agenda**
The order of business at each regular meeting, except for such times as may be set apart for consideration of special items, shall be as follows:

1. Call to Order
2. Roll Call
3. Approval of Minutes
4. Approval of Agenda
5. Discussion and Possible Action Items
6. Committee Member Reports
7. Public Expression
8. Adjournment

Adopted: 05/23/2018

**AGENDA TITLE:**
Discussion and Possible Action Regarding Update from County Counsel Regarding Legal Issues Raised by the Committee

**SUMMARY OF REQUEST / BACKGROUND INFORMATION:**
The Committee will receive a report from County Counsel regarding legal issues raised by the Committee including:

1. A legal opinion regarding the City of Willits claims as to jurisdiction over utilizing the old Howard Hospital as a PHF etc. facility.
2. Board of Supervisors legal ability to spend Measure B funds on building and/or improving facilities not owned by the County.
3. Conditions in which Measure B funds can be used for construction of facilities without paying prevailing wage rates.
4. In respect to design/build contracts – Can the design contractor also be the build contractor? Do County procurement procedures preclude this similar to Federal procedures?
ORDINANCE NO.4387

ORDINANCE OF THE COUNTY OF MENDOCINO, STATE OF CALIFORNIA, ADDING CHAPTER 5.180 TO THE MENDOCINO COUNTY CODE ENTITLED THE "MENTAL HEALTH TREATMENT ACT" ADOPTING A COUNTY TRANSACTIONS (SALES) AND USE TAX FOR THE SPECIFIC PURPOSE OF FUNDING IMPROVED SERVICES, TREATMENT AND FACILITIES FOR PERSONS WITH MENTAL HEALTH CONDITIONS

NOW, THEREFORE, The Mendocino County Board of Supervisors Ordains as Follows:

Section 1. Chapter 5.180 is added to the Mendocino County Code to read as follows:

"MENTAL HEALTH TREATMENT ACT"

Section 5.180.010. Findings.

The Board of Supervisors of the County of Mendocino makes the following findings:

A. State law authorizes the voters of the County to adopt a special sales tax with a two-thirds vote of the electorate.

B. The California Elections Code permits submission to the voters, without petition, any measure relating to the enactment of an ordinance.

C. An ordinance adopting a Transactions (Sales) and Use Tax on retail transactions in the unincorporated and incorporated areas of the County of Mendocino is appropriate and necessary in order to generate revenue that will be placed in a special Mental Health Treatment Fund entirely dedicated to funding improved services, treatment, and facilities for persons with behavioral health conditions. Further, it is appropriate to submit this ordinance directly to a vote of the electorate.

Section 5.180.020. Title.

This ordinance shall be known as the "Mental Health Treatment Act." This ordinance provides for a Special Transactions (Sales) and Use Tax and shall be applicable to the unincorporated and incorporated areas of the County of Mendocino, which shall be referred to herein as "County."

Section 5.180.030. Operative Date.

"Operative Date" means the first day of the first calendar quarter commencing more than 110 days after the adoption of this ordinance, the date of such adoption being as set forth below.

Section 5.180.040. Specific Purpose.

Mendocino County is committed to improving residents' lives and the public's safety by strategically evaluating and enhancing resources for mental health treatment. Therefore, this ordinance is adopted to achieve the following, among other purposes, and directs that the provisions herein be interpreted in order to accomplish these purposes:
A. Provide for assistance in the diagnosis, treatment and recovery from mental illness and addiction by developing: 1) a psychiatric facility and other behavioral health facilities; and 2) a regional behavioral health training facility to be used by behavioral health professionals, public safety and other first responders.

B. Provide for the necessary infrastructure to support and stabilize individuals with behavioral health conditions, including addiction and neurological disorders.

C. Conduct an independent annual audit and develop a performance management strategy which measures the effectiveness of the improved services, treatment and facilities and assesses the impact of the “Mental Health Treatment Act.”

D. Create a politically independent “Mental Health Treatment Act” Citizen’s Oversight Committee which shall review the independent annual audit of expenditures and the performance management plan for compliance with the Specific Purpose of this ordinance. This committee shall also provide recommendations to the Board of Supervisors on the implementation of this ordinance. The committee shall be comprised of eleven members, including a citizen selected by each member of the Mendocino County Board of Supervisors, a Member of the Behavioral Health Advisory Board, the County Mental Health Director or his/her representative, the County Auditor or his/her representative, the Mendocino County Chief Executive Officer or his/her representative, the Sheriff or his/her representative, and a representative of the Mendocino Chapter of the National Alliance on Mental Illness. The Mendocino County Board of Supervisors is encouraged to include professional experts such as psychiatric and health practitioners, first responders and other mental health professionals among the five committee members selected by the Board. The meetings of this committee shall be open to the public and shall be held in compliance with the Ralph M. Brown Act, California’s open meeting law.

E. Create a Mental Health Treatment Fund entirely dedicated to fund improved services, treatment and facilities for persons with mental health conditions into which 100% of the revenue from this measure shall be deposited.

F. For a period of five (5) years a maximum of 75% of the revenue deposited into the Mental Health Treatment Fund may be used for facilities, with not less than 25% dedicated to services and treatment; thereafter 100% of all revenue deposited into the Mental Health Treatment Fund shall be used for ongoing operations, services and treatment.

Section 5.180.050. Purpose.
This ordinance is adopted to achieve the following, among other purposes, and directs that the provisions hereof be interpreted in order to accomplish those purposes:

A. To impose a retail transactions and use tax in accordance with the provisions of Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code and Section 7285.5 of Part 1.7 of Division 2 which authorizes the County to adopt this tax ordinance which shall be operative if a (2/3) majority of the electors voting on the measure vote to approve the imposition of the tax at an election called for that purpose.

B. To adopt a retail transactions and use tax ordinance that incorporates provisions identical to those of the Sales and Use Tax Law of the State of California insofar as those provisions are not inconsistent with the requirements and limitations contained in Part 1.6 of Division 2 of the Revenue and Taxation Code.

C. To adopt a retail transactions and use tax ordinance that imposes a tax and provides a measure therefor that can be administered and collected by the California Department of Tax and Fee Administration in a manner that adapts itself as fully as practicable to, and requires the least possible deviation from, the existing statutory and administrative procedures followed by the California Department of Tax and Fee Administration in administering and collecting the California State Sales and Use Taxes.

D. To adopt a retail transactions and use tax ordinance that can be administered in a manner that will be, to the greatest degree possible, consistent with the provisions of Part 1.6 of Division 2 of the Revenue and Taxation Code; minimize the cost of collecting the transactions and use taxes; and at the same time, minimize the burden of record keeping upon persons subject to taxation under the provisions of this ordinance.

Section 5.180.060. Contract with State.

Prior to the Operative Date, the County shall contract with the California Department of Tax and Fee Administration to perform all functions incident to the administration and operation of this transactions and use tax ordinance; provided, that if the County shall not have contracted with the California Department of Tax and Fee Administration prior to the operative date, it shall nevertheless so contract and in such a case the Operative Date shall be the first day of the first calendar quarter following the execution of such a contract.

Section 5.180.070. Transactions Tax Rate.

For the privilege of selling tangible personal property at retail, a one-half cent (0.5%) tax for five (5) years after the Operative Date of this Chapter; and one-eighth cent (0.125%) tax, which will continue unless or until the tax is repealed by a majority vote in a general election, is hereby imposed upon all retailers in the incorporated and unincorporated territory of the County of the gross receipts of any retailer from the sale of all tangible
personal property sold at retail in said territory on and after the operative date of this ordinance.

Section 5.180.080. Place of Sale.

For the purposes of this ordinance, all retail sales are consummated at the place of business of the retailer unless the tangible personal property sold is delivered by the retailer or his agent to an out-of-state destination or to a common carrier for delivery to an out-of-state destination. The gross receipts from such sales shall include delivery charges, when such charges are subject to the state sales and use tax, regardless of the place to which delivery is made. In the event a retailer has no permanent place of business in the State or has more than one place of business, the place or places at which the retail sales are consummated shall be determined under rules and regulations to be prescribed and adopted by the California Department of Tax and Fee Administration.

Section 5.180.090. Use Tax Rate.

An excise tax is hereby imposed on the storage, use or other consumption in the County of tangible personal property purchased from any retailer on and after the operative date of this ordinance for storage, use or other consumption in said territory at the rate of one-half cent (0.5%) for five (5) years after the Operative Date of this Chapter; and one-eighth cent (0.125%), which will continue unless or until the tax is repealed by a majority vote in a general election, of the sales price of the property. The sales price shall include delivery charges when such charges are subject to state sales or use tax regardless of the place to which delivery is made.

Section 5.180.100. Adoption of Provisions of State Law.

Except as otherwise provided in this ordinance and except insofar as they are inconsistent with the provisions of Part 1.6 of Division 2 of the Revenue and Taxation Code, all of the provisions of Part 1 (commencing with Section 6001) of Division 2 of the Revenue and Taxation Code are hereby adopted and made a part of this ordinance as though fully set forth herein.

Section 5.180.110. Limitations on Adoption of State Law and Collection of Use Taxes

In adopting the provisions of Part 1 of Division 2 of the Revenue and Taxation Code:

A. Wherever the State of California is named or referred to as the taxing agency, the name of this County shall be substituted therefor. However, the substitution shall not be made when:

1. The word "State" is used as a part of the title of the State Controller, State Treasurer, California Department of Tax and Fee Administration, State Treasury, or the Constitution of the State of California;
2. The result of that substitution would require action to be taken by or against this County or any agency, officer, or employee thereof rather than by or against the California Department of Tax and Fee Administration, in performing the functions incident to the administration or operation of this Ordinance.

3. In those sections, including, but not necessarily limited to sections referring to the exterior boundaries of the State of California, where the result of the substitution would be to:

   a. Provide an exemption from this tax with respect to certain sales, storage, use or other consumption of tangible personal property which would not otherwise be exempt from this tax while such sales, storage, use or other consumption remain subject to tax by the State under the provisions of Part 1 of Division 2 of the Revenue and Taxation Code, or;

   b. Impose this tax with respect to certain sales, storage, use or other consumption of tangible personal property which would not be subject to tax by the state under the said provision of that code.

4. In Sections 6701, 6702 (except in the last sentence thereof), 6711, 6715, 6737, 6797 or 6828 of the Revenue and Taxation Code.

B. The word "County" shall be substituted for the word "State" in the phrase "retailer engaged in business in this State" in Section 6203 and in the definition of that phrase in Section 6203.

Section 5.180.120. Permit Not Required.

If a seller's permit has been issued to a retailer under Section 6067 of the Revenue and Taxation Code, an additional transactor's permit shall not be required by this ordinance.

Section 5.180.130. Exemptions and Exclusions.

A. There shall be excluded from the measure of the transactions tax and the use tax the amount of any sales tax or use tax imposed by the State of California or by any city, city and county, or county pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law or the amount of any state-administered transactions or use tax.

B. There are exempted from the computation of the amount of transactions tax the gross receipts from:

1. Sales of tangible personal property, other than fuel or petroleum products, to operators of aircraft to be used or consumed principally outside the County in which the sale is made and
directly and exclusively in the use of such aircraft as common
carriers of persons or property under the authority of the laws of
this State, the United States, or any foreign government.

2. Sales of property to be used outside the County which is shipped
to a point outside the County, pursuant to the contract of sale, by
delivery to such point by the retailer or his agent, or by delivery by
the retailer to a carrier for shipment to a consignee at such point.
For the purposes of this paragraph, delivery to a point outside the
County shall be satisfied:

a. With respect to vehicles (other than commercial vehicles)
subject to registration pursuant to Chapter 1 (commencing
with Section 4000) of Division 3 of the Vehicle Code,
aircraft licensed in compliance with Section 21411 of the
Public Utilities Code, and undocumented vessels
registered under Division 3.5 (commencing with Section
9840) of the Vehicle Code by registration to an out-of-
County address and by a declaration under penalty of
perjury, signed by the buyer, stating that such address is,
indeed, his or her principal place of residence; and

b. With respect to commercial vehicles, by registration to a
place of business out-of-County and declaration under
penalty of perjury, signed by the buyer, that the vehicle will
be operated from that address.

3. The sale of tangible personal property if the seller is obligated to
furnish the property for a fixed price pursuant to a contract
entered into prior to the operative date of this ordinance.

4. A lease of tangible personal property which is a continuing sale of
such property, for any period of time for which the lessor is
obligated to lease the property for an amount fixed by the lease
prior to the operative date of this ordinance.

5. For the purposes of subparagraphs (3) and (4) of this section, the
sale or lease of tangible personal property shall be deemed not to
be obligated pursuant to a contract or lease for any period of time
for which any party to the contract or lease has the unconditional
right to terminate the contract or lease upon notice, whether or not
such right is exercised.

C. There are exempted from the use tax imposed by this ordinance, the
storage, use or other consumption in this County of tangible personal
property:

1. The gross receipts from the sale of which have been subject to a
transactions tax under any state-administered transactions and
use tax ordinance.
2. Other than fuel or petroleum products purchased by operators of aircraft and used or consumed by such operators directly and exclusively in the use of such aircraft as common carriers of persons or property for hire or compensation under a certificate of public convenience and necessity issued pursuant to the laws of this State, the United States, or any foreign government. This exemption is in addition to the exemptions provided in Sections 6366 and 6366.1 of the Revenue and Taxation Code of the State of California.

3. If the purchaser is obligated to purchase the property for a fixed price pursuant to a contract entered into prior to the operative date of this ordinance.

4. If the possession of, or the exercise of any right or power over, the tangible personal property arises under a lease which is a continuing purchase of such property for any period of time for which the lessee is obligated to lease the property for an amount fixed by a lease prior to the operative date of this ordinance.

5. For the purposes of subparagraphs (3) and (4) of this section, storage, use, or other consumption, or possession of, or exercise of any right or power over, tangible personal property shall be deemed not to be obligated pursuant to a contract or lease for any period of time for which any party to the contract or lease has the unconditional right to terminate the contract or lease upon notice, whether or not such right is exercised.

6. Except as provided in subparagraph (7), a retailer engaged in business in the County shall not be required to collect use tax from the purchaser of tangible personal property, unless the retailer ships or delivers the property into the County or participates within the County in making the sale of the property, including, but not limited to, soliciting or receiving the order, either directly or indirectly, at a place of business of the retailer in the County or through any representative, agent, canvasser, solicitor, subsidiary, or person in the County under the authority of the retailer.

7. "A retailer engaged in business in the County" shall also include any retailer of any of the following: vehicles subject to registration pursuant to Chapter 1 (commencing with Section 4000) of Division 3 of the Vehicle Code, aircraft licensed in compliance with Section 21411 of the Public Utilities Code, or undocumented vessels registered under Division 3.5 (commencing with Section 9840) of the Vehicle Code. That retailer shall be required to collect use tax from any purchaser who registers or licenses the vehicle, vessel, or aircraft at an address in the County.
D. Any person subject to use tax under this ordinance may credit against that tax any transactions tax or reimbursement for transactions tax paid to a district imposing, or retailer liable for a transactions tax pursuant to Part 1.6 of Division 2 of the Revenue and Taxation Code with respect to the sale to the person of the property the storage, use or other consumption of which is subject to the use tax.

Section 5.180.140. Amendments.

All amendments subsequent to the effective date of this ordinance to Part 1 of Division 2 of the Revenue and Taxation Code relating to sales and use taxes and which are not inconsistent with Part 1.6 and Part 1.7 of Division 2 of the Revenue and Taxation Code, and all amendments to Part 1.6 and Part 1.7 of Division 2 of the Revenue and Taxation Code, shall automatically become a part of this ordinance, provided however, that no such amendment shall operate so as to affect the rate of tax imposed by this ordinance.

Section 5.180.150. Enjoining Collection Forbidden.

No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action or proceeding in any court against the State or the County, or against any officer of the State or the County, to prevent or enjoin the collection under this ordinance, or Part 1.6 of Division 2 of the Revenue and Taxation Code, of any tax or any amount of tax required to be collected.

Section 5.180.160. Severability.

If any provision of this ordinance or the application thereof to any person or circumstance is held invalid, the remainder of the ordinance and the application of such provision to other persons or circumstances shall not be affected thereby.

Section 5.180.170. Use of Tax Proceeds.

The expenditure plan required by Revenue and Taxation Code section 7285.5 for the revenue from the tax approved by this Chapter is set forth in this ordinance, which was approved by the qualified voters of Mendocino County at the November 7, 2017, election. All proceeds of the taxes levied and imposed hereunder shall be used for the purposes stated in the Initiative.

Payment for the costs of the election shall be the responsibility of the County. If the election results in approval of the ordinance by at least a 2/3 vote of those voters voting on the ordinance, the County shall be reimbursed for the cost of the election from the proceeds of the tax.

Section 5.180.190. Effective Date.

This ordinance relates to the levying and collecting of the County transactions and use taxes and shall take effect immediately.
Section 2.  CALIFORNIA ENVIRONMENTAL QUALITY ACT. The Board of Supervisors hereby finds that this ordinance is not a project subject to the California Environmental Quality Act (Public Resources Code section 21000 et seq.; “CEQA”) pursuant to CEQA Guidelines (14 Cal. Code Regs. section 15000 et seq.,) sections 15060(c)(3) and 15378(b)(4), as the ballot measure for which this ordinance is providing enacting language involves a government funding mechanism and related fiscal activities that does not involve any commitment to any specific project.

Section 3.  VOTER APPROVAL. This ordinance shall be effective only if approved by two-thirds of the voters voting on this measure at the November 7, 2017, election, and after the vote is certified by the Board of Supervisors. If this measure is approved by the voters, this ordinance shall take effect on the Effective Date and become operative on the Operative Date, as those dates are defined herein.

PASSED AND ADOPTED by a four-fifths vote of the Board of Supervisors of the County of Mendocino, State of California, on this 1st day of August, 2017, by the following vote:

AYES: Supervisors Brown, McCowen, Croskey, Gjerde, and Hamburg
NOES: None
ABSENT: None

WHEREUPON, the Chair declared the Ordinance passed and adopted and SO ORDERED.

ATTEST: CARMEL J. ANGELO
Clerk of the Board

Deputy

JOHN McCOWEN, Chair
Mendocino County Board of Supervisors

I hereby certify that according to the provisions of Government Code section 25103, delivery of this document has been made.

I. Executive Summary

Mendocino County’s Measure B, the “Mental Health Treatment Act,” was approved by County voters on November 7, 2017. Over the first five (5) years, Measure B will generate roughly $38 million for behavioral health facility construction and ongoing operations, services and treatment. Kemper Consulting Group was hired by Mendocino County to:

- Conduct an assessment of behavioral health facility and service needs in Mendocino County and identify current service needs in the County due to gaps in the continuums of care; and, identify projected service needs in five (5) years based upon current and anticipated needs; and,
- Present key policy and financing decisions that need to be made by the Board of Supervisors to effectuate effective and sustainable use of the Measure B revenues over time.

The Mental Health Mission Statement of the Mendocino County Behavioral Health Services Department (BHRS) speaks to delivering services “in the least restrictive, most accessible environment within a coordinated system of care that is respectful of a person’s family, language, heritage and culture” and maximizing independent living and improving quality of life through community-based treatment. The BHRS Substance Use Disorders Treatment Mission Statement speaks to promoting “healthy behaviors through prevention and treatment strategies that support our community’s need to address alcohol and other drug abuse, addictions and related conditions.”

Our assessment finds that the current continuums of care in Mendocino County for mental health and substance use disorder treatment fall short of achieving the goals expressed in these mission statements in a number of key service areas.

For the current mental health continuum of care, we find the continuum is missing key services that are essential to reducing the need for inpatient psychiatric care, including but not limited to Crisis Residential Treatment, day treatment, and a robust array of community-based wellness and support services. We also find the growing level of crisis mental health assessments is placing increasing strain on local hospital Emergency Departments that serve as the primary locations for patient assessment and hold pending a determination of their psychiatric needs. Further, we find that Mendocino County's use of out-of-county inpatient psychiatric care is growing at an accelerated pace, due in large part to a lack of alternative treatment options in the County. Between FY 2016-17 and FY 2017-18, the average daily number of persons in inpatient psychiatric care increased from 11.7 to 15.1 – an increase of 29%.

Over the next five years we believe the primary principle that should drive Measure B policy-making is a commitment to developing a comprehensive mental health services continuum in Mendocino County that provides a broad range of services and supports that remediate mental health conditions at the earliest possible time and reduce the need for inpatient psychiatric utilization. With this principle, we believe
Behavioral Health System Gap Analysis & Recommendations

Mendocino County can both set a goal of reducing the need for inpatient psychiatric care, while simultaneously assuring that inpatient psychiatric care is available in the County when needed. Further, we believe a goal of a 50% reduction in the use of inpatient psychiatric care within five years, by FY 2022-23, is a responsible goal. This would reduce daily hospital utilization from 15.1 persons per day to a more sustainable 7.6 persons per day.

To achieve this goal, among other things we recommend that Measure B funds be allocated to support facility construction of a Crisis Residential Treatment facility, which includes a Crisis Stabilization Unit (CSU), as currently planned but awaiting financing. We also recommend Measure B funds provide annual funding support to CSU operations. We recommend that Measure B funds be allocated to support facility construction for inpatient psychiatric care in Mendocino County, and offer alternative approaches for achieving this objective. We recommend that Measure B funds provide annual funding support for a substantial expansion of community-level support services that address mental health conditions of county residents, including those in more remote locations, at the earliest possible time and reduce the need for inpatient psychiatric care. Finally, we recommend Measure B funds be allocated to a Supportive Housing Pool for use in addressing the housing needs of persons with mental illness, including individuals that are under conservatorship with Mendocino County and placed out-of-county and persons that are homeless.

For the current SUDT continuum of care, we find the array of treatment services provides only the most basic components of a care continuum, and to a very small population. We find key services are missing, most notably community-based recovery and rehabilitation programs and a wide range of residential treatment options (low to high intensity). We note that planning for the development of SUDT services in the County is contextual to possible implementation of the Drug Medi-Cal Program’s Organized Delivery System (ODS), and that discussions with Partnership Health Plan are underway regarding administration of the ODS for Mendocino County. We make no recommendations regarding implementation of the ODS, but we believe Measure B funds should be dedicated to expand access to SUDT services for county residents to expand upon the limited array of services that are currently available. Toward this end, we recommend 10% of Measure B funds be allocated to SUDT services over the first five years, subject to a proposed spending plan from the BHRS Director, and a continuation of this funding during the following five years.

More broadly, we offer the Board of Supervisors a proposed set of policies to guide the use of Measure B funds that include:

- Measure B funds are intended to *supplement, not supplant*, existing sources of funding for mental health and SUDT services;
- Measure B funds are intended to fund programs that address shortcomings in the service continuums for both Mental Health and Substance Use Disorder Treatment, as those continuums
evolve over time, with an emphasis on community-based services that reduce the need for higher level services;

- A Measure B Prudent Reserve should be established and funded to provide additional revenue for behavioral health programs in Years 6-10 of Measure B, when funding will be less due to the drop from 1/2-cent to 1/8-cent sales tax;
- A separate annual accounting of all Measure B revenues and expenditures should be undertaken that is distinct from standard accounting by BHRS; and,
- A 10-Year Strategic Spending Plan for Measure B revenues should be adopted that provides a framework for funding priorities over time. A proposed Spending Plan is offered for consideration.
II. Background

Kemper Consulting Group was hired by Mendocino County to conduct an assessment of behavioral health facility and service needs in Mendocino County to support program development and policy planning needed for implementation of Measure B, the “Mental Health Treatment Act,” which was approved by Mendocino County voters on November 7, 2017. Measure B gives Mendocino County a unique opportunity to address mental health and substance use issues experienced by county residents today and into the future through its collection of sales tax revenue to support expanded behavioral health service delivery. As set forth in Measure B, over the first five (5) years the measure will generate roughly $38 million for facility construction and ongoing operations, services and treatment. Of the revenue generated in the first five years, up to 75% of the revenue may be used for facilities and not less than 25% must be dedicated to services and treatment. Beginning with revenues collected in the sixth year and each year thereafter, 100% of new funding, estimated at nearly $2 million annually, must be used for ongoing operations, services and treatment. Among other stated purposes, Measure B is intended to achieve the following:

- Provide for assistance in the diagnosis, treatment and recovery from mental illness and addiction by developing:
  - A psychiatric facility and other behavioral health facilities;
  - A regional behavioral health training facility to be used by behavioral health professionals, public safety and other first responders; and,
- Provide for the necessary infrastructure to support and stabilize individuals with behavioral health conditions, including addiction and neurological disorders.

Kemper Consulting Group was hired by Mendocino County to conduct an assessment of behavioral health facility and service gaps in Mendocino County and produce a report that addresses all of the following:

a. Outline optimal continuums of care for mental health and substance use disorder treatment (SUDT) services in Mendocino County;
b. Identify planned additions to the existing mental health and SUDT continuums of care;
c. Identify service gaps in mental health and SUDT programming, taking planned additions into consideration;
d. Provide the following data summaries based on data provided by RQMC and BHRS:
   - Summary of current programs, services, target populations, funding sources, and expenditure amounts;
   - Summary data on numbers of persons receiving services by program component and cost of care; and, average daily census and cost of clients in inpatient care settings outside of Mendocino County;
Behavorial Health System Gap Analysis & Recommendations

e. Outline options for the treatment of persons with acute inpatient psychiatric needs in Mendocino County, including development of a Psychiatric Health Facility and alternatives to inpatient psychiatric care, and the projected costs of those options;

f. Present two snapshots of behavioral health service need in Mendocino County and include recommendations on both of the following:
   - Programs/services needed in the County right now due to gaps in the continuums of care;
   - Programs/services projected to be needed in five (5) years based upon current and anticipated needs; and,

g. Outline key policy decisions that need to be made by the Board of Supervisors to effectuate effective and sustainable use of the Measure B revenues over time and make recommendations on the use of Measure B funds.

Kemper Consulting Group’s responsibility did not include review of a regional behavioral health training facility. Therefore, no work or recommendations regarding this matter are included in this report.

As a part of our work, KCG consultants reviewed a wide range of written documents and programmatic and fiscal data; conducted Internet research; interviewed a variety of public officials and private sector representatives outside of Mendocino County; and, conducted Key Informant interviews of Mendocino County officials, providers, and stakeholders. Sources for this work included:
   - Programmatic and fiscal data supplied by RQMC and BHRS;
   - California DHCS reports, budget documents, and letters;
   - California EQRO reports;
   - California Hospital Association reports;
   - Phone interviews and email communications with Behavioral Health officials in various California counties; representatives of Psychiatric Health Facilities (PHF); and, California DHCS officials;
   - Key Informant interviews with County leadership, including the CEO, Sheriff, and, HHSA and BHRS Directors; representatives of RQMC; leadership of local hospitals; community health center representatives; Behavioral Health Advisory Board members; and, Mendocino County residents that are consumers or family members of persons with mental illness (see Appendix A for a listing of Key Informants); and,
   - Discussion with Measure B Advisory Committee at April 25, 2018 meeting; review of the Measure B Advisory Committee meeting videotape of May 23, 2018; and, review of Measure B Advisory Committee agenda and meeting materials.
III. Continuums of Care for Mental Health and Substance Use Disorder Treatment

The mission statements for Mendocino County’s Health and Human Services Agency (HHSA) and Behavioral Health and Rehabilitative Services (BHRS) Department express broadly defined goals. The HHSA Mission Statement speaks to supporting and empowering families and individuals to live healthy, safe, and sustainable lives in healthy environments. The Mental Health Mission Statement speaks to delivering services “in the least restrictive, most accessible environment within a coordinated system of care that is respectful of a person’s family, language, heritage and culture” and maximizing independent living and improving quality of life through community-based treatment. The Substance Use Disorders Treatment Mission Statement speaks to promoting “healthy behaviors through prevention and treatment strategies that support our community’s need to address alcohol and other drug abuse, addictions and related conditions” (see Appendix B). These three mission statements point to the importance of providing a comprehensive continuum of care for the prevention and treatment of mental health and substance use disorder conditions.

The federal Substance Abuse and Mental Health Services Administration (SAMHSA) outlines four overarching components of an effective Continuum of Care:

- **Promotion Strategies** to create environments and conditions that support behavioral health and the ability of individuals to withstand challenges and to reinforce the entire continuum of behavioral health services;
- **Prevention Strategies** and Interventions delivered prior to the onset of a disorder that are intended to prevent or reduce the risk of developing a behavioral health problem;
- **Treatment Strategies** for people diagnosed with a substance use or other behavioral health disorder;
- **Recovery Strategies and Services** that support individuals’ abilities to live productive lives in the community and can often help with abstinence.

When considering the array of services currently available through the service delivery systems in Mendocino County for mental health and substance use disorder treatment (SUD) it is important to consider them within this federal framework.

1. Mental Health Services Continuum of Care

   A. Existing Service Continuum

As described by SAMHSA, there are four segments of services in an effective continuum of care: promotion, prevention, treatment, and recovery. Within this context, the Specialty Mental Health Services required under Medi-Cal for children and adults includes a set of services that fall into the categories of treatment and recovery only. Under current Medi-Cal requirements, each county’s Mental Health Plan is required to
include all of the services listed in Table 1.

*Include children ages 18-20

Counties utilize several sources of revenue to support the delivery of all required services, including Realignment, Medi-Cal reimbursements, Mental Health Services Act (MHSA), and county general funds. Redwood Quality Management Company (RQMC), Mendocino County’s third party administrator, and its subcontractors deliver most of the mental health services provided to Medi-Cal eligible adults and children in Mendocino County. BHRS operates Mobile Outreach Team services in selected areas of the County.

As demonstrated on Schematic 1 (following page), the current Mental Health continuum of care for both adults and children is missing a variety of key services in Mendocino County, including alternatives to inpatient psychiatric care (Day Treatment, Partial Hospital, Crisis Residential Treatment); inpatient psychiatric care (Psychiatric Health Facility, psychiatric inpatient services in an acute care hospital and IMD); and, Employability Services for adults.

B. Planned Additions to the Service Continuum

According to RQMC, there are two planned service additions partially underway. These include a Crisis Residential Treatment Center and a possible Crisis Stabilization Unit (CSU). Both components are included in a planned residential treatment campus to be located at 631 S. Orchard Street in Ukiah, California. Land at this location has been purchased, plans have been developed for both program components, and facility construction pends receipt of other funding.
1. Substance Use Disorder Treatment Continuum of Care

A. Existing Service Continuum

Counties utilize several sources of revenue to support the delivery of all required Medi-Cal drug treatment services. These revenues include 2011 Realignment funding, Medi-Cal reimbursements, federal SAPT funding, and county general funds. California’s Department of Health Care Services (DHCS) allocates funding for Drug Medi-Cal services to counties as a part of each county’s Behavioral Health Subaccount allocation established by the 2011 Realignment law. Funds must be used exclusively for the Drug Medi-Cal Program, and to receive the funds, the county must contract with DHCS to arrange, provide, or subcontract
Behavioral Health System Gap Analysis & Recommendations

for the provision of services to all Medi-Cal eligible residents of the county. Mendocino County’s BHRS Department is currently responsible for the provision of all Medi-Cal required services, which are:

- Outpatient drug-free treatment;
- Narcotic replacement therapy;
- Naltrexone treatment;
- Intensive Outpatient Treatment; and,
- Perinatal Residential Substance Abuse Services (excluding room and board).

The array of services currently required under Medi-Cal is limited and does not provide a comprehensive continuum of care for county residents; and, BHRS’ SUDT treatment efforts focus primarily on the delivery of these five Medi-Cal services. As shown on Table 2 (following page), there is some access to services beyond these in the County, including residential treatment, Medication Assisted Treatment, and treatment for dual diagnosis conditions, but these services are limited in availability. Furthermore, as of this writing, Mendocino County and DHCS are in discussions regarding the County’s current level of compliance with Medi-Cal drug treatment requirements. Specifically, there is disagreement between DHCS and the County regarding the extent to which services are being provided and billing is taking place for Intensive Outpatient Treatment, the Narcotic Treatment Program, and Perinatal Residential Services.

B. Potential Additions to the Service Continuum

The Drug Medi-Cal program has developed an Organized Delivery System (ODS) model that is available to counties that opt-in to provide the expanded range of services. The ODS model is intended to provide a continuum of care modeled after the American Society of Addiction Medicine (ASAM) criteria for substance use disorder treatment services. Under the ODS model, counties that contract with DHCS will have expanded and more direct responsibility for assuring client access to drug treatment services and movement through the treatment system. The continuum of required services under the ODS model include: Early Intervention; Outpatient Services; Intensive Outpatient Services; Short-Term Residential Services; Withdrawal Management; Opioid/Narcotic Treatment Program Services; Recovery Services; Case Management; and, Physician Consultation. Optional additional services include: Medication Assisted Treatment (MAT); Partial Hospitalization; and Recovery Residences. For Mendocino County to contract with DHCS and assume responsibility for operation of the ODS for Drug Medi-Cal services, the BHRS would need to address two key challenges:

- Substantially expand administrative and program management operations to address all of the following: provider credentialing and contracting; quality assurance; compliance and service oversight; beneficiary outreach; claims processing; and policy direction; and,
- Identify and contract with an array of SUDT contractors for new service delivery.

Behavioral Health System Gap Analysis & Recommendations

Schematic 2 below presents a visual picture of the current continuum of SUDT services available to county residents.

In lieu of operating the ODS directly, Mendocino County may have the opportunity to participate in the ODS through a Regional Model for SUDT service delivery to be operated by Partnership Health Plan (PHC). Under the Regional Model, PHC is seeking to operate the ODS for eight counties participating in PHC. If PHC’s plan is approved by DHCS, each of the counties would have the option to join. To participate, each county would pay PHC a single unique per-utilizer-per-month (PUPM) rate in exchange for PHC providing the required ODS services. As of this writing, the financing picture for PHC and the proposed rates for counties, including Mendocino County, are not yet finalized; and, BHRS has not made a determination regarding its approach for the ODS. **Counties that do not operate the Drug Medi-Cal ODS directly or participate in the PHC Regional Model will not be eligible to receive Medi-Cal financing support for the expanded array of drug treatment services to Medi-Cal members.**
IV. Financing by Program

To place the revenues generated by Measure B into the broader financing context for mental health and SUDT services, we have prepared summary tables that show the array of existing programs and the amount budgeted for each program. The data provided for these tables was provided by RQMC and BHRS. Fund sources vary by program and may include Mental Health and SUDT Realignment, Medi-Cal, MHSA, and federal funds.

1. Mental Health Services

Overall funding dedicated to Mental Health Services provided through RQMC and its subcontractors in FY 2017-18 was $14,863,950. Of this amount, $8,983,950 was budgeted for services to children and $5,880,000 was budgeted for services to adults. See Appendix C, Tables 1 and 2, for a list of funding by program. Programs that do not exist are listed with none. Beyond the programs presented in this table, BHRS directly administers the Mobile Outreach and Prevention Services (MOPS) program, which was funded at $207,349 in FY 2017-18 (see Appendix C, Table 3).

2. Substance Use Disorder Treatment Services

Overall funding dedicated to Substance Use Disorder Services provided through BHRS and its contractors in FY 2017-18 was $2,096,335. Total persons served in FY 2016-17 were 707 persons. See Appendix D for a list of funding by program. With a population of just over 88,000 residents, current funding for SUDT services in Mendocino County is reaching only 707 people, less than 1% of the county population. The funding allocated to SUDT services is equal to roughly 14.1% of the funding allocated to mental health services.
V. Mental Health Service Utilization

1. Overall Mental Health Services Utilization

As shown in Table 3, a comparison of FY 2016-17 and FY 2017-18 mental health services utilization shows the following:

- More unduplicated (unique) persons received mental health services in FY 2017-18 – 18.4% more
- More persons received Emergency Crisis Assessments – 22.8% more
- More calls were made to the Crisis Line – 11.2% more
- More unduplicated (unique) persons participated in Full Service Partnerships – 8.3% more
- More inpatient psychiatric hospitalizations occurred – 17.3% more

Based upon these data, three conclusions can be drawn. First, in FY 2017-18 Mendocino County’s mental health system, under RQMC administration, responded to more crisis conditions, conducted more crisis assessments, and placed more people into inpatient psychiatric care than in FY 2016-17. Second, total hospitalizations reached 645, which represents a 17.3% increase in psychiatric hospitalizations over FY 2016-17. This is a significant increase. Finally, the number of Full Service Partnerships (FPP), designed to serve persons with serious mental illness, increased. However, they were provided to only a fraction of the persons that received inpatient psychiatric care. In FY 2016-17, roughly 24% received FPP support. For 2017-18, only 22.3% received FPP support.

2. Persons Receiving Mental Health Services by Region

As shown in Table 4 (following page) in both FY 2016-17 and FY 2017-18, slightly more than half of the persons that received mental health services in Mendocino County were residents of Ukiah and roughly 13% were residents of Willits. Residents of the North Coast, including Fort Bragg, composed between one-fifth and one-quarter of the service population. Residents in outlying areas, including North County,
Anderson Valley and South Coast, made up roughly 5% of the service population. Based on these data, it is evident that the primary locus for mental health services in Mendocino County is Ukiah, with a smaller emphasis on Fort Bragg and Willits, and that few services are reaching people in outlying areas.

3. **Inpatient Psychiatric Hospitalizations**

To undertake our analysis, we received mental health service utilization data from RQMC for the first three-quarters of FY 2017-18 (July 2017 to March 2018). From these data, we developed various projections for the full fiscal year. Among these, we projected that 641 persons would be placed into inpatient psychiatric care in FY 2017-18. In a recent update, RQMC reported that 645 persons received inpatient psychiatric services in FY 2017-18 (as shown in Table 3 on the prior page), but they were not able to provide complete data on utilization. Based upon the validation of our projection of 641 persons, we believe the projections presented in Table 5 (following page) can be relied upon to assess other important measures associated with inpatient psychiatric care.

Based upon the first three-quarters of FY 2017-18, our projections show there has been significant growth in the utilization of inpatient psychiatric services between FY 2016-17 and FY 2017-18:

- Number of persons that received inpatient psychiatric services increased from 550 to 645 – *an increase of 17.3%*.
- Total inpatient hospital days are calculated to increase from 4,300 to 5,524 – *an increase of 28.5%;*
- Average length of psychiatric hospital stay is calculated to increase from 7.8 days to 8.6 days – *an increase of 8%;* and,
- Average number of persons hospitalized each day (daily census) is calculated to increase from 11.7 to 15.1 average beds/day – *an increase of 29%.*
Because Mendocino County does not have inpatient psychiatric beds at any general acute care hospital in the County, or at a Psychiatric Health Facility in the County, all inpatient psychiatric placements were made out-of-county, as shown in Table 6. A comparison of data on inpatient psychiatric hospitalizations for both fiscal years (Tables 7 and 8 on following page) shows that not only are more unique individuals being placed into inpatient psychiatric care and there are more placements, but that a smaller proportion of high-need patients is driving utilization. In FY 2016-17, 19% of patients (82) had two or more episodes of care and utilized 44% (1,878) of total hospital days. In FY 2017-18, 18% of patients (68) had two or more episodes of care and utilized 46% (1,906) of total hospital days.

*Based upon 9 months of reported data. Average daily hospital use (nine months of data): 4143 hospital days/274 days = 15.1 beds per day. Average hospitalizations per unduplicated person: 4143 hospital days/380 persons = 10.9 days/person. Average hospital days per episode: 4143 hospital days/481 hospitalizations = 8.6 days/episode

Patients with 2+ episodes of care (68) = 1,906 hospital days

Additional data on the reasons for inpatient psychiatric care (placement criteria) and the reasons for Crisis Line Contacts can be found in Appendix E, Tables 1 and 2.

4. Data on Interactions with Law Enforcement

As previously shown in Table 3 (see page 16) there were 5,838 Crisis Line contacts in FY 2017-18, for an average monthly number of 486 monthly crisis contacts. Of total calls to the Crisis Line, 402 calls were from various law enforcement agencies, including the County Sheriff, city police departments, the California Highway Patrol and the Jail, as shown in Table 9 (following page).

Recently, the County Sheriff’s Office started collecting data on the number of jail inmates that have been prescribed mental health medications. Such prescribing provides evidence of the need for mental health services by jail inmates. As shown in Table 10 (following page), on a monthly basis, between 39% and 76% by jail inmates were prescribed mental health medications, for an average monthly rate of 62%.

Finally, as shown on Table 13 (see page 27), only 18 of the 2,081 Emergency Crisis Assessments conducted in FY 2017-18 (less than 1%) were conducted at the County Jail. Most Emergency Crisis Assessments were conducted at the Crisis Center (38.4%); Ukiah Valley Medical Center (35.7%); Mendocino Coast District Hospital (13%); and, Howard Memorial Hospital (11.2%).\textsuperscript{17} Notwithstanding where crisis assessments are conducted, many interventions leading to mental health crisis assessments involve law enforcement personnel with either the County Sheriff or one of the city policy departments.
VI. LPS Conservatorships

A subset of persons that receive services from the Mental Health System is persons that are placed in conservatorships. *For adults under conservatorship, the costs of these services are in addition to the amounts expended by RQMC for administration of the adult mental health system.* A discussion of Conservatorships is presented in this section.

1. Background on LPS Decision Making Process

Individuals that meet Lanterman-Petris-Short (LPS) conservatorship criteria are persons that have been determined to meet criteria for grave disability; they are unable to meet basic care needs of food, clothing, and shelter to the detriment of life or limb due to a mental illness. This process is most commonly initiated through the Welfare & Institutions (W&I) Code 5150 process. An individual referred for inpatient psychiatric hospitalization under 5150 that continues to meet grave disability criteria to the point that they can’t safely be returned to their home community is referred for a temporary conservatorship.

Once referred for temporary conservatorship, the County Public Guardian is notified and court hearings are held to determine whether the temporary guardianship will become permanent. On some occasions an individual is identified as gravely disabled who has not been hospitalized through the W&I 5150 process. In those cases the County Behavioral Health Director orders an evaluation/investigation of the person’s grave disability, and if the result of the investigation determines the individual is gravely disabled, then a local petition for temporary conservatorship is initiated. These cases are most often initiated when the individual is in jail or cared for by family/others (basic care needs being attended to by others) and the care can’t be sustained so conservatorship needs to be considered.

2. Roles and Responsibilities

Once the courts have approved and appointed guardian and conservatorship, the Public Guardian becomes responsible for the person and their estate unless indicated. The Public Guardian is responsible for psychiatric and financial decisions on the client’s behalf. Psychiatric decisions, including placement, are made jointly between the Public Guardian and BHRS. The initial decision of where to place a client includes a review of the active symptoms and risk factors the client is experiencing. In situations where the client is in an inpatient psychiatric facility, the facility staff will often recommend a level of care. The Court standard is to order the least restrictive level of care necessary to meet the client’s basic needs, and often an agreed upon level is determined at the hearing for permanent conservatorship. Once an individual is placed in a long-term residential care facility, the BHRS LPS Placement Coordinator and the Public Guardian jointly monitor the client’s progress and needs, and the court is notified of all changes in the level of care.

LPS Conservatorships expire each year, and in order to be renewed an evaluation by two qualified clinicians
must independently determine the individual continues to remain gravely disabled. If one of the clinicians finds the individual does not meet conservatorship criteria, the conservatorship is dropped. If both find the individual continues to meet criteria, a court hearing is established. If the client contests the reappointment, a trial (judge or jury at the client’s discretion) is heard to determine if the conservatorship will be reestablished. If an individual believes they are capable of caring for themselves they can also contest the conservatorship if it has been at least six months since the last court hearing. If the Public Guardian and BHRS do not feel the client continues to meet criteria the petition will not be renewed.

Length of stay at facilities varies greatly depending on the severity of the individual’s symptoms and individual responsiveness to treatment.

3. Types of Residential Placements

There are various types of long-term residential care placement options and there are many different scales of service within the types of care. Most placements that are targeted for long-term specialty mental health care fall in the category of Institutes for Mental Disease (IMD), and within this category of IMDs there State Hospitals, Mental Health Rehabilitation Centers (MHRC), Adult Residential Facilities (ARF), Residential Care Facilities for the Elderly (RCFE), and Skilled Nursing Facilities (SNF). Some other placement options are not targeted for specialty mental health care, but provide residential care for those with medical care needs or daily support related to aging or disability. For LPS conserved individuals that are almost ready to return to independent living and self care, there are supported living environments which are like independent homes but with staff regularly overseeing and providing support to assure the individual is eating, sleeping, taking medications, and otherwise meeting basic activities of daily living.

Residential Care Facilities that are specially designed for treating individuals with mental illness have two types of costs: board and care costs and patch rates. Payment for the board and care costs come out of the client’s income (SSDI, etc.) and are paid by the Public Guardian’s Office. The Public Guardian’s Office facilitates obtaining income for clients that qualify when they are appointed guardian. These costs are relatively fixed across levels of placement. The patch rates are supplemental rates to cover the specialty mental health services provided in the facility. Patch rates vary considerably between placements and the type of services provided – between $60 and $1,000 per day – and are paid for by the BHRS.

County BHRS officials report there are a limited number of residential care facilities for specialty mental health issues in California, and that placements are frequently full and there is strong competition among counties for available placements. These officials also report that Mendocino County has limited in-county placements, and all of them are the lowest levels of care clients would utilize before returning to independent living from conservatorship. At this time, Mendocino County has only one specialty mental health board and care facility, and does not have any specialty Mental Health Rehabilitation Centers, Special Treatment Programs, acute psychiatric facilities, or state hospitals.
4. Data on LPS Conservatorships

As presented in Table 11, between FY 2015-16 and FY 2016-17, the average monthly number of clients in Conservatorship declined slightly, from 63.1 per month to 61.8 per month. While average monthly clients appear to have declined in FY 2017-18, total costs of care for FY 2017-18 are projected to equal or exceed those in FY 2016-17, at roughly $2.5 million. As shown on this table, roughly two-thirds of the conservatorship placements made in FY 2017-18 were made out-of-county because of the lack of suitable placement options in Mendocino County.

*Data provided by BHRS. Cost data reflects county costs and may not include costs that are absorbed by RQMC in serving the under 25 population.
VII. Selected Program Outcomes for Inpatient Psychiatric Care

Behavioral Health Concepts, Inc. ((BHC), a behavioral health consulting firm, serves as California’s External Quality Review Organization (EQRO) for Medi-Cal Specialty Mental Health Services. We contacted BHC to obtain EQRO data on Mendocino County and comparison counties to compare overall performance on available measures. From BHC, we received selected performance data for FY 2016-17 pertaining to inpatient psychiatric care. Among other things, Table 12 provides data on Mendocino County and comparison counties regarding:

- Percent Medi-Cal population;
- Percent of high cost clients;
- Re-hospitalization rates post hospital discharge (within 7 days and within 30 days); and,
- Provision of outpatient services post hospital discharge (within 7 days and within 30 days).

Based on these measures, in comparison with other California counties, in FY 2016-17 Mendocino County had one of the highest proportions of county residents eligible for Medi-Cal and one of the highest proportions of clients that are considered “high cost.” Notwithstanding these dynamics, Mendocino County’s re-hospitalization rates were less than or equal to most other counties; and, the County’s provision of outpatient services was generally better than most other counties and the statewide average.

However, based on 550 inpatient placements in FY 2016-17, these data show many clients did not receive outpatient services within 7 days (193, or 35% of clients) and many did not receive outpatient services within 30 days (143, or 26% of clients).

</tbody>
</table>

EQRO Definitions:
- High Cost: Clients with approved claims of more than $30,000 in a year
- Re-hospitalization: After discharge from an inpatient facility client goes back to an inpatient facility within 7 or 30 calendar days.
- Outpatient Follow-up: Documents whether or not a patient received an outpatient service within 7 or 30 days post discharge from an inpatient psychiatric facility (first hospitalization only, not prior or subsequent hospitalizations)
Behavioral Health System Gap Analysis & Recommendations

VIII. Addressing Gaps in the Mental Health Services Continuum

As discussed in Section III, there are a number of key gaps in the current continuum of mental health services in Mendocino County. This section considers alternative approaches for addressing these gaps, presents the experience of other counties, and places the approaches in the Mendocino County context.

1. Crisis Stabilization Unit (CSU)

As defined by California DHCS, “crisis stabilization services last less than 24 hours and are for, or on behalf of, a beneficiary for a condition that requires a timelier response than a regularly scheduled visit. Service activities include but are not limited to one or more of the following: assessment, collateral, and therapy.” A Crisis Stabilization Unit (CSU) is licensed as an outpatient mental health program for up to 23 hours and 59 minutes of crisis stabilization and observation. Clients voluntarily admit for services or are brought in on a 5150 hold by law enforcement (or other LPS designated staff based on county policy). A CSU is utilized to provide a centralized location for conducting voluntary and involuntary mental health assessments and provides an alternative to a hospital ED. A CSU typically provides:

- Crisis stabilization, with a focus on individualized interventions directed toward resolution of the presenting, psychiatric episode;
- Evaluation of clients for whom inpatient psychiatric hospitalization may be indicated;
- Admission of clients for inpatient, psychiatric hospitalization;
- Referral for drug and/or alcohol use issues; and,
- Referrals to other county and community-based agencies and services.

As of October 2017, California’s DHCS reported that sixteen counties were operating a CSU, including Alameda, Contra Costa, Fresno, Humboldt, Kern, Marin, Orange, Riverside, Sacramento, San Diego, San Francisco, San Joaquin, Santa Clara, Santa Crus, Sonoma, and Solano Counties. Most of these counties are counties with larger populations. Three smaller counties not referenced in DHCS report – Napa, Nevada and San Luis Obispo Counties – have recently opened CSUs. Their programs are briefly described below:

- **Nevada County.** Since October 2016 Nevada County has operated a CSU that the County calls its “Mental Health Urgent Care Center.” As described by the County, this 4-bed center is a 23-hour program that provides emergency psychiatric care in a warm, welcoming environment for individuals experiencing a mental health crisis. The center is located adjacent to the Sierra Nevada Memorial Hospital Emergency Department, where all evaluations occur after CSU business hours. The center is an LPS designated facility that can accept voluntary as well as 5150 clients. The program was funded by SB 82. The Urgent Care Center is contracted to Sierra Mental Health Wellness group, a community based organization. Operational costs are between $1.2 and $1.3 million annually. According to the
Nevada County Health and Human Services, the CSU currently operates at a revenue loss estimated at roughly $400,000 due to fewer savings associated with reduced inpatient hospitalization than originally anticipated. At this time, Nevada County plans to continue the program because it is considered important to the overall wellbeing of the community.\textsuperscript{23}

\begin{itemize}
\item \textbf{Napa County}. Napa County received $1.998 million in SB 82 funding for development of a 4-bed Crisis Stabilization Unit (CSU) to serve individuals experiencing a mental health crisis. Grant funds were used for the construction and renovation and for purchase of furnishings, equipment, and for information technology costs. The CSU is intended to fill gaps in the County’s continuum of care and will serve approximately 2,190 clients on an annual basis. This estimate includes clients needing emergency psychiatric medication services and general crisis services that may not require staying at the CSU. The CSU is designed to serve individuals that are in psychiatric crisis, including those seeking services voluntarily as well as referrals from first responders such as police, sheriff, paramedics, ambulance and hospital Emergency Departments.\textsuperscript{24} Based on the first year of operations, Napa County officials reported a revenue shortfall of roughly $475,000.\textsuperscript{25}

\item \textbf{San Luis Obispo County}. San Luis Obispo County recently opened a new 4-bed CSU on a shared campus near the county’s existing Psychiatric Health Facility. San Luis Obispo County received $971,070 in SB 82 funding for development of the facility. The County contributed $300,000 to the project, for a total cost of roughly $1.2 to $1.3 million. The 4-bed CSU is designed to provide immediate response on a short-term basis (lasting less than 24 hours) to stabilize individuals experiencing mental health crises. County officials reported they expect the new facility to relieve strain on the county’s 16-bed PHF. According to local officials, annual operating costs are projected to be between $1.4 million and $1.6 million.\textsuperscript{26}
\end{itemize}

Research shows that a centralized Crisis Stabilization Unit that provides psychiatric emergency services can reduce boarding time in the hospital Emergency Department and ED clearance and placement time.\textsuperscript{27} While a CSU can contribute to a reduction in the placement of persons into inpatient psychiatric care, such a reduction is not assured. For example, Napa County officials reported that their early experience with their CSU has not reduced inpatient utilization, but instead has contributed to a modest increase. Furthermore, to the extent there are limited service options available that provide an alternative to inpatient psychiatric care, a CSU by itself will not reduce inpatient admissions. It does, however, provide an alternative location to hospital EDs for the provision of psychiatric emergency services, and it provides law enforcement with a location to take patients that does not require officers to remain with patients to provide security while determinations are made concerning treatment and placement.
A. Mendocino County Context

As shown in Table 13, the number of Emergency Crisis Assessments increased from 1,695 in FY 2016-17 to 2,081 in FY 2017-18 – an increase of 22.8%. In FY 2017-18, most assessments took place at the Crisis Center (38.3%), Ukiah Valley Medical Center (26%), Mendocino Coast District Hospital (13%), and Howard Memorial Hospital (11.2%). As presented in Table 5 (see page 18) 550 persons were placed into inpatient psychiatric care in FY 2016-17 and 645 persons were placed in FY 2017-18. The increased volume of persons needing mental health assessment, and the increased need for placement in inpatient psychiatric care, is putting increasing strain on hospital Emergency Departments in the County and is imposing costs on these hospitals as they hold patients awaiting placement in out-of-county psychiatric facilities.

At an annual rate of 2,081 mental health assessments, the average daily rate is 5.7 assessments per day. Based on the experience of other counties, it may be challenging for a CSU to be financially self-sustaining with available Medi-Cal and other third party reimbursements. However, the value of investing resources in this approach may be derived more from having a centralized assessment operation with centralized clinical operations that relieves local hospitals from the responsibility and cost of providing a secure and safe Emergency Department location for these assessments, and where local law enforcement can reliably take persons needing assessment and hand-off responsibility to responsible officials.

As referenced earlier, both Nevada County and Napa County operate CSUs and both have had difficulty making their CSU operations fully reimbursable and self-sustaining. Nevada County reported that its operating revenue (funding from various billable sources, including Med-Cal, other insurance) is roughly $400,000 below break-even. Similarly, Napa County reported that its operating revenue shortfall in FY 2017-18 is roughly $475,000. Based on this experience, we anticipate additional funding support beyond Medi-Cal and other reimbursements would be needed to support CSU operations.
It is important to note that Mendocino County’s geography and the locus of most service delivery makes the utility of a CSU on the 101-corridor more impactful for the hospitals in Ukiah and Willits than for Mendocino Coast District Hospital in Fort Bragg. In our interviews with representatives of Ukiah Valley Medical Center and Howard Memorial Hospital, we learned that both hospitals hold ED beds for individuals pending 5150 determinations and placement of patients in care. Howard Memorial Hospital reported that an average of 2 beds is held each day. If a CSU were established as a part of the new Crisis Residential Treatment facility campus (already supported by SB 82 funding) there would be a relief of this responsibility for both hospitals, along with cost-savings due to these beds becoming available for other ED purposes. A separate strategy would need to be developed for the Mendocino Coast that makes the assessment processes at Mendocino Coast Hospital complementary with the CSU in Ukiah.

Based on our review of the data and current service dynamics, we believe a CSU makes sense for Mendocino County. However, prior to finalizing terms for operation of a CSU, we believe a fiscal analysis needs to be completed by RQMC, in consultation with BHRS and local hospitals, that considers all of the following:

- Projected daily and annual CSU utilization, and underlying assumptions;
- Projected CSU operational costs, and underlying assumptions;
- Identification of key revenue sources, including Medi-Cal, and projection of revenues by revenue source, and estimate of funding needed to support CSU operations; and,
- Identification and quantification of offsetting savings to local hospital EDs resulting from reduced use of hospital facilities for emergency psychiatric conditions.

It is important to state that a CSU is a crisis response strategy. It is not a strategy to prevent crises from occurring in the first place. However, as a part of post crisis follow-up, a CSU that is co-located with a Crisis Residential Treatment (CRT) program would be a practical option, because some persons in crisis could be placed into residential treatment instead of inpatient psychiatric treatment. This is the approach being taken by Bay Area Community Services (BACS), which is working to open a facility that provides an LPS designated CSU on the first floor and a second floor that will serve as a 12-16 bed CRT. It is also similar in approach to that taken in San Francisco County by the Progress Foundation, which is providing a walk-in voluntary (non-LPS designated) Urgent Care Center with a CRT program.

RECOMMENDATION: It is recommended that a CSU should be established in Mendocino County and annual operating revenue should be allocated to support the CSU from Measure B funds. This CSU should be placed in the context of a planned Crisis Residential Treatment Program, discussed later in this report.

2. Embedded Crisis Clinicians in Hospital Emergency Departments

The embedding of crisis clinicians in a hospital Emergency Department is an alternative to establishing a
CSU. With this approach, embedded clinicians provide assessment and treatment of mental health conditions in the hospital ED 24/7. Local law enforcement responding to persons with mental health conditions takes these persons to the hospital ED for mental health assessment and treatment. Depending on local needs and priorities, the crisis clinicians embedded at the hospital can be county employees, contracted employees, or hospital employees.

Two studies of embedding crisis clinicians in EDs showed comparable findings. One study involved embedded crisis worked from the University of Pittsburgh Medical Center-Mercy and Western Psychiatric Institute and Clinic of UPMC, who provided interventions aimed at quickly linking patients with the care and resources. With this intervention, the percentage of patients admitted to the hospital for MH or addiction matters declined. A second study involved the placement of four mental health professionals that provided crisis assessments for patients in the ED in an Access Center that was added to the ED. The Access Center was staffed 24 hours a day, 7 days a week and was available to meet the mental health needs of ED patients quickly.

Sutter County operates a joint county mental health plan for Sutter and Yuba Counties. Sutter County utilizes an “embedded crisis clinician” model in the Rideout Memorial Hospital ED, as described below.

- **Sutter-Yuba Counties.** The Sutter-Yuba program operates two psychiatric emergency services units. One unit embeds crisis clinicians in the Rideout Memorial Hospital ED. The second unit is a walk-in (non-LPS) crisis clinic that is on a shared campus with the county’s psychiatric health facility. Clinicians with these two units conduct assessment, placement, referral to outpatient services, and some scheduling into county behavioral health services. Staffing for the two units includes a 15 crisis counselors and 4 therapists. The two units operate 24 hours/day, seven days/week.

A. **Mendocino County Context**

In addition to staffing a Crisis Center, RQMC dispatches crisis clinicians to the three hospitals in Mendocino County: Ukiah Valley Medical Center, Howard Memorial Hospital, and Mendocino Coast District Hospital. These crisis clinicians are not embedded clinicians that stay at each facility on a 24-hour, 7-day per week basis. Rather, these clinicians are called and go to the hospital EDs as needed. Current Memoranda of Understanding between the hospitals and RQMC provide specified response times. In general, county law enforcement and hospital representatives reported that RQMC’s response is reliable and timely.

In light of the current role RQMC crisis clinicians play in responding to mental health crises at Mendocino County hospitals, it is not clear how embedding crisis workers on a full-time basis in each hospital would substantially improve current dynamics. On the one hand, if the crisis clinician is “at the ready” in the local hospital, the worker is immediately ready to receive the client. On the other hand, if the time standards set in the MOUs are workable, it isn’t clear what the improved outcomes would be of having embedded
workers, as the primary issue would remain placement in a locked setting. Furthermore, for the embedded crisis worker concept to succeed, local hospitals would need to allocate designated space on a full-time basis for these crisis workers. Second, the locus of crisis mental health care would continue to be local hospital EDs, and current dynamics of psychiatric patients sitting in the ED awaiting placement would likely continue, and current cost impacts to hospitals would remain.

**RECOMMENDATION:** The embedding of crisis mental health clinicians in local hospitals would not substantively improve local service dynamics and is not recommended for Mendocino County.

3. **Crisis Residential Treatment Services**

As defined by the California DHCS, adult Crisis Residential Services (CRS) “provide an alternative to acute psychiatric hospital services for beneficiaries who otherwise would require hospitalization. The CRS programs for adults provide normalized living environments, integrated into residential communities. The services follow a social rehabilitation model that integrates aspects of emergency psychiatric care, psychosocial rehabilitation, milieu therapy, case management and practical social work.” Crisis residential services are designed to provide a positive, temporary alternative for people experiencing an acute psychiatric episode or intense emotional distress who might otherwise face voluntary or involuntary commitment. Programs provide crisis stabilization, medication monitoring, and evaluation to determine the need for the type and intensity of additional services within a framework of peer support and trauma-informed approaches to recovery. The programs emphasize mastery of daily living skills and social development using a strength-based approach that supports recovery and wellness in homelike settings.

According to the California Mental Health Planning Council, crisis residential treatment programs “reduce unnecessary stays in psychiatric hospitals, reduce the number and expense of emergency room visits, and divert inappropriate incarcerations while producing the same, or superior outcomes to those of institutionalized care.” Our research found that a handful of Northern California counties have Crisis Residential Treatment programs (Table 14), and only Shasta County operates the program directly.

In our research, we also found California counties that developed hybrid models that incorporated a Crisis Residential Treatment (CRT) program. These models include the following:

- **Placer County.** Placer County combines mental health assessment of clients in the hospital ED with a CRT program. Clients that do not need inpatient placement may go to the CRT program or alternative service. Placer County employs three (3) clinicians per day, 1 of who is stationed at their busiest hospital in Roseville. The other 2 clinicians are available to respond to the other hospital ED and to the two jails for crisis evaluations. A contractor (Sierra Wellness Group) manages the afterhours and weekends portion, during which they employ 2 clinicians from 5pm to midnight, and 1 for the overnight with 1 backup/on-call. The county does have the back-up option of a PHF for inpatient placements when needed. According to county officials, this approach has provided a cost-effective alternative to inpatient hospitalization.\(^{35}\)

- **San Francisco County.** San Francisco County’s Progress Foundation combines a walk-in voluntary Urgent Care Center with a CRT. While the Urgent Care Center is non-LPS designated, it serves as an alternative to a CSU, and to inpatient hospitalization and it provides immediate care with the option of up to 14 days of crisis residential services.\(^{36}\)

- **Bay Area Community Services (BACS).** BACS is working to open a combined CSU with a CRT to allow easy access to on-going services in Oakland. The BACS program will be done with a home they are remodeling to have the first floor provide an LPS designated CSU with a second floor that serves as a 12-16 bed CRT.\(^{37}\)

### A. Mendocino County Context

Mendocino County’s MHSA Three Year Program and Expenditure Plan states that the County is partnering with mental health contract providers to develop a Crisis Residential Treatment (CRT) facility for adults (18 and older) to be funded, in part, by a Mental Health Wellness Grant. Operational funding for the program is expected from MHSA/CSS and Medi-Cal, and the Plan states that the program is in the development phase with intentions to open doors in FY 2018-19.

According to the MHSA Plan, “the CRT facility will be a therapeutic milieu for consumers in crisis who have a serious mental health diagnosis and may also have co-occurring substance use and/or physical health challenges to be monitored and supported through their crisis at a sub-acute level.” The CRT will put an emphasis on “reducing inpatient hospitalizations when possible, reducing unnecessary emergency room visits for mental health emergencies, reducing the amount of time in the emergency room, and reducing trauma and stigma associated with out-of-county hospitalization.”\(^{38}\)
Mendocino County received an SB 82 grant for $500,000 that was approved for the purpose of building a 10-bed Crisis Residential Treatment (CRT) Program. As stated in the terms of the grant, the program “will provide a clinically effective and cost-efficient alternative to psychiatric hospitalization for individuals ages 18 and over experiencing a mental health crisis.” Redwood Community Services (RCS), an affiliated agency of RQMC, was awarded a contract by Mendocino County to provide CRT services, as well as locate and secure a property as the County’s designated grantee. RCS projects it will serve up to 800 individuals annually at the facility. SB 82 grant funds were provided to purchase real property, renovate real property, purchase furnishings, equipment, and information technology and to finance 3 months of start-up costs. 

Land at 631 S. Orchard Street, Ukiah, was purchased with the SB 82 funding and construction of a facility, which would include a CSU on the same grounds, pending receipt of other financing. The projected cost of construction for the combined Crisis Residential Treatment facility and CSU is approximately $4.66 million, not including the land that has already been purchased.

**RECOMMENDATION:** A Crisis Residential Treatment Program should be established in Mendocino County and capital construction of the facility (including a CSU) at 631 S. Orchard Street, Ukiah, should be funded by Measure B funds, if funding is not readily available from other sources.

4. **Psychiatric Inpatient Services**

As defined by the California DHCS, psychiatric inpatient hospital services “include both acute psychiatric inpatient hospital services and administrative day services. Acute psychiatric inpatient hospital services are provided to beneficiaries for whom the level of care provided in a hospital is medically necessary to diagnose or treat a covered mental illness. Administrative day services are inpatient hospital services provided to beneficiaries who were admitted to the hospital for an acute psychiatric inpatient hospital service and the beneficiary’s stay at the hospital must be continued beyond the beneficiary’s need for acute psychiatric inpatient hospital services due to lack of residential placement options at non-acute residential treatment facilities that meet the needs of the beneficiary.”

Psychiatric inpatient hospital services are provided by Short-Doyle/Medi-Cal (SD/MC) hospitals and Fee-for-Service/Medi-Cal (FFS/MC) hospitals. County Mental Health Plans (MHP) are responsible for authorization of psychiatric inpatient hospital services reimbursed through either billing system and for payment of the non-federal share of cost for Medi-Cal beneficiaries.

As defined by DHCS, a Psychiatric Health Facility (PHF) “is a facility licensed under the provisions beginning with Section 77001 of Chapter 9, Division 5, Title 22 of the California Code of Regulations. Psychiatric Health Facility Services are therapeutic and/or rehabilitative services provided in a psychiatric health facility on an inpatient basis to beneficiaries who need acute care, and whose physical health needs can be met in an affiliated general acute care hospital or in outpatient settings.” A PHF is an alternative category of acute psychiatric care provided in a Psychiatric Inpatient Hospital. Under federal Medicaid law, a PHF with
16 beds or less may qualify for federal Medicaid reimbursement, subject to other state licensing requirements. County MHPs are responsible for authorization of psychiatric inpatient hospital services provided in a PHF and for payment of the non-federal share of cost for Medi-Cal beneficiaries.

The California Hospital Association (CHA) has developed data on the availability of psychiatric inpatient services in California. Using a standard of 50 beds needed for each 100,000 county residents, CHA estimates that the 13-county region presented in Table 15 needs 776 inpatient psychiatric beds. As shown on this table, current inpatient psychiatric bed capacity in the 13-county region is 234 beds. CHA estimates that Mendocino County needs 44 inpatient psychiatric beds.

The CHA standard of 50 psychiatric beds for every 100,000 in population aligns with the standard recommended by the Treatment Advocacy Center in 2008. The Center solicited estimates of bed need from 15 experts on psychiatric care in the United States, including professionals that have run private and state psychiatric hospitals, county mental health programs, and experts on serious psychiatric disorders. A range of 40 to 60 beds per 100,000 in population was identified through this process, and a consensus of 50 beds per 100,000 in population was approved.44

A. Mendocino County Context

Mendocino County does not have any inpatient psychiatric beds in a general acute care hospital or a PHF in the County. Based on current inpatient psychiatric hospital utilization data, there is clear evidence of high
Behavioral Health System Gap Analysis & Recommendations

need for inpatient psychiatric beds. As presented in Table 5 (see page 18), between FY 2016-17 and FY 2018 there was a 17.3% increase in inpatient psychiatric placements, and the average number of persons receiving inpatient psychiatric care increased from 11.7 to 15.1 per day, an increase of 29%.

The rate of growth in Mendocino County’s utilization of inpatient psychiatric care between FY 2016-17 and FY 2017-18 should alarm public officials and the public. This high level of utilization and its associated costs are not in line with the BHRS Mental Health Department’s mission to deliver services “in the least restrictive, most accessible environment within a coordinated system of care that is respectful of a person’s family, language, heritage and culture.” Further, the costs associated with this level of care are not sustainable over time. These data reveal a serious weakness in the overall composition of the County’s mental health services continuum – there are no meaningful alternatives to inpatient psychiatric care, and there are insufficient front-end services that support persons with mental illness and reduce the incidence of crisis conditions.

Further, as shown in Table 8 (see page 19), based upon the first nine months of FY 2017-18, sixty-eight (68) unduplicated persons with two or more inpatient episodes (18% of clients) utilized 1,906 total hospital days (46% of hospital days) and 312 unduplicated persons with one inpatient episode (82% of clients) utilized 2,237 total hospital days (54%). The small multiple episode group, the so-called “frequently utilizers,” followed a trajectory of placement, return to the community, and return to placement. This dynamic reveals a lack of sufficient community-based treatment support and ongoing follow up services for people that return from inpatient care. These data, along with the data referenced above, demonstrate the need for a much more robust front-end continuum of services that reduces the need for inpatient psychiatric care, including but not limited to Crisis Residential Treatment, day treatment, supported housing, and other supports.

At the same time, these data demonstrate that Mendocino County has an immediate need for inpatient psychiatric beds at either a general acute care hospital or PHF, and that unless a facility is constructed in Mendocino County to address this demand, the County will continue to compete with other California counties for limited inpatient placement opportunities out-of-county.

There are two options for Mendocino County to expand inpatient psychiatric bed capacity in the County. One option is for one of the local hospitals along the Interstate 101-corridor to build a new wing for psychiatric beds. We identify hospitals along this corridor because this is locus of most demand for services and care provided in the County. In our discussions with Ukiah Valley Medical Center and Howard Memorial Hospital officials, we found genuine interest in the concept. At the same time, we understand that in order for either hospital to make a commitment to expand hospital facilities and operations to take on this responsibility, the owner of those facilities, Adventist Health, would need to make a determination that it is in the organization’s strategic business interest to take on the responsibility. Further, we understand that final decisions for such an undertaking would be made at the organization’s corporate
level, not at the local hospital level. Accordingly, we cannot assess the viability or likelihood that one or both of these hospitals would want to take on this responsibility.

Alternatively, a second option is that Mendocino County could proceed to develop a 16-bed Psychiatric Health Facility that meets Medi-Cal standards for reimbursement at a suitable site in Mendocino County. For this avenue to be pursued, the Board of Supervisors would need to identify a suitable location for the facility and establish a process for determining ownership of the facility, build responsibility, and operational responsibility. Additional discussion about development of a PHF is provided in Section IX.

RECOMMENDATION: Expanded psychiatric inpatient hospital capacity is needed in Mendocino County. Facility construction costs for the development of this capacity should be funded by Measure B funds.
IX. Considerations for Development of a Psychiatric Health Facility

There are three options for development of a Psychiatric Health Facility (PHF) in Mendocino County:

- County owned and County operated facility;
- County owned facility and private provider operates facility under contract with the County; and,
- Privately owned and operated facility and provider contracts with the County.

For all three options a variety of decisions will need to be made by county officials, including determination of the location and ownership of the land for the PHF; build management responsibility; and, operational responsibility, including the determination of the agency or agencies that make patient admission decisions and prioritize bed availability. In the following discussion, we outline features that are common to all three options and identify features that are unique to each option.

1. Features Common to Three PHF Options

A. Construction and Clinical Licensing Requirements

The construction requirements, facility licensure requirements, and clinical staffing requirements are common to all three options. Generally, California health facility laws and regulations define the requirements for construction of a Psychiatric Health Facility (PHF). California regulations for clinical staffing for a 16-bed PHF are briefly summarized below:

- Clinical Director (who may also serve as the administrator);
- On-call psychiatrist 24/7;
- 17 total staff over a 24-hour period, off which there shall be 2 licensed mental health professionals, 5 nursing staff, and 5 mental health workers;
- LCSW to oversee social services;
- RN 40 hours per week; and,
- Registered nurse, a licensed vocational nurse, or a psychiatric technician awake and on duty in the facility at all times.

B. Populations Served

Typically, Medi-Cal reimbursable clients are the primary target population for a PHF, although most PHFs take clients that have other insurance coverage when the admission is approved by the county. According to data provided by RQMC, 78% of persons receiving Emergency Crisis Assessments in FY 2017-18 were enrolled in Medi-Cal, either with Partnership Health Plan or dual Medicare/Medi-Cal enrollees. Based on this statistic, it is reasonable to assume that most patients treated at the PHF will be covered by Medi-Cal.
When a local mental health system has a full continuum of services that provide support to persons with mental illness and prevent hospitalization, the reliance on inpatient psychiatric care provided by a PHF or other facility can be reduced. Assuming that Mendocino County is committed to reducing inpatient utilization and maximizing the treatment of persons with mental illness in less restrictive settings as described in the BHRS Mental Health Mission Statement, the PHF should be viewed as a resource for the provision of needed inpatient psychiatric care with the intention that committed efforts will concurrently be made to reduce utilization of that type of care. When that type of care is reduced, the PFH can continue to play an important role in the County by providing that care when it is needed; and, it can remain financially viable by accepting patients needing inpatient psychiatric care from other counties in the region.

As shown on Table 15 (see page 33), there is a dearth of available inpatient psychiatric beds in the Northern California region. This means there will be a ready supply of patients needing care that can be served by a facility in Mendocino County.

As a part of establishing a PHF, Mendocino County will need to define the terms for how priority will be given to Mendocino County patients and the conditions for placement of non-county residents. It should be possible for Mendocino County, or the PHF under contract with Mendocino County, to structure agreements with other counties that make beds available when Mendocino County needs are met and excess capacity at the facility exists. This model is currently used for Nevada County, Mariposa County, and Trinity County, all of which do not have their own facilities but instead contract with El Dorado County (as well as other facilities) to purchase beds at the PHF in El Dorado County.

### C. Projected Build Costs

Not including the cost of the land, the estimate for the cost of construction a new PHF facility is between $5 and $6 million. This estimated cost range is based upon interviews with representatives of Heritage Oaks Hospital and Telecare, two PHF providers in the State of California and in the Northern California region. We also contacted Butte County, which owns and operates its own PHF, but county officials were unable to provide build costs because the county’s building is over 20 years old.

The cost of remodeling a county-owned or other building is estimated at a minimum of $300 per square foot. This estimate is based upon an interview with Restpadd, which operates PHFs in Shasta County and Tehama County. It is important to note that this cost estimate of $300 per square foot is subject to volatility because it is strongly influenced by the specific conditions of a potential site, the site’s compliance with current building codes and its readiness for construction, including environmental conditions. In our research, we found current PHFs range in size from 7,500 and 14,000 square feet. With a square foot cost of $300, we project a cost range of $2.25 million to $4.2 million for a remodeled building.

We note that this cost projection for remodeling is considerably less than that provided by Heller & Sons,
Inc., contained in its proposal to the Howard R. Hospital Foundation to remodel the old Howard Hospital building for a psychiatric health facility on that property. That proposal contained a cost range of between $11.2 million and $14.9 million. To test the relative competitiveness of these various cost estimates, a formal PHF Request for Proposals process would need to be undertaken by Mendocino County.

Taking all of the available information into consideration, for the purposes of developing a new PHF facility construction cost estimate, we have set a cost of $7.5 million as reasonable. This assumes a base cost of $6 million (top-end of $5 to $6 million range identified by PHF builder-operators) plus 25% for contingency.

D. Medi-Cal Payment Rates

According to the California DHCS, Medi-Cal Adult PHF daily rates have increased from $651.20 in FY 2012-13 to $847.90 in FY 2017-18, which reflects a 30.2% increase in the daily rate in six years. Available DHCS data also shows a 7.3% increase in FY 2018-19 for an average PHF claim of $909.58. For all Medi-Cal eligible persons, 50% of the cost (non-federal share) is a county cost.

2. Features Unique to Each PHF Option

A. County Owned and County Operated PHF

With this option, the PHF would be designed, built, owned, staffed and operated entirely by the Mendocino County. Under this approach, the County would need to delegate management of construction to a designated county agency. For development and operation of the clinical program, the County would need to delegate management to a designated county department. The County would also need to authorize hiring through the usual processes and creation of new county positions that meet the licensing requirements for PHF staffing. This approach would require the most direct and ongoing County commitment to management of construction and operation of the facility.

1. Projected Annual Operating Costs

Butte County operates its own PHF. According to Butte County officials, annual operating costs include salary costs of $2.9 million per year for 23 staff, including nurses, clinicians, psychiatrists and mental health technicians who work the 24-hour schedule. In addition, there is roughly $900,000 in other administrative costs, for a total of approximately $3.8 million annually. Operating costs for Sutter-Yuba County’s PHF are estimated at $4.3 million dollars annually. It is important to note that a county operated PHF with county employees is generally the most expensive option due to higher staff costs associated with county employees. Based upon this reported information, the range of annual operating costs for a county owned and operated PFH is between $3.8 and $4.3 million.
2. Other Considerations

For the county to build a PHF, the county will need construction management and oversight expertise. For the county to operate a PHF, the county will need clinical and operations expertise, including the ability to:

- Hire and manage numerous clinical staff, including nurses, clinicians, psychiatrists and mental health technicians that work a 24-hour schedule;
- Establish, administer and maintain a claiming process for PHF reimbursement that is reliable and secure and ensures reimbursement from all payer sources, including Medi-Cal, Medicare and private insurance;
- Assure financial viability of the PHF by maximizing bed usage and minimizing empty bed days; and,
- Contract with other counties or private insurance providers for excess bed supply and establish associated claims processes.

B. County Owned and Privately Operated PHF

With this option, the PHF facility would be designed and built to Mendocino County specifications, and the County would own the facility. For PHF operations, the County would solicit bids and select a provider to be responsible for PHF programming and provision of direct services under contract. The County could ask PHF providers to separately bid out both the construction and the operations, with the understanding that the facility would be County owned. With this approach, the County would maintain ownership control of the building and contract out PHF operations. The County could periodically place the PHF program through a competitive bid process to ensure the most competitive provider continues to provide PHF services under Mendocino County’s preferred terms.

1. Projected Annual Operating Costs

Based upon our interview with Restpadd, which operates PHFs in Shasta County and Tehama County, the estimated annual cost of PHF operations at its facilities is roughly $3 million per year for staffing plus an additional 12% for administrative costs, for a total estimated cost of $3.4 million. This estimated cost is roughly $400,000 to $900,000 less than the estimated cost for operation by county employees.

2. Other Considerations

For the County to build a PHF, the County will need construction management and oversight expertise. For the County to contract out operation of the PHF, the County will need appropriate clinical and management expertise to oversee the contract.
C. Privately Owned and Privately Operated PHF

With this option, the County would solicit and select a private provider to build and operate the PHF on behalf of Mendocino County, subject to specific conditions set by the County. The approved provider would then be responsible for building a suitable facility as well as the hiring and managing all staff that are required to provide PHF services.

This approach could limit the County’s direct, up-front financial investment because the costs for building and operation could be negotiated over a longer period of time. Thus, this approach could make it possible for Measure B dollars to be used for other programming. However, this approach would also limit the county’s control over the project as the program would be owned by a third party contractor, and the Board’s contract with the provider would need to do both of the following: 1) Prioritize bed availability for Mendocino County to ensure County residents have appropriate access to placement, when needed; and, 2) Define the timeline and terms of payoff for building construction and how County building ownership rights will be handled at payoff. The County’s contract with the provider would be especially important because the County would be a customer of the provider, but not the only customer.

1. Projected Build Costs

With this approach, the provider would be solely responsible for constructing a suitable facility and establishing an appropriate PHF program based on current licensing requirements. While there could be some negotiation with the County, the responsibility would remain primarily with the contracted provider. The County would be required to certify the site for Medi-Cal reimbursement. Further, the provider would be required to secure financing on its own, unless negotiation with the County provided some amount of Measure B revenue. As referenced earlier, the project facility build cost is up to $7.5 million (base estimate plus contingency).

2. Projected Annual Operating Costs

With this approach the PHF contractor would operate and provide staffing for the PHF. As referenced earlier, the estimated cost of PHF operations at similar facilities in Shasta County and Tehama County is roughly $3 million per year for staffing plus an additional 12% for administrative costs, for a total of $3.4 million. We use this figure as the estimated cost for contracted out PHF operations. We contacted other PHF programs to get additional operating cost estimates, including Heritage Oaks Hospital and Telecare, but no information was available because these firms considered this information to be proprietary.
X. Current and Future Behavioral Health Service Needs

Our assessment of Mendocino County’s current Mental Health service continuum is that it does not offer a robust set of alternative services that prevent crisis conditions and provide alternatives to inpatient psychiatric care. The system is heavily tilted toward responding to crisis conditions, with the primary service strategy of inpatient psychiatric care in out-of-county facilities.

Based upon our research and analysis and our discussions with Key Informants, we recommend the following program services are all needed in Mendocino County:

- PHF or other inpatient psychiatric care;
- Crisis Residential Treatment;
- Crisis Stabilization Unit (CSU);
- Expanded outreach, such as the Mobile Outreach Teams;
- Addressing service needs of outlying and remote areas of the county;
- Expansion of support programs and wellness efforts, with special attention to making these services more robust by including medication management, employment services, and other services to support families;
- Day Treatment;
- Supportive Housing;
• Partial hospital care/rehabilitative care/board and care; and,
• Expansion of substance use disorder treatment.

Among these, the need for an expanded support programs and wellness efforts – with direct services provided to individual consumers and their families – was most emphasized by consumers and family members. In our interviews, these informants shared their struggles in managing their needs, or in assisting with the care of their loved ones, and their feelings of isolation and lack of connection and support. Collectively, they pointed to a need for one-on-one coaching support for consumers to help them reach their goals for recovery and healing; more support for family members assisting their loved ones in recovery; broad based wellness efforts across the county, not just in populated areas; employment services; and, support with transportation to get to needed services.

Over the next five years we believe the primary principle that should drive Measure B policy-making is a commitment to developing a comprehensive mental health services continuum in Mendocino County that provides a broad range of services and supports that remediate mental health conditions at the earliest possible time and reduce inpatient psychiatric utilization. As a part of this, we believe policy makers should establish a policy goal of Measure B funding is to reduce the need for inpatient psychiatric care, while simultaneously assuring that inpatient psychiatric care is available in the County when needed. We believe
a goal of a 50% reduction in the use of inpatient psychiatric care within five years, by FY 2022-23, is a responsible goal. This would reduce daily hospital utilization from 15.1 persons per day to a more sustainable 7.6 persons per day.

With respect to the SUDT services continuum, as we discussed in this report, Mendocino County’s current array of SUDT services is limited to a small set of services. The near-term expansion of these services hinges primarily on the County’s determination of how it will proceed with the Drug Medi-Cal Organized Delivery System (ODS). If the County does not implement the new ODS, either through county administration or through Partnership Health Plan (PHC), then the expanded continuum of services will not be available to residents of the County. As of this writing, we do not know what the real viability of the PHC plan is, so we are not in the position to make a recommendation about this approach. However, we do know that county administration of the ODS would set a very high bar for the County because the County would be required to directly administer services under a managed care model that is similar in approach to that required for the County’s Mental Health Plan, which the County has contracted out to a third party administrator.

In the near term, we believe it makes sense for policy makers to assess where Measure B funds can be allocated to expand access to SUDT services in the County, either through current service contracts or through new contracts with providers, so that more people can be served. As reported by BHRS, only 707 persons received SUDT services in FY 2016-17 from all funding sources. We believe this small number is far out-paced by the level of need, and an allocation of Measure B funds for an expansion of SUDT services is not only appropriate, but also essential. In addition, we believe some of these resources should be dedicated to dual treatment of SUDT and mental health conditions.
XI. **Key Policy Decisions and Recommended Actions**

It is recommended the Mendocino County Board of Supervisors approve the following policy approach pertaining to the use of Measure B revenues:

**GUIDING PRINCIPLE:** The guiding principle for the use of Measure B revenues is the development of a comprehensive mental health services continuum in Mendocino County that provides a broad range of services and supports that remediate mental health conditions at the earliest possible time and reduce the need for inpatient psychiatric utilization.

**KEY POLICIES:** The following policies are recommended to assist Mendocino County in meeting its goal of a comprehensive mental health services continuum:

1. Measure B funds should *supplement, not supplant*, existing sources of funding for mental health and SUDT services, which include Realignment, MHSA and Medi-Cal funding.
   a. Prior to considering any proposed spending of Measure B funds that would supplant an existing source of funding for behavioral health services, a programmatic and fiscal analysis of such proposed spending should be prepared for consideration by the Board of Supervisors.

2. A biannual review process of Measure B spending and its impact on the mental health and SUDT continuums of care should be undertaken and presented to the Board of Supervisors.

3. A Measure B “Prudent Reserve” should be established and funded to provide additional revenue for behavioral health programs in Years 6-10 of Measure B, when funding will be less due to the drop from 1/2-cent to 1/8-cent sales tax.

4. In addition to standard accounting of behavioral health revenues and expenditures by BHRS, a separate annual accounting of all Measure B revenues and expenditures should be undertaken that is distinct from BHRS’ accounting.
   a. The Board of Supervisors would determine the public or contracted entity that will responsible for carrying out a separate accounting of Measure B revenues and expenditures; and,
   b. A biannual accounting report on Measure B revenues and expenditures should be prepared for the Board of Supervisors by the responsible entity.

5. A 10-Year Strategic Spending Plan for Measure B revenues should be adopted that addresses top priority needs in Years 1-5 of Measure B funding, establishes a Prudent Measure B Reserve for use in future years, and provides a framework for continued funding of identified priorities in Year 6-10 that provides flexibility to refine and revise spending priorities over time.

6. BHRS, RQMC and its subcontractors should be directed to restructure the manner in which data is provided to the Board of Supervisors and the public on the populations served by current and newly funded behavioral health programs so that client-level data is collected and reported by program and by region, and quarterly monitoring of utilization and service trends can be more fully evaluated.
XII. Proposed Measure B Strategic Financing Plan

To effectuate program development, it is recommended the Mendocino County Board of Supervisors approve a 10-Year Measure B Strategic Financing Plan to guide current and future use of Measure B revenues. The Financing Plan proposed in this section is designed to address the key shortcomings of the current mental health and SUDT continuums of care that Kemper Consulting Group has identified through its assessment of service gaps and future needs. The proposed Measure B Strategic Financing Plan that follows would address the following priority areas of need for mental health and substance use disorder services:

1. Create an in-county residential treatment alternative to inpatient psychiatric care by funding construction of a Crisis Residential Treatment facility (land already purchased, plans approved, construction pending financing);
2. Create a centralized system for mental health crisis assessment and intervention through annual dedicated operational funding for a Crisis Stabilization Unit (construction included as part of Crisis Residential Treatment facility), along with Medi-Cal and other reimbursements;
3. Create in-county inpatient psychiatric treatment capacity by funding construction of Psychiatric Health Facility (pending RFP process); operations to be funded from existing revenue sources, including Realignment and Medi-Cal;
4. Reach more persons with mental illness through expansion of programs and supports in communities across Mendocino County, based on a plan to be developed by BHRS. Such plan would consider all of the following: expansion of mobile outreach; expansion of wellness programs to include more robust array of services (medication management, employment services, other supports); expanded monitoring of clients engaged with the mental health system through greater intensity support services; one-on-one consumer and family support programs; and, day treatment and/or partial hospital programs.
5. Reach more persons with substance use disorders through expansion of programs and supports in communities across Mendocino County, based on a plan to be developed by BHRS.
6. Expand the reach of Full Service Partnerships to more seriously mentally ill people by dedicated annual funding (pending proposal from BHRS);
7. Expand in-county Supportive Housing opportunities for mentally ill persons, including homeless mentally ill and individuals under conservatorship, by creating a Supportive Housing Pool for alternative housing support uses, such as construction, match for state/federal financing opportunities, rental subsidies and vouchers (pending proposal from BHRS and the county housing authority); and
8. Create a Prudent Reserve that is carried forward into Years 6-10 of the initiative, when the rate of sales tax collection drops from 1/2-cent to 1/8-cent and annual revenues drop from roughly $7.5 million to $2.0 million.

*Net Reserve potentially available for Regional Behavioral Health Training Facility
Taken together, the recommended policy actions and the Measure B Strategic Financing Plan would create a framework for building out the existing, limited continuums of care for both mental health and substance use disorder treatment over time. The proposed financing plan will not address all needs in all areas at the same time; and, it is assumed that service needs will be redefined over time as the services continuums are expanded. Thus, within certain categories of proposed spending, notably Support Services and Supportive Housing, it is intended that BHRS leadership, in consultation with RQMC, the Measure B Committee, the Behavioral Health Advisory Committee, and community stakeholders, further refine the areas where service expansion can be undertaken in a timely and cost-effective manner.

1. **Program Development Action Steps**

It is recommended the Board of Supervisors take the following steps toward implementation of the new mental health and SUDT programs recommended in the proposed Measure B Strategic Financing Plan:

1. Approve appropriation of funding of an amount up to $4.75 million from Year 1 Measure B revenues for construction of the Crisis Residential Facility/Crisis Stabilization Unit planned for the site at 631 S. Orchard Street in Ukiah, if no other funding is readily available.
2. Direct the BHRS Director, in consultation with RQMC and the Behavioral Health Advisory Board, to prepare a plan for utilization of Year 1 Measure B funds for the following service categories: expansion of specific services under the Supportive Services category; expansion of FSP services; and expansion of SUDT treatment services, including dual diagnosis treatment services.
3. Authorize the CEO to undertake a Request for Proposals (RFP) process to solicit proposals from qualified operators of Psychiatric Health Facilities (PHF) in California for construction and operation of a 16-bed PHF on land to be identified by Mendocino County. This RFP would be structured to require bids in two ways:
   a. Ownership and operation of the facility by the PHF operator under a long-term land lease agreement; and,
   b. Ownership of the facility by the County of Mendocino and operation of the PHF under a long-term Services Agreement with the PHF operator.
4. Authorize the CEO to undertake a Request for Proposals (RFP) process to solicit proposals from local hospitals in Mendocino County for construction of inpatient psychiatric beds that would be owned and operated by these hospitals, but would be committed with first priority to Mendocino County under a long-term agreement that is conditional for allocation of construction funding from Measure B.
5. Direct the BHRS Director, in consultation with the county housing authority, RQMC, the Measure B Committee, and Behavioral Health Advisory Board, to prepare a strategic plan for the development of expanded housing support programs for persons with mental illness and/or recovering from substance use. Such plan should address priorities for construction, services and vouchers or rental subsidies.

TO: Measure B Committee  
FROM: Lee D. Kemper, Principal  
Kemper Consulting Group  
RE: Follow Up to August 29, 2018 Presentation

In follow up to my presentation of Kemper Consulting Group’s report, “Mendocino County Behavioral Health System Program Gap Analysis & Recommendations for Allocation of Measure B Revenues,” I write to provide the following additional information:

1. Construction Cost Estimates for Psychiatric Health Facility

Kemper Consulting Group has been able to verify that the cost estimate of $5 million to $6 million for construction of a Psychiatric Health Facility (PHF), not including land, was not based on a prevailing wage requirement. It was based on construction costs for a private business. Based upon our subsequent research, we project the impact of a prevailing wage requirement on PHF construction costs would be an increase of 30%* above the top range of $6 million. This would increase the estimated cost to $7.8 million (not including land). Our original top-end estimate was $7.5 million.

The basis for this projection is from the most recent study we found in California of the impact of a prevailing wage requirement on construction costs. While this study looked at market rate housing in California, we believe it is a reasonable proxy for the impact of prevailing wage generally. This study found that the increase in hourly labor costs resulting from prevailing wage would result in a 30% increase in residential construction costs in Mendocino County, and an average increase of 37% for California statewide. A copy of this study is attached.

2. Updated Measure B Strategic Financing Plan

During discussions with the Measure B Committee, Sheriff Allman asked that the proposed Strategic Financing Plan be revised to show a 10% set-aside for the regional behavioral health training facility. The attached updated financing plan reflects this change along with an increase in the amount specified for construction of a PHF (not including cost of land) described above. This updated financing plan also more specifically aligns the revenue estimates with the amounts projected by the Mendocino County Auditor-Controller.

3. Comparability of Cost Estimates for PHF Construction

During discussions with the Measure B Committee, it was reported that the estimate of $11.2 million to $14.9 million for rehabilitation of the old Howard Hospital building included costs for
two facilities: a PHF and a separate psychiatric rehabilitation facility. To enable an “apples to apples” comparison of estimated PHF construction costs between this estimate and the estimate we have provided in our report, we recommend that the Measure B Committee ask the Howard R. Hospital Foundation for a revised proposal from Heller & Sons that shows the separate costs of construction of each of these facilities.

Kemper Consulting Group has recommended that a PHF be constructed with Measure B funds along with a Crisis Residential Treatment facility and a Crisis Stabilization Unit. Our firm has not recommended construction of a psychiatric rehabilitation facility in addition to these recommended facilities.

ITEM 3F

Meeting Date: 1/23/2019

Contact: Chair Barash

Time Allocated for Item: 20 mins

AGENDA TITLE:
Discussion and Possible Action Including Approval of a Recommendation to the Board of Supervisors Regarding a Request for Proposal (RFP) for a Biddable Design of a Combined Residential, Crisis Stabilization and Crisis Access Facility in the Ukiah Valley.

PAST BOARD ITEMS: March 17, 2015, Item 4(l); July 7, 2015, Item 4(m); March 15, 2016, Item 4(f); May 23, 2017, Item 4(b)

SUMMARY OF REQUEST / BACKGROUND INFORMATION:
Consistent with the findings in the Kemper Report and Lee Kemper’s comments while addressing the Committee, the highest priority is to create a combined crisis residential, crisis stabilization, and crisis access facility similar to that already proposed by Redwood Community Services.

Senate Bill (SB) 82, the Investment in Mental Health Wellness Act of 2013, established a competitive grant program to disburse funds to California counties for the development of mental health crisis support programs. The Health and Human Services Agency (HHSA) applied for these funds and was awarded $500,000 to develop a Crisis Residential Treatment Program (CRT). The Board of Supervisors approved the initial application on March 17, 2015, and acceptance of the award on July 7, 2015.

On March 15, 2016, HHSA edited the application to include Redwood Community Services (RCS) as the contractor, as the proposed contractor, Ortner Management Group, withdrew from providing services in Mendocino County. The Board authorized acceptance of funds with the change in contractor. In April 2016, the County requested an extension of the grant deadline from June 30, 2016 to June 30, 2017. The extension was granted.

In March 2017, the County received a second extension to May 31, 2018 to provide the County and RCS more time to purchase property and develop a CRT. The Board approved a $380,000 grant-funded subcontract with RCS on May 23, 2017, to purchase land and support the development of a CRT in Mendocino County. RCS purchased the Orchard Street property on June 5, 2017 to be used as the location of the CRT. RCS received from County Mental Health Services $380,000 to purchase the land. County Mental Health is to be reimbursed for the funds...
provided to RCS for the purchase of the property once a lease agreement is executed between RCS and Mendocino County. This is a requirement of the Investment in Mental Health Wellness Act Grant prior to disbursement of funds. The lease agreement has to be approved by RCS, County, and State. To-date the state has not reimbursed any of the funding.

In April 2018, the state extended the grant period to June 20, 2021 to allow for further development of the CRT. The CRT must be fully operational by May 31, 2021, in order to guarantee the use of the Investment in Mental Health Wellness Act Grant funds.
TO: Board of Supervisors  DATE: February 26, 2015

AGENDA TITLE: Authorization for the Mendocino County Health and Human Services Agency (HHSA) Behavioral Health and Recovery Services (BHRS) to Apply for an Investment in Mental Health Wellness Act of 2013 Grant to Provide a Crisis Residential Treatment Program and Authorize Chair to Sign Application Certification

PREVIOUS BOARD/BOARD COMMITTEE ACTIONS: December 17, 2013, Item 4(g), June 3, 2014, Item 4(j)

SUMMARY OF REQUEST: Senate Bill (SB) 82 the Investment in Mental Health Wellness Act of 2013 established a competitive grant program to disburse funds to California counties or to their nonprofit or public agency designates for the purpose of developing mental health crisis support programs. Specifically, funds will “increase capacity for client assistance and services in crisis intervention, crisis stabilization, crisis residential treatment, rehabilitative mental health services, and mobile crisis support teams.” The grants from the California Health Facilities Financing Authority (CHFFA) support capital improvement, expansion and limited start-up costs.

Behavioral Health and Recovery Services will apply for the allotted amount of $500,000 to develop a Crisis Residential Treatment Program. The grant application is due March 30, 2015.

AGENDA TITLE: Authorization for Mendocino County Health and Human Services Agency (HHSA) Behavioral Health and Recovery Services (BHRS) to Accept $500,000 from SB82, The Investment in Mental Health Wellness Act of 2013 Grant to Develop a Crisis Residential Treatment Program

PREVIOUS BOARD/BOARD COMMITTEE ACTIONS: March 17, 2015 item 4(l)

SUMMARY OF REQUEST: Senate Bill SB82, the Investment in Mental Health Wellness Act of 2013, established a competitive grant program to disburse funds to California counties or to their nonprofit or public agency designates for the purpose of developing mental health crisis support programs. Mendocino County HHSA BHRS applied for the grant and was awarded $500,000.

Acceptance of award was due to the State by noon on Thursday, June 18, 2015. According to County Policy 25, in situations when action is required prior to a Board meeting, the County CEO may pre-approve a waiver, provided the Department returns to the Board for ratification at the next available Board meeting. This action was taken and today we seek ratification from the Board of Supervisors for this item.

BHRS will work to develop a crisis residential treatment program with the awarded funds.

AGENDA TITLE: Adoption of Resolution Authorizing Health and Human Services Agency (HHSA) Behavioral Health & Recovery Services (BHRS) Director to Accept the Senate Bill (SB) 82, Investment in Mental Health Wellness Grant Program Final Allocation Third Round Funding (Crisis Residential Treatment (CRT)) Grant Award of $500,000 from the California Health Facilities Financing Authority (CHFFA)

PREVIOUS BOARD/BOARD COMMITTEE ACTIONS: December 17, 2013, Item 4(g), June 3, 2014, Item 4(j), March 17, 2015, Item 4(l), July 7, 2015, Item 4(m).

SUMMARY OF REQUEST: Senate Bill (SB) 82, the Investment in Mental Health Wellness Act of 2013, established a competitive grant program to disburse funds to California counties or to their nonprofit or public agency designates for the purpose of developing mental health crisis support programs. Specifically, funds will “increase capacity for client assistance and services in crisis intervention, crisis stabilization, crisis residential treatment, rehabilitative mental health services, and mobile crisis support teams.” The grants from the California Health Facilities Financing Authority (CHFFA) support capital improvement, expansion, and limited start-up costs.

Behavioral Health and Recovery Services (BHRS) applied for, and was awarded, the allotted amount of $500,000 to develop a Crisis Residential Treatment Program. We plan to establish ten (10) beds for voluntary crisis service placements by adding a Crisis Residential Treatment (CRT) facility. The CRT will provide additional movement throughout the Crisis Continuum of Care, providing law enforcement increased opportunity for a warm hand-off to trained personnel for persons in mental health crisis. Ongoing funding sources for sustainability will include appropriate Federal Medi-Cal reimbursement and increased billing potential with the implementation of the Affordable Care/Medi-Cal Expansion Act.

Item Type: Consent Agenda Time Allocated for Item: N/A

Agenda Title:
Approval of Agreements with Redwood Community Services, DBA Arbor Outpatient Drug Free Clinic, in the Amount of $105,000 for Fiscal Years 2016-17 and 2017-18 and Redwood Community Services in the Amount of $380,000 for Crisis Residential Treatment Services for the Term of May 2, 2017 through June 30, 2017

Recommended Action/Motion:
Approve Agreements with Redwood Community Services, DBA Arbor Outpatient Drug Free Clinic, in the Amount of $105,000 for Fiscal Years 2016-17; and with Redwood Community Services in the Amount of $380,000 for Crisis Residential Treatment Services for the term of May 2, 2017 through June 30, 2017; authorize the Health and Human Services Agency Director or designee to sign any future amendments to the Agreement that do not affect the annual maximum amount; and authorize Chair to sign same.

Previous Board/Board Committee Actions:
None

Summary of Request:
Arbor Outpatient Drug Free Clinic is a State Certified Drug Medi-Cal provider with services located at 810 North State Street in Ukiah. Individual and group counseling services will be provided to Transitional Age Youth at the clinic 8 a.m. to 5 p.m., Monday through Friday, for fiscal years 2016-17 and 2017-18. In order to meet Medi-Cal eligibility and medical necessity criteria, clients will have a dual diagnosis of co-occurring mental health issues and substance abuse disorders.

Redwood Community Services (RCS) has also been working with Behavioral Health and Recovery Services to secure new state and federal funding to establish a Crisis Residential Treatment Center in Mendocino County. This will be a 10-bed, 24 hour licensed facility certified by the Department of Health Care Services to provide alternatives to acute hospitalization for individuals experiencing an acute psychiatric episode or crisis. The length of stay is no longer than three months. This agreement will help leverage the necessary funding to complete a real property purchase to construct and develop a Crisis Residential Treatment Center.

Alternative Action/Motion:
Return to staff for alternative handling.
